Foreword

TheDistrictLeagueTable (DLT) since its inception in 2014 has served as one of the important tools in promoting transparency, accountability and evidence-based decision-making at

the national and subnational levels. The tool complements National Development Planning Commission's (NDPC) mandate of monitoring and evaluating development outcomes at the subnational level. It highlights the inequalities and disparities in wellbeing across the country. It also provides a multi-sectoral, integrated assessment of how Ghana is developing across all its Districts, based on selected sectors and indicators which measure critical aspects of the sectors' development.

The 2022 DLT version ranked all 261 Metropolises, Municipalities and Districts to determine the wellbeing of citizens based on eight sectors and eighteen indicators with a focus on the survival and development of children. The selected indicators have also been broadened to incorporate SDGs and Agenda 2063 indicators to generate appropriate district level data and analysis for achieving these international commitments. The sectors of focus are education, health, nutrition, water, sanitation, energy, governance and child protection. Child protection is a new sector introduced in the 2022 DLT to assess improvement in vital statistics for children.

Generally, the production of the DLT on an annual basis has strengthened efforts in generating regular and accurate administrative

data overtime. However, the processes have also exposed some systemic weaknesses in data production at the local level. Despite these challenges, the demand and use of the DLT have attracted interventions to strengthen data in many of the sectors.

The National Development Planning Commission and the United Nations Children's Fund (UNICEF) continue to collaborate to enhance the monitoring and evaluation of Ghana's development agenda and international commitment such as the SDGs and Agenda 2063.

The Commission, its partners, and duty bearers have seen the DLT as a call to action to accelerate efforts in serving the citizens of Ghana equitably. The Commission is committed to sustaining the process to ensure that the DLT serves as one of the official assessment tools to determine the level of disparities in development and a reference point for more equitable resource allocation and social investment, to reduce disparities across the country.

Gob annizillan

Professor George Gyan-Baffour Chairman, NDPC

Kodjo Esseim Mensah-Abrampa, PhD. Director General, NDPC

Acknowledgements

NDPC and UNICEF Ghana express appreciation to their partners – Ministries, Departments and Agencies (MDAs) and Metropolitan, Municipal and District Assemblies (MMDAs) – for the support in the provision of data and contributions to enrich the document. Special thanks go to the Ministry of Health; Ghana Health Service; Ministry of Education; Ghana Education Service; Ministry of Gender, Children and Social Protection; Births and Deaths Registry; Ministry of Local Government, Decentralization and Rural Development; Office of Head of Local Government Service; and Ghana Statistical Service. In addition, MMDAs are acknowledged for the submission of reports that provided valuable information for the District League Table Report.

Further appreciation goes to Dr. Kwadwo Opoku from the Centre for Social Policy Studies, University of Ghana, the DLT Steering Committee and Technical Working Group from selected MDAs, the Social Policy and Inclusion Section of UNICEF Ghana, and the staff at NDPC working on the DLT for their technical expertise.

Executive Summary

The 2022 District League Table (DLT) Report builds on the progress of work accomplished over the last seven editions and provides an assessmentofthelevelsofdevelopmentacross all the 261 Metropolises, Municipalities and Districts (MMDs) of Ghana, based on selected indicators from health, nutrition, education, water, sanitation, energy, child protection and governance. In all, 18 indicators were used to prepare the report.

As in previous years, the indicators were selected, taking into consideration four important criteria – (i) key priority for people's social wellbeing and development; (ii) available in an annually produced national database for every district in Ghana on a timely basis; (iii) represent an output or outcome, not an input; (iv) assess equity and accessibility. The data used for the DLT scores were provided by the Ministries, Departments and Agencies (MDAs) and Metropolitan, Municipal and District Assemblies (MMDAs) responsible for the respective sectors and indicators.

The factor analysis methodology was deployed in developing the scores and rankings to allow for weighting as some sectors had more than one indicator. The report ranks all MMDs in each of the eight sectors. Regional level analysis has also been done to show the levels of disparities across each of the eight sectors, as well as for the overall ranking.

The 2022 District League Table Report has once again provided evidence of the wide disparities in the levels of social development across the country and highlighted how some segments of the population, including children, are left behind in access to service delivery and development outcomes because of where they reside.

Education 👕

The majority of the top ten MMDs were concentrated in the Central, Greater Accra, and Upper East regions. Ayawaso North Municipality in the Greater Accra Region was the least, maintaining its position in 2021. The Central Region improved its rank from 2nd to 1st while Savannah Region maintained its 2021 position as the least ranked region.

Health 💎

The Greater Accra Region dominates the top and bottom 10 MMDs, with the top being Korle-Klottey Municipality (96.7%) and the bottom Ablekuma North Municipality (10.1%). The Eastern Region that came 1st in 2021 declined to 13th position in 2022.

Nutrition

The districts dominated the top 10 in nutrition contrary to popular opinion that metropolises and municipalities have better access to health facilities and personnel. There were no MMDs from the Greater Accra and Eastern regions in the top 10. However, there were six MMDs located in Greater Accra Region in the least performing 10 MMDs. Only four regions achieved scores higher than 70 percent in 2022.

Water 🌘

There were 14 MMDs that achieved 100 percent access to basic drinking water. Of these, 13 are located in the Greater Accra Region. In contrast, majority of the MMDs in the bottom were from the northern part of the country, highlighting the disparity between the north and south. With the exception of Greater Accra that maintained its ranking in 2022, all others recorded changes in rankings.

Sanitation

The majority of the MMDs in the top 10 were municipalities. Asutifi North was the only district in the top 10. On the contrary, majority of the least 10 were districts. Three of the lowest-performing regions (Northern, Upper East, and Savannah) are located in the northern part of the country.

Energy **F**

The number of MMDs with universal access to electricity improved from 30 in 2021 to 34 in 2022, with the majority situated in the Greater Accra region. There were four districts - Bosomtwe, Ekumfi, Lower Manya Krobo and Shama – with universal access in 2022. All MMDs in the bottom 10 were districts. The majority of regions with limited access to electricity were in the northern part of the country, highlighting the north-south development disparity that warrants policy attention.

Governance 🏦

The majority of the MMDs in the top 10 were districts, contrary to the situation in 2021 where there was a split between districts and municipalities. There were no MMDs from the northern part of the country in the top 10. There was a general decline in the ranking for all MMDs in the least 10 in 2022, with Tamale Metropolis continuing to be in the least scoring. Almost all regions recorded implementation rates over 80 percent in 2022.

Child Protection 😃

There were 79 MMDs that attained a 100 percent score spanning various regions. Greater Accra region recorded the most MMDs in the top performance. Seven out of the ten lowest-ranked MMDs were located in the Eastern region. Majority of regions had scores above 80 percent, with the Savannah Region topping.

Overall Performance

Most of the top performing MMDs were located in the Greater Accra Region, with Korle-Klottey Municipality emerging top with a score of 85.8 percent. Conversely, majority of the MMDs in the bottom 10 were located in the northern part of the country. Greater Accra Region achieved the highest score based on the eight sectors of DLT, maintaining its position in 2021, while the Savannah Region recorded the lowest score, same as in 2021.

The level of disparities in access to basic social services among regions and geographical location calls for further action, especially as the country draws closer to the implementation of the Agenda 2030.

INTRODUCTION

1. Introduction

Background

The District League Table (DLT) was initiated by UNICEF Ghana, in partnership with CDD-Ghana in 2014, as a tool for tracking national development; highlighting Metropolises, Municipalities and Districts (MMDs¹) that are doing well and those challenged in terms of wellbeing of the population. The DLT ranks all MMDs in Ghana from 1st to 261st based on selected indicators from various sectors. The DLT has been produced and disseminated annually since 2014 with various modifications on indicators and methodology.

Key partners over the years have been the Ministry of Local Government, Decentralization and Rural Development (MLGDRD), Ghana Statistical Service (GSS), and the Office of Head of Local Government Service (OHLGS), including all the MDAs and public institutions that have been providing data for the analysis. The Regional and District Planning and Coordinating Units have also been involved, especially during the regional pre-launches and post-launch events. Parliament, notably the Committees on Local Government and Poverty Reduction have also appreciated the outcomes of the DLT and committed to support efforts at a more equitable resource allocation.

Activities, with respect to past DLTs, especially the national and regional launches have generated a significant amount of public interest with the support of the media, leading to increased awareness of disparities among districts. The report has also generated discussions at the district level, and therefore provided a platform for enhanced social accountability between District Assemblies and their citizens.

Even though the DLT has raised issues regarding quality-of-service delivery and wide disparities in wellbeing among the 261 MMDs, the bigger objective of generating action by Government and its stakeholders towards ensuring better prioritisation and equitable resource allocation, has not been achieved. In this regard, the partnership structure changed in 2021 to involve NDPC, the government's lead agency for national development planning, to enhance the use of the DLT.

Goal for the DLT

The goal of the 2022 DLT remains the same as previous ones: to generate appropriate district level data; conduct an independent analysis; and make findings and recommendations with key messages to engender policy dialogue and actions at both the national and district levels, towards reducing inequalities and leaving no child behind in achieving the SDGs.

Objectives of the DLT

The objectives of the DLT have not changed over the years, and they are as follows:

- 1. Enable Government gain better understanding of the status of wellbeing across the MMDs in the country;
- Provide the evidence and basis for more equitable resource allocation and social investment to reduce disparities among MMDs;
- 3. Increase social accountability around

¹ The National Development Planning (Systems) Regulation, 2016 (L.I. 2232) defines as the area of authority of an Assembly

service delivery between national/local government and citizens; and

4. Improve state responsiveness in development and service delivery at the subnational level.

Scope

The DLT concept is developed around a framework composed of two important elements: sectors and indicators. The sectors represent conceptual categories that could be measured to determine development progress. Each sector is composed of related indicators that measures critical aspects of the sector's development. Thus, selecting appropriate set of indicators which best capture the development concept within the sector is critical for designing the index of DLT. The indicators for the DLT must meet the following criteria:

- i. key priority sector for people's wellbeing and MMDs development;
- ii. an output or outcome as much as possible;
- iii. data availability for most MMDs annually in administrative databases at national and subnational levels; and
- iv. help in assessing equity, accessibility, and quality.

Eighteen (18) indicators were selected for the analysis. The sectors and their respective indicators which met the criteria for the 2022 District League Table are as follows:

Sector	Indicator		Source of the Data
	1.	Net enrolment rates at KG for Boys and Girls	
	2.	Net enrolment rates at Primary for Boys and Girls	
Education	З.	Net enrolment rates at JHS for Boys and Girls	EMIS 2021/22
	4.	Completion rate at primary for Boys and Girls	
	5.	Completion rate at JHS for Boys and Girls	
	1.	Proportion of mothers who made at least 4 ANC visits	
Health	2.	Proportion of newborns/mothers receiving PNC within 48 hours of delivery	
пеан	3.	Proportion of children under 1 year fully immunised (Penta 3 as proxy)	
	4.	Skilled attendant at delivery	DHIMS 2
	1.	Exclusive breastfeeding rate among infants 0- 3 months	
Nutrition	2.	Vitamin A Coverage for children 6-59months	
NUTITION	3.	Early initiation of breastfeeding Rate	
	4.	Percentage of pregnant women anaemic at registration	
Water	1.	Proportion of population with access to basic drinking water services	
Sanitation	1.	Proportion of population with access to basic sanitation services	MMDAs 2022 APR
Energy	1.	Percentage of communities covered by electricity	
Governance	1.	Proportion of Annual Action Plan implemented	-
Child Protection	1.	Percentage of births registered	BDR

Table 1: Sectors and indicators used for District League Table

2

METHODOLOGY

2. Methodology

This section describes the methodology that was used to calculate the scores for the 2022 DLT. The section provides a step-by-step overview of the process for constructing the 2022 DLT, which included data collection, dealing with missing values or data nonavailability, data transformation, assessment of the fit, and aggregation.

2.1. Data Cleaning, Standardization and Indicator Selection

The report adapted the methodology and appropriates steps of Stern et al. (2018) and Kapoor et al. (2017)² to estimate scores for ranking Metropolises, Municipalities, and Districts (MMDs) in Ghana, based on the existing indicators.

The indicators for measuring the DLT index were measured in different units and are incomparable. Indicators with relatively fewer variations but measured on larger scales compared to other variables may appear to have much greater variation than it does. Hence, the importance of standardization to facilitate comparison. Standardization helps in solving the problem by making indicators unitless as it rescales them with a mean of zero and standard deviation of one.

$$X_{new} = \frac{X - \mu}{\sigma}$$

Define x_{new} and x. Where μ and σ are population mean and population standard deviation, respectively. x and x_{new} denote an

original indicator and its standardized values, respectively.

Some indicators were measured such that social and economic progress were indicated by reduction in values. For those indicators, the values were inverted to make sure that improvement was denoted by increase. For example, percentage of children suffering from stunting were recomputed to become percentage of children not suffering from stunting so that improvement was seen through upward movement in the values of the indicator.

Indicators set within a sector were expected to capture the development concept in the best possible manner. Thus, the indicator selection process involved the inclusion of only the indicators that were conceptually linked to each other and effectively describe the concept of the sector's development. Indicators that did not meet the criteria were excluded from the analysis. The assessment of multiple aspects of fit between indicators and the resultant scores were critical in producing the DLT Index for comparison and ranking. In this regard, a series of fitness tests were conducted in the calculation of the index. First, there was the need to understand the relationship between indicators and the concept of development in the sector. The exploratory factor analysis (EFA) was used to test the underlying factors among the set of selected indicators of each sector. This helped with identifying relevant indicators for a sector. Second, the Kaiser-Meyer-Olkin

² See Stern et al., 2018 – for Social Progress Index: <u>https://ndlink.org/wp-content/uploads/2018/09/2018-Social-Progress-Index-Methodology.pdf</u>; Kapoor et al., 2017 – for Social Progress Index: States of India: <u>https://socialprogress.in/wp-content/up-loads/2017/10/SPI_2017_Methodology.pdf</u>

(KMO) measure of sampling adequacy (MSA) was used to evaluate the goodness of fit of the factor analysis. The MSA was a single value that was used to assess the adequacy of the inter-correlations of a set of variables, and each variable for an EFA. The KMO index ranges from 0 to 1, as a rule of thumb, KMO scores should be above 0.5 (Williams et al., 2010). The indicators that were statistically incompatible were removed at the end of the EFA process.

2.2. Calculation of Sectoral Index Scores for Each District

The DLT index used the Principal Component Analysis (PCA) for calculating the weights of indicators within a sector. Scoring coefficients were used as weight of the indicators in the construction of the sectorial score. Thus, instead of using equal weight for each indicator, factor analysis used the correlation among indicators and between the unobserved factors to generate weight for each indicator. The sectoral sum values were calculated by summing the weighted values using the following formula:

$$Sector_sum_j = \sum weight_{ij} * indicator_{ij}$$

where i is for each indicator, and j is for each district.

The computed sums in each sector were then transformed into values ranging from a scale

of 0 to 100, for ease of comparison across MMDs. These rescaled sectoral scores were calculated by dividing the difference between sectoral sum score for each MMDs and the lowest sum score among MMDs, with the difference between the highest and lowest sum scores. The formula below was used for the transformation:

 $Sector transformed_{j} = \frac{Sector sum_{j} - Worst Value}{Best Value - Worst Value} X 100$

where *Best Value* represents the highest sectoral sum score and *Worst Value* represents the lowest sectoral sum score among MMDs.

2.3. Derivation of DLT Index Score for Each District

The eight (8) sectors—education, health, nutrition, water, sanitation, energy, child protection and governance—of the economy, that were used to compute the overall DLT index for each Metropolis, Municipality and District (MMD), was believed to reflect equally important aspects of the development progress. Therefore, while calculating the index, no priority was given to any sector. Equal weights were assigned to each of them to highlight their role in development. The DLT Index Score for each MMD is derived by averaging sectoral transformed scores of the district.

$$DLT_j = 1/7 \sum_{j} Sector_transformed_j$$

where DLT_j is the DLT index for each MMD.

OBB SECTOR ANALYSIS

3. Sector Analysis

The report on the 2022 District League Table (DLT) provides a comprehensive analysis of sectoral performance under the eight key sectors of education, health, nutrition, water, sanitation, governance, child protection, and energy. It presents the performance scores and ranking distributions in the form of maps and tables.

To ensure easy comprehension, the report uses factor scores to represent multiple indicators or single standardized scores. The aggregated factor scores for all MMDs in Ghana form the basis for categorizing MMDs into five groups based on percentage scores, allowing stakeholders to gauge the performance of each MMD. The maps in the report use a gradient colour scheme, with the top-performing MMDs standing out in a rich, dark brown hue and the lower-scoring groups gradually transitioning to lighter shades, culminating in cream.

The report also focuses on the top ten and least ten performing MMDs, with detailed tables that provide a clear overview of the scores and rankings. In cases where the top-performing MMDs extend beyond the count of ten, additional tables and analyses are thoughtfully incorporated. To provide stakeholders with a more exhaustive reference for further evaluation, the comprehensive scores and rankings for all MMDs across the eight sectors are detailed in Annex I of the report.

3.1. Education

The indicators employed to measure advancements in the education sector include the net enrolment rates for boys and girls at the kindergarten (KG), primary and Junior High School (JHS) levels, as well as completion rates at the primary and JHS levels for both boys and girls.

3.1.1. District Analysis

Table 2 showcases the top ten performing MMDs in education, revealing a dominance of municipalities, encompassing eight out of the leading ten. The majority of the top ten MMDs were concentrated in the Central, Greater Accra, and Upper East regions. Awutu Senya East Municipality improved its position from 2nd in 2021 to 1st in 2022, indicating that there might have been some innovative initiatives that can be learned from to improve other MMDs. With the exception of Awutu Senya East Municipality, all other MMDs in the top 10 of 2021 dropped off. There was a general increase in the rankings of the top 10 MMDs, indicating the plausible improvement in strategies and actions in the education sector in the MMDs.

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Awutu Senya East Municipality	Central	Municipality	2	92.1	1
Ayawaso West Municipality	Greater Accra	Municipality	36	82.5	2
La Dade-Kotopon Municipality	Greater Accra	Municipality	150	77.1	3
Atwima Nwabiagya Municipality	Ashanti	Municipality	15	72.5	4
Assin South District	Central	District	66	71.1	5
Kassena Nankana Municipality	Upper East	Municipality	211	70.2	6
Bolgatanga Municipality	Upper East	Municipality	49	69.1	7
Sekondi-Takoradi Metropolis	Western	Metropolis	225	69.0	8
New Juaben South Municipality	Eastern	Municipality	102	68.1	9
Upper Denkyira East Municipality	Central	Municipality	25	67.2	10

Table 2: Top 10 MMDs in Education Sector

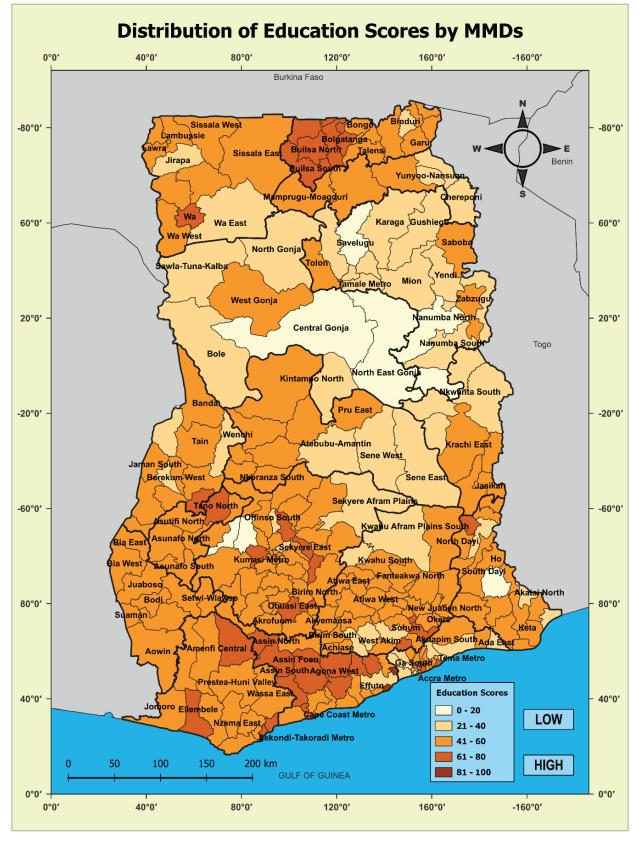

Table 3 indicates the 10 MMDs with the lowest rankings in educational performance. The MMD with the lowest ranking was Ayawaso North Municipality in the Greater Accra Region. The Municipality maintained same status in the year 2021. This situation calls for further diagnosis to understand the causative factors for the continuous poor performance in the Municipality. The majority of the MMDs in the least 10 are located in the northern part of the country. Further, most of the MMDs recorded declines in rankings.

Table 3: Ten (10) Least Scoring MMDs in Education Sector

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Savelugu Municipality	Northern	Municipality	108	19.6	252
Nanumba North Municipality	Northern	Municipality	127	18.2	253
North-East Gonja District	Savannah	District	217	17.1	254
Central Gonja District	Savannah	District	219	15.9	255
Kpandai District	Northern	District	162	13.8	256
Ablekuma Central Municipality	Greater Accra	Municipality	255	12.6	257
Ahafo Ano South-West District	Ashanti	District	203	8.9	258
Ahafo Ano South East District	Ashanti	District	158	8.9	258
Adaklu District	Volta	District	240	8.3	260
Ayawaso North Municipality	Greater Accra	Municipality	261	6.7	261

Map 1 provides a graphical distribution of the education scores across the country; with MMDs in the south relatively achieving higher scores compared to their northern counterparts. However, the least scoring MMDs with scores below 10 percentage points were located in the middle and southern parts of the country. In all, 10 MMDs scored below 20 percentage points in the assessment of educational performance.

Map 1: Distribution of Education Scores by MMDs

3.1.2. Regional Analysis

As shown in Figure 1 and Map 2, the top 5 regions cut across the northern, middle and southern zones of the country. This is a departure from the situation in 2021, where the top 5 regions were from the southern and middle parts of the country (See Table 4). However, the Savannah Region maintained its 2021 position as the least ranked region, highlighting the challenges inherent in education in the region. Despite being the

least ranked region, there has been some improvements over the period 2021-2022 (See Table 4).

The regional performances have also seen improvements over the situation in 2021. Central Region recaptured its position as the leading region in education, after losing its position to Greater Accra Region in 2021.

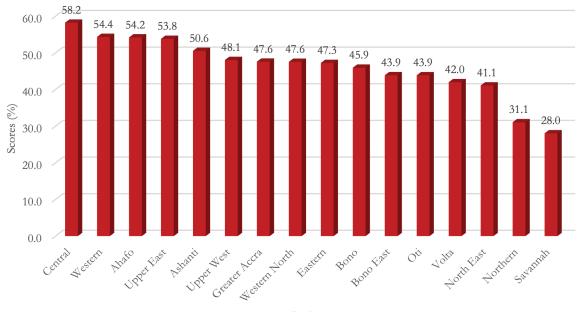

Figure 1: Education Performance by Region

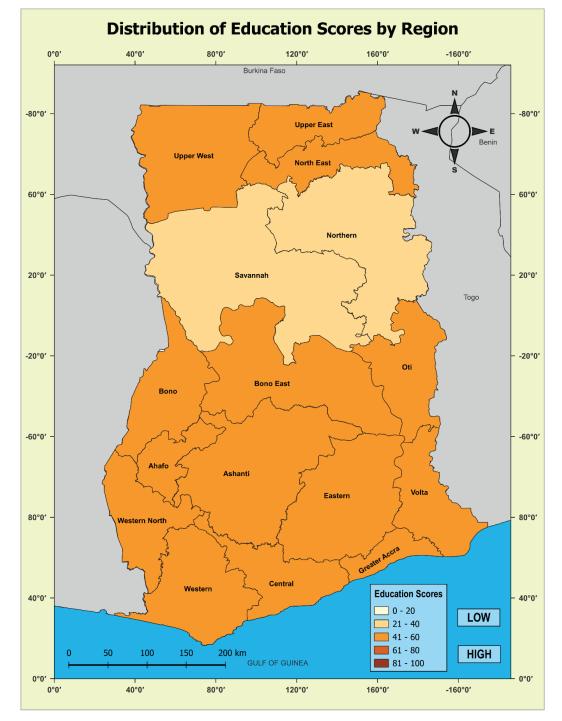

Region

Western	5	54.4	2	
Western North	4	47.6	7	

11

3.2. Health

The following indicators were used to measure the performance of all districts in the health sector:

- i. Proportion of mothers who made at least four ANC visits
- ii. Proportion of newborns/mothers receiving PNC within 48 hours of delivery
- iii. Proportion of children under one year fully immunized (Penta 3 as proxy)
- iv. Skilled attendant at delivery

3.2.1. District Analysis

Table 5 highlights the top ten MMDs in the health sector. The top 10 MMDs are spread across five out of 16 regions, with the predominant MMDs being from the Greater Accra Region. The majority of MMDs represented in the top 10 are metropolises and municipalities. The Korle-Klottey Municipality maintained its 1st position recorded in 2021. There were six³ repeat MMDs in the top 10 from 2021. There were improvements in the rankings for half of the MMDs.

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Korle-Klottey Municipality	Greater Accra	Municipality	1	96.7	1
Ayawaso East Municipality	Greater Accra	Municipality	1	60.5	2
Tamale Metropolis	Northern	Metropolis	101	50.4	3
New Juaben South Municipality	Eastern	Municipality	11	50.2	4
Ayawaso West Municipality	Greater Accra	Municipality	32	49.2	5
Tema Metropolis	Greater Accra	Metropolis	1	48.0	6
Kumasi Metropolis	Ashanti	Metropolis	8	45.8	7
Asutifi South District	Ahafo	District	1	41.6	8
Amansie South District	Ashanti	District	63	38.4	9
Ayawaso North Municipality	Greater Accra	Municipality	1	37.8	10

Table 5: Top 10 MMDs in the Health Sector

The least 10 MMDs in the health sector are presented in Table 6. The bottom 10 are dominated by districts with the most MMDs coming from the Greater Accra Region. Ninety percent of the MMDs in the bottom recorded declines in rankings, instigating a need for investigation especially for Suaman District that witnessed a decline by 48 places. Four of the least 10 MMDs were in the least 10 in 2021.

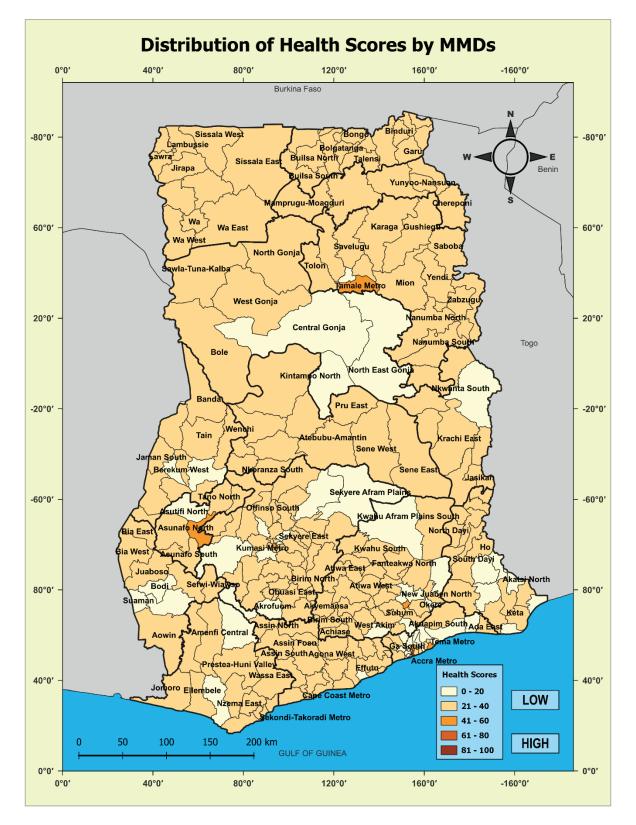

Name	Region	Description	2021 Ranking	2022	
				Score	Ranking
Suaman District	Western North	District	204	15.6	252
Sefwi Akontombra District	Western North	District	219	15.5	253

Ablekuma North Municipality	Greater Accra	Municipality	259	10.1	261

Table 6: Ten (10) MMDs with the Least Scores in the Health Sector

Map 3 shows the performance of MMDs in the health sector; with majority of the MMDs scoring below 40 percentage points. The two high scoring MMDs and the two low scoring MMDs were all in the Greater Accra Region.

Map 3: Distribution of Health Scores by MMDs

3.2.2. Regional Analysis

Figure 2 and Map 4 illustrate the health performance across various regions in 2022. The Eastern Region that came 1st in 2021 declined to 13th position in 2022 (See Table 7). This would require some investigation to ascertain the underlining cause for the significant decline observed within a year. Equally, there could be somelessons learnt from the significant improvement witnessed in the Upper East Region (16 thin 2021 to 1 stin 2022).

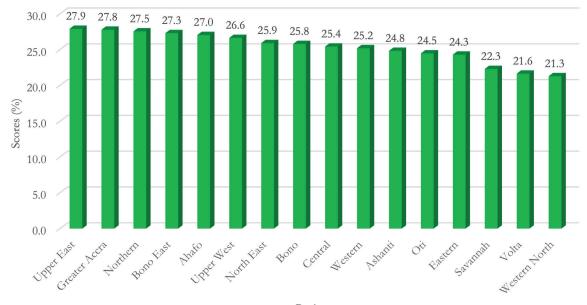

Figure 2: Health Performance by Region

3.3. Nutrition

Access to nutritional needs for children is an important measure of progress of wellbeing or development. The following indicators were used to compute an index to measure the performance in the nutrition sector:

- i. Exclusive breastfeeding rate among infants 0-3 months
- ii. Vitamin A coverage for children 6-59 months
- iii. Early initiation of breastfeeding rate
- iv. Percentage of pregnant women anaemic at registration

3.3.1. District Analysis

Table 8 outlines the top ten MMDs in the nutrition sector. The top 10 MMDs cut across the northern, middle and southern zones of the country. Most of the MMDs were districts contrary to popular opinion that metropolises and municipalities have better access to health facilities and personnel. There were overall improvements in ranking of all MMDs. Absent from the top ten were any MMDs from regions such as Greater Accra and Eastern regions. Only Ekumfi District and Nanumba North Municipality maintained their position in the top 10 from 2021 and also improved their rankings.

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Asunafo South District	Ahafo	District	95	93.42	1
Ekumfi District	Central	District	5	86.19	2
Techiman South Municipality	Bono East	Municipality	89	84.71	3

Bunkpurugu-Nakpanduri District	North East	District	81	81.06	10

Table 8: Top 10 MMDs in the Nutrition Sector

Table 9 shows the bottom 10 MMDs in terms of nutrition. Six out of the least performing MMDs were located in Greater Accra Region. There was only one MMD from the five northern regions —Kassena Nankana Municipality in the Upper East Region. No MMDs from the other northern regions – Upper West, North East, Savannah, and Northern – were included in the bottom 10. Despite these regions being generally perceived as poor, they appear to be performing relatively well in terms of nutrition. The majority of the MMDs rankings declined in 2022. Accra and Tema Metropolises nutritional ranking continued to deteriorate, raising serious concerns about the underlining challenges that militate against such key urban centres having such poor performance. With the exception of Accra Metropolis and Kassena Nankana Municipality, all other MMDs in 2022 were new entrants.

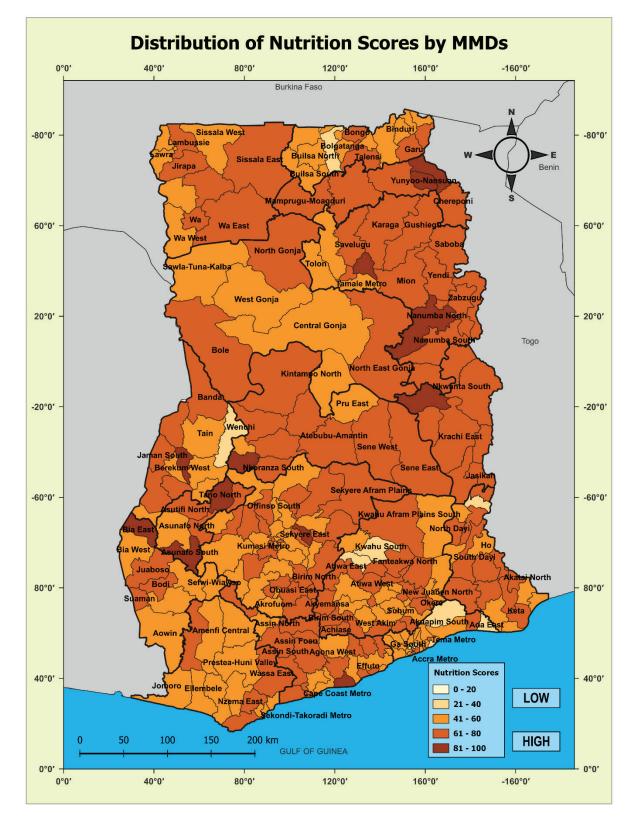

Table 9: Lowest Scoring 10 MMDs in the Nutrition Sector

Name	Region	Description	2021	2022

Ayawaso West Municipality	Greater Accra	Municipality	146	24.95	261

Map 5 illustrates the distribution of nutrition scores. It shows that MMDs ranked among the top 20 percent were distributed across the country. Eleven out of the least 20 ranked MMDs were in the Greater Accra Region.

Map 5: Distribution of Nutrition Scores by MMDs

3.3.2. Regional Analysis

Figure 3 and Map 6 provide a regional analysis of the performance of MMDs in the nutrition sector. Out of 16 regions, only four achieved scores higher than 70 percent. With the exception of Western North, Northern and Upper West regions, all other regions had a change in ranking. The biggest decline in ranking was observed in the Eastern Region while the biggest improvements were observed in the North East Region (See Table 10). Greater Accra Region was the least ranked, reflecting the situation observed in the top 10 and bottom 10.

Map 6: Distribution of Nutrition Scores by Region

Provision and availability of clean water for household consumption is an important measure of progress of wellbeing or development. The development in access to water is measured in this report using the proportion of population with access to basic drinking water services as the sole indicator.

3.4.1. District Analysis

Table 11 provides the top 14 MMDs in the country in terms of the water sector. All 14 MMDs achieved 100 percent access to basic drinking water. Most of these MMDs (13 out of 14) are located in the Greater Accra Region, with the remaining one hailing from the Central

Region. The leading MMDs in water access are primarily municipalities, with only one metropolis included. Given that municipalities and metropolises are typically urban areas, this suggests that access to water is generally higher in urban communities.

Some regions such as the Ashanti and Eastern do not have any MMDs with full water coverage. Most of the MMDs in the top 14 maintained their position from 2021, while the remaining MMDs recorded improvements in rankings in 2022.

Table 11: Top 14 MMDs in the Water Sector

Table 12 outlines the bottom 10 MMDs in terms of water access. The MMDs in the bottom 10 spread across northern, middle and southern zones. Most of the MMDs in the bottom were from the northern part of the country, highlighting the challenges inherent in access to water. Nine out of the 10 MMDs in the bottom recorded declines in rankings in 2022, with the largest decline observed with the Central Gonja District.

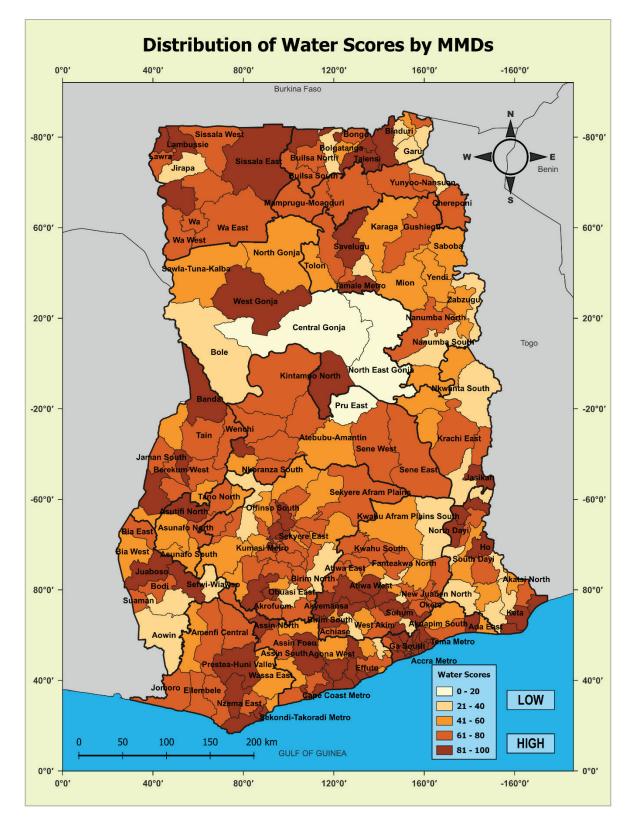

Table 12: Lowest Scoring 10 MMDs in the Water Sector

The distribution of water performance scores by MMDs is also presented in Map 7. The map indicates that more than a third of the MMDs scored 80 and above percentage points.

3.4.2. Regional Analysis

Figure 4 and Map 8 provide a regional analysis of the performance of MMDs in the water sector. The results reveal that only the Greater Accra Region achieved a regional coverage of above 80 percent. With the exception of

Greater Accra that maintained its ranking in 2022, all others recorded changes in rankings (See Table 13). The Savannah Region declined in ranking from 15th in 2021 to 16th in 2022.

Provision of adequate sanitation is an important measure of quality of life as it reduces vulnerability to diseases. The key indicator used to measure performance in the sanitation sector is the proportion of population with access to basic sanitation services.

3.5.1. District Analysis

Table 14 indicates the top 10 MMDs in sanitation. Five of the MMDs in the top 10 are found in the Greater Accra Region, with three achivieving 100 percent access. Most of the MMDs in the top 10 were municipalities, which are predominantly urban. There was only one district – Asutifi North in the top 10, improving its ranking in 2022. The district is currently implementing a WASH Masterplan which could inform the improvements made, highlighting lessons that can be drawn for enhancing other MMDs access.

Generally, there were improvements in rankings for all MMDs in the top 10 in 2022, with the highest improvements observed in the Weija-Gbawe and Nandom municipalities. Further investigations on the strategies leading to the massive improvements would be beneficial for other MMDs.

Table 14: Top 10 MMDs in the Sanitation Sector

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Weija-Gbawe Municipality	Greater Accra	Municipality	154	100.0	1

Table 15 highlights the sanitation sector scores and rankings for the least performing MMDs. Out of the bottom 10 MMDs, nine were districts, with Sagnerigu being the only Municipality. This is similar to the situation in 2021. There was a general decline in the rankings for most MMDs in the top 10 in 2022, with the largest drop observed in North Tongu District in the Volta Region. North Gonja and Amenfi Central districts are the only MMDs that were in the bottom 10 in 2021.

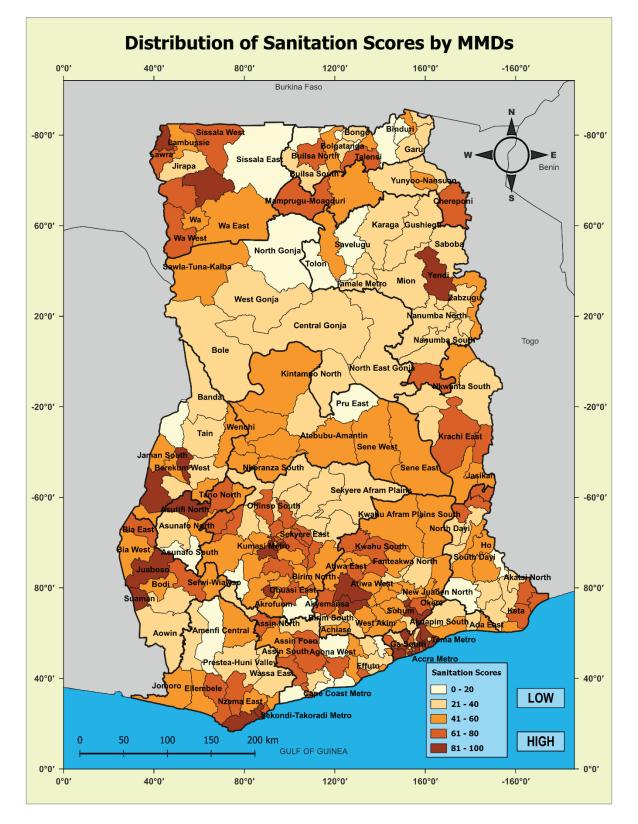

Table 15: Lowest Scoring 10 MMDs in the Sanitation Sector

Map 9 shows that 22 MMDs across the country scored below 20 percentage points in the sanitation sector performance based on the proportion of population with access to basic sanitation services.

Map 9: Distribution of Sanitation Scores by MMDs

3.5.2. Regional Analysis

Figure 5 and Map 10 provide a regional analysis of the performance of MMDs in the sanitation sector. The figure reveals that sanitation levels are relatively low across all regions. Greater Accra Region continued to lead in access to sanitation services in 2022 (See Table 16). Savannah Region continued to have the least access to sanitation services. The three lowest-performing regions – Northern, Upper East, and Savannah – are all located in the northern part of the country.

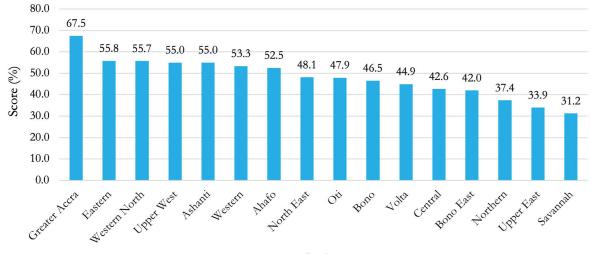

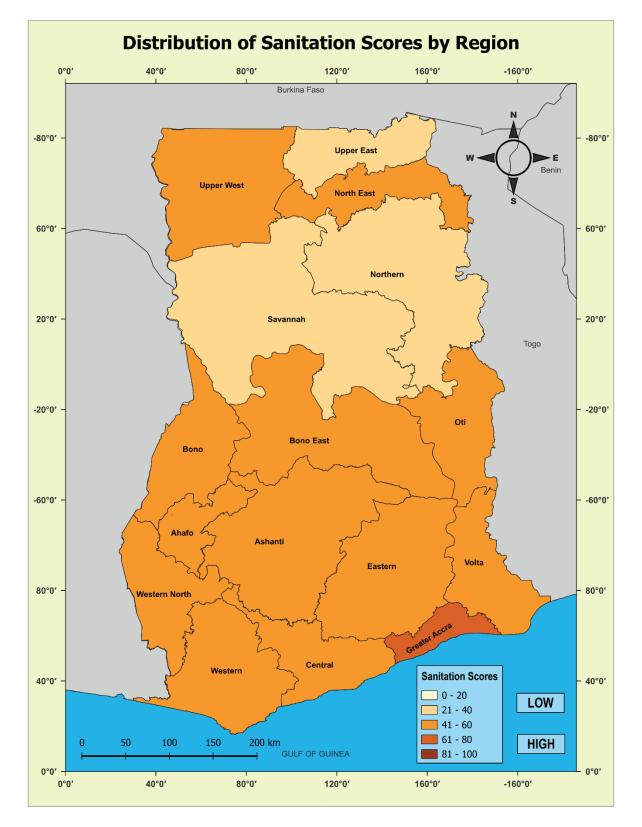

Figure 5: Sanitation Performance by Region

3.6. Energy

The percentage of communities in the MMDs covered by electricity was the indicator used to measure the performance of all MMDs in the energy sector.

3.6.1. District Analysis

Table 17 displays the outcomes for the leading 34 MMDs concerning electricity accessibility. All the top 34 MMDs listed achieved full

coverage in 2022. Most of these highperforming MMDs were situated in the Greater Accra and Central regions. Four out of the 39 MMDs demonstrating exemplary performance were districts – Bosomtwe, Ekumfi, Lower Manya Krobo and Shama. About 67.6 percent of the MMDs in the top 34 maintained their 2021 position.

Map 11 illustrates the distribution of energy scores across the country. More than a half of the MMDs in the country scored 80 percent and above.

Map 11: Distribution of Energy Scores by MMDs

3.6.2. Regional Analysis

Figure 6 and Map 12 analyses the performance of regions in the energy sector. The majority (56.3%) of regions achieved a score above 70 percent in 2022. Greater Accra Region remained the region with the highest electricity access in the country. Most of the regions with limited access to electricity were in the northern part of the country, highlighting the north-south development disparity that warrants policy attention.

With the exception of Greater Accra, Bono, Northern, Savannah and Ashanti regions that maintained its ranking in 2021, all other recorded variations in rankings (See Table 19). The largest improvement in ranking was observed with the Upper West Region.

Map 12: Distribution of Energy Scores by Region

3.7. Governance

Governance sector is measured with one indicator, which is the implementation of the annual action plans. Since only one indicator is used in this sector, raw scores are used for ranking and analysis. The analyses are presented for both district and regional levels.

3.7.1. District Analysis

Table 20 showcases the top 10 MMDs in terms of the implementation of the annual action plan. Majority of the MMDs in the top 10 were districts, contrary to the situation in 2021 where there was a split between districts and municipalities. With the exception of Afigya-Kwabre North District that maintained its 2021 position, all others in the top 10 ranked position in 2021, dropped in 2022. Almost all MMDs in the top 10 in 2022, recorded remarkable improvements in ranking, with the largest rise observed in Ahafo Ano South-East District and Yilo Krobo Municipality. This calls for further analysis to understand the causative factors for the change in direction of implementation, to probably provide lessons for other MMDs.

Further, the consistency of Afigya-Kwabre North District presents opportunity for documenting best practices to share with other MMDs. Also, there were no MMDs from the northern part of the country in the top 10. This is a decline from the situation in 2021 when Karaga District appeared in the top 10.

Name	Region Description		2021	2022

Table 20: Top 10 MMDs in the Governance Sector

Table 21 outlines the MMDs with the lowest rankings in the governance sector. There was a general decline in the rankings for all MMDs in the least 10 in 2022. Tamale Metropolis continued to be in the least scoring MMDs as in 2021, worsening its performance (252 to 261) in 2022. The low-performing MMDs are distributed across eight regions, with Volta and Bono regions each contributing two MMDs.

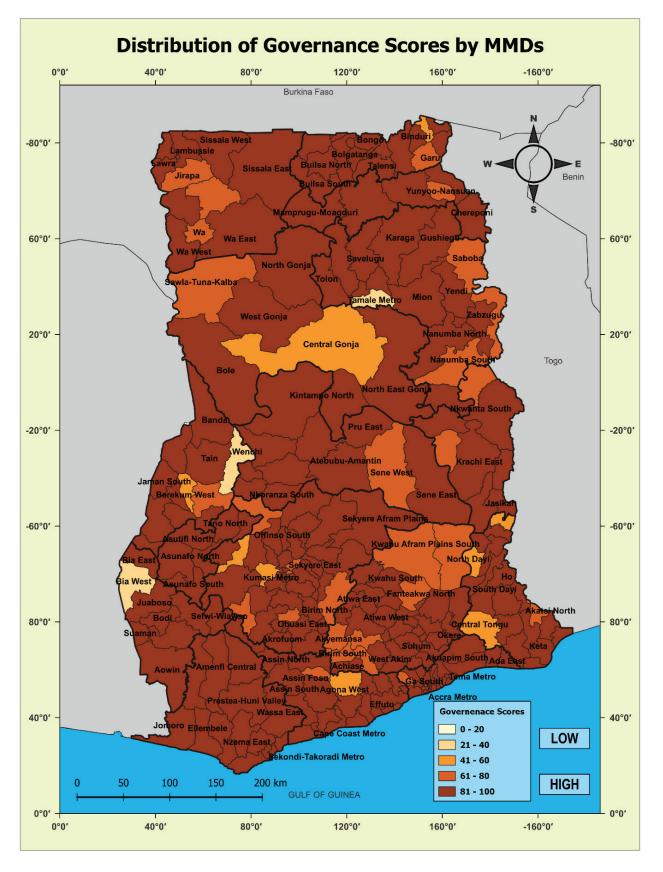

Table 21: Lowest Scoring 10 MMDs in Governance Sector

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking

Map 13 indicates that most MMDs implement their action plans, as most of the MMDs recorded more than 80 percent in the implementation of their annual action plans.

Map 13: Distribution of Governance Scores by MMDs

3.7.2. Regional Analysis

Figure 7 and Map 14 shows the regional ranking of performance in the governance sector. About 43.8 percent of the regions recorded declines in rankings (See Table 22). Almost all regions recorded implementation rates over 80 percent in 2022. Bono and Bono East regions recorded the highest change in rank over 2021 to 2022. Lessons can be learnt from the Bono and Bono East regions on the strategies they utilised in improving their implementation rates.

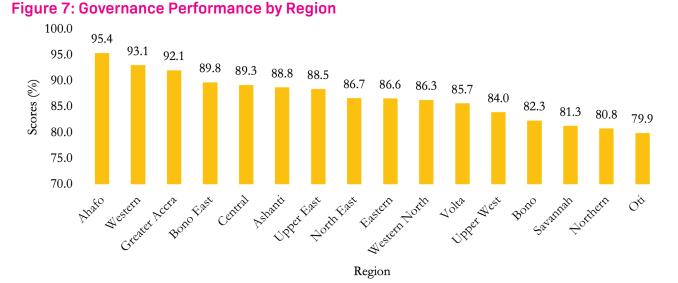

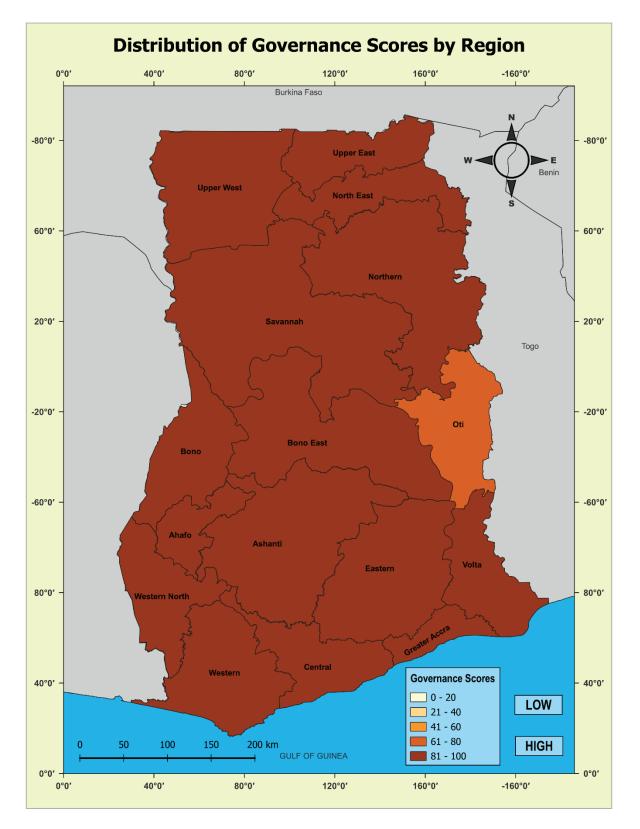

Table 22: Trend in Regional Governance Performance, 2021-2022

41

3.8. Child Protection

Child Protection sector is measured with percentage of births registered as the sole indicator. Since only one indicator is used in this sector, raw scores are used for ranking and analysis.

3.8.1. District Analysis

Table 23 provides the top 30 MMDs in terms of child protection. In total, 79 MMDs

attained 100 percent score. The highest level of performance spans various regions and includes both districts, municipalities and metropolises. Greater Accra Region recorded the most MMDs in the top performance, followed by Western, Volta, and Ashanti regions. Districts and Municipalities accounted for 92.4 percent of the MMDs in the top performance.

Name	Region	Description	Score	Ranking

Atiwa West District	Eastern	District	15	261

Map 15 indicates that more than two-thirds of the MMDs across the country scored 80 percent and above for percentage of births registered. The least scoring MMDs on child protection were in the southern part of the country.

Map 15: Distribution of Child Protection Scores by MMDs

3.8.2. Regional Analysis

Figure 8 and Map 16 illustrates the regional ranking of performance in terms of child protection. Most regions recorded scores above 80 percent, with the Savannah Region topping. The regions with performances below 80 percent are within the south and middle zones of the country. The Upper West Region surpassed major regions such as Greater Accra and Ashanti. Eastern Region scored about two-thirds of the rating score of Bono Region, highlighting the need for child protection to be considered as an area concern.

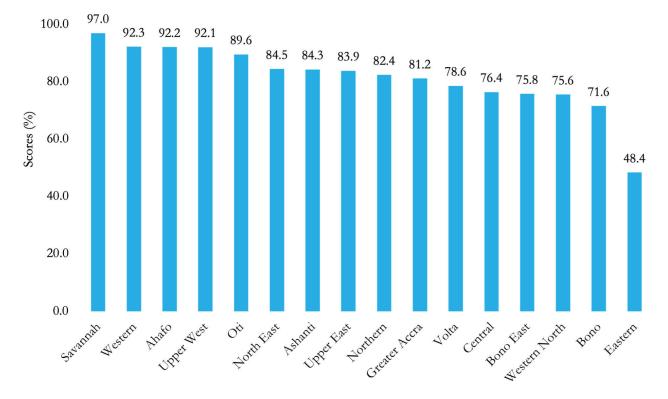

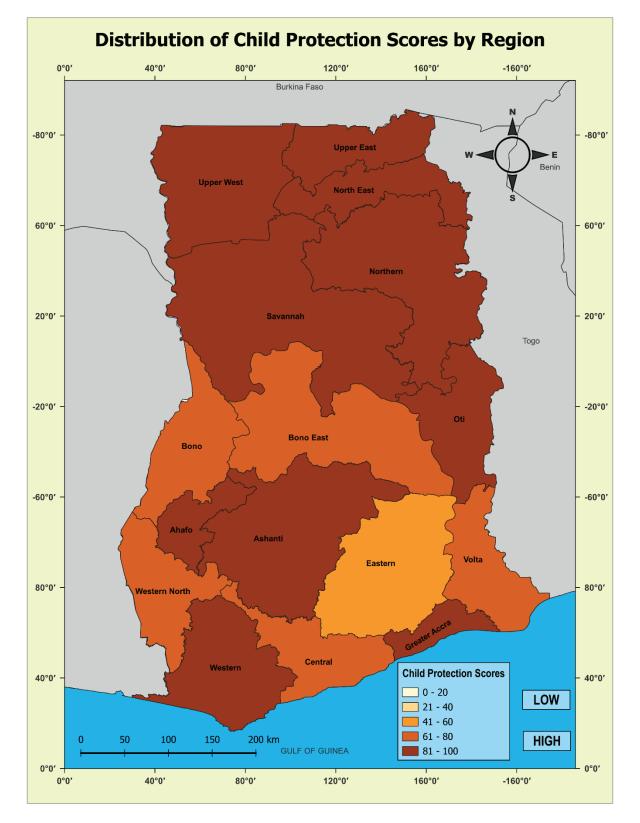

Figure 8: Child Protection Performance by Region

Map 16: Distribution of Child Protection Scores by Region

<section-header>OGA TOTAL DIT SCORE AND RANKING

4. Total DLT Score and Ranking

The overall DLT score measures the overall development of all districts by aggregating sectoral scores of each Metropolises, Municipalities and Districts (MMDs). The results of the DLT scores and rankings are presented in figures, maps and tables. The analyses are undertaken at district and regional levels. The overall distributions of achievements of the index and disparities across districts and regions are presented in maps and charts. In the DLT map, the distribution of rankings determined by total scores of the index are indicated by the appropriate colour codes. Districts and regions with scores between 0-20 percent, 21-40 percent, 41-60 percent, 61-80 percent and 81-100 percent are coded with different colours. The scores and rankings of all MMDs based on total DLT scores are presented in Annex I.

4.1. District Total DLT Analysis

Table 25 presents the overall rankings of the MMDs. Three of the top ten MMDs are located in the Greater Accra Region, and these MMDs also occupy the top three positions. The MMDs in the top 10 were spread across all zones in the country. Four of the MMDs – Tema Metropolis, Ayawaso West Municipality, Korle-Klottey Municipality, and New Juaben South Municipality – in the top 10 of 2021 maintained their positions in 2022.

The majority of the MMDs in the top 10 improved their rankings in 2022, with the largest improvement observed in the Nandom Municipality. The only district – Asutifi North, improved in their ranking in 2022, making the first entry into the overall top 10. Korle-Klottey Municipality improved its performance from 6th in 2021 to 1st in 2022. The performance calls for further investigation to understand the underlining factors for the successes witnessed and possible strategies that can be utilised to improve the wellbeing of the populace in the other MMDs.

Name	Region	Description	2021	2022	
			Ranking	Score	Ranking
Korle-Klottey Municipality	Greater Accra	Municipality	6	85.82	1
Ayawaso West Municipality	Greater Accra	Municipality	2	79.71	2
Tema Metropolis	Greater Accra	Metropolis	1	78.59	3

Cape Coast Metropolis	Central	Metropolis	23	76.84	8
Dormaa Central Municipality	Bono	Municipality	18	76.63	9
Nandom Municipality	Upper West	Municipality	103	76.00	10

Table 26 outlines the scores and rankings of the ten lowest-ranked MMDs in Ghana. Among these, nine were districts, with Sagnerigu Municipality being the only Municipality. The bottom ten MMDs are distributed across four regions of the country, with the MMDs in northern part of the country being the majority. highest decline was observed in the North Tongu District from 75th in 2021 to 259th in 2022. This indicates that there has been a general decline in access to essential social services for the populace in the least 10 MMDs. With the exception of North-East Gonja District and Nanumba South District, all MMDs in the least ten in 2022 were new entrants.

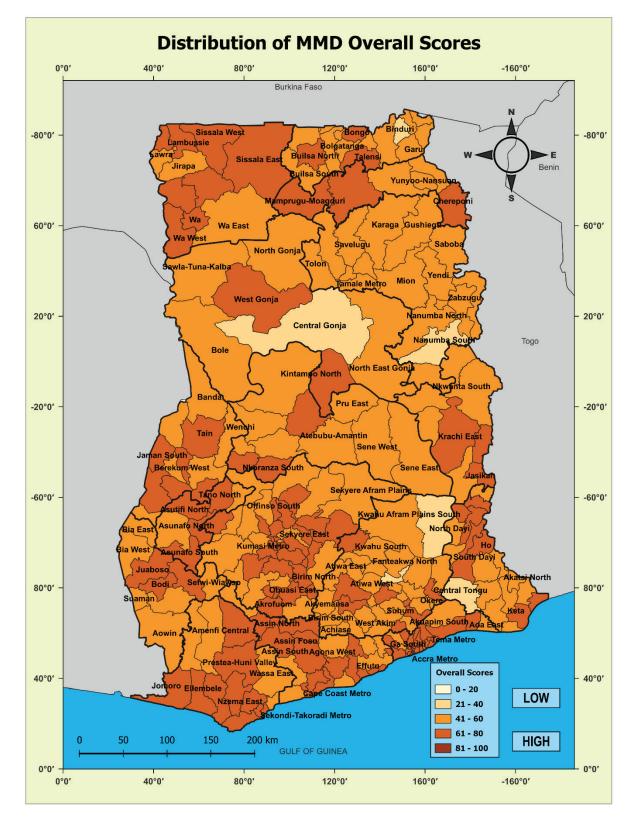

There was a general decline in rankings for 80 percent of the MMDs in the least 10. The

Name	Region	Description	2021	2022

Table 26: Ten MMDs with the Least Score in DLT

Map 17 shows the overall distribution of total scores for the MMDs. The MMDs scoring 80 percent and above were in the Greater Accra Region. No district obtained a score lower than 20 percent.

Map 17: Distribution of MMDs Overall Scores

4.2. Regional total DLT Analysis

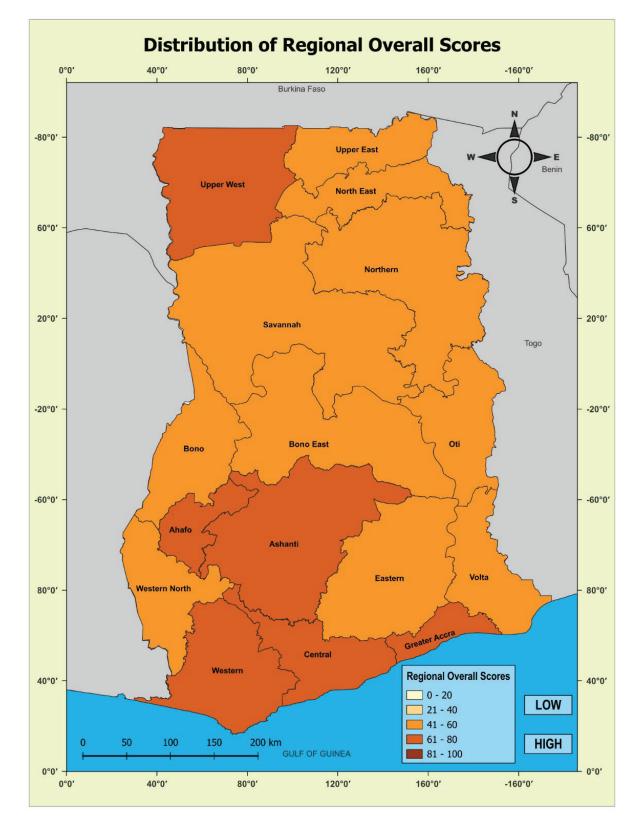

Table 27 and Map 18 indicates the average total scores and rankings by region. The Greater Accra Region achieved the highest score based on the eight sectors of DLT, maintaining its position in 2021, while the Savannah Region recorded the lowest score. There is the need to investigate the causative factor for the Savannah Region remaining to be the least for two years running. With the exception of Greater Accra, Northern, North East, and Savannah, all regions recorded variations in rankings in 2022. The three lowestrated regions are located in the northern part of the country, highlighting a development imbalance between the northern, middle and southern zones. The Upper West Region performed better compared to some regions like Ashanti. Lessons could be learnt from the strategies implemented by the Upper West Region to improve access to social services.

CONCLUSIONS AND RECOM-MENDATIONS

 $\bigcirc 5$

5. Conclusions and Recommendations

5.1. Conclusions

This report provides findings of an analysis of 18 indicators across eight sectors, measuring the wellbeing of citizens across Ghana's 261 MMDs. The analysis of each of the sectors indicates very wide disparities among the MMDs in Ghana. For example, while the top MMD scored 92.1 percent in the education index, the last MMD scored only 6.7 percent. In the health sector, the high-performing MMD scored 96.7 percent compared with 10.7 percent for the lowestperforming MMD. Also, in the nutrition sector index, the first MMD scored 93.4 percent while the last MMD scored just 25.9 percent. This trend is reflected in almost all the eight sectors, suggesting that some segments of the population are left behind in terms of service delivery and quality of life. Without a deliberate and sustained effort through better planning, budgetary allocation, effective implementation, monitoring and evaluation by national and sub-national level agencies and authorities, service and quality of life across the country will remain unequal, which will cause many citizens to be left behind in the march towards achieving the SDGs.

5.2. Policy Recommendations

The concept of the District League Table is primarily to offer central Government and other development actors the evidence to enable a more equitable allocation of resources. The concept recognizes that the national government, through the MDAs, MMDAs, Parliament and Office of the Common Fund Administrator still have the greatest responsibility for district level development and to address the imbalances in well-being across the country. The 2022 DLT report is again re-echoing the messages of earlier editions and messages from previous, that:

- 1. The Ministry of Finance and National Development Planning Commission should ensure that national resources are allocated according to need, i.e., using the appropriate targeting tools like the DLT, to support low-ranking MMDs;
- The Office of Common Fund Administrator should review the frameworks for resource allocation to ensure that the criteria for the allocation favours the most deprived MMDs;
- The proportion of national revenue for the DACF must be increased and regularly released to facilitate the delivery of MMDAs mandate and development programmes;
- The Government through the Ministry of Local Government, Decentralisation and Rural Development should accelerate the devolution process to allow for better coordination and monitoring of district service delivery;
- The Office of the Head of Local Government Service should facilitate the supply of adequate skilled personnel to facilitate effective service delivery, especially in the area of health, social welfare, sanitation and education; and

 The MMDAs should ensure that information is adequately provided on local economic development (1D1F, IGF generation) to aid assessment of the economic wellbeing of the citizens in their jurisdiction. Further, quality data should be provided in the Annual Progress Report to facilitate effective assessment of citizens wellbeing.
