# 2020 ANNUAL PROGRESS REPORT

## CHAPTER ONE

### 1.1 Introduction

The year 2020 marks the third year for the execution of the Medium-Term Development Plan (2018-2021) for Asokore Mampong Municipal Assembly, based on the Agenda for Jobs: Creating prosperity and equal opportunity for all, 2018-2021 in line with the five (5) Development dimensions as stated below:

- Economic Development
- Social Development
- Environment, Infrastructure and Human Settlement
- Governance Corruption and Accountability
- Ghana's role in International affairs

The overall goal of the “Agenda for job” is to “create an optimistic self-confident and prosperous nation, through the creative exploitation of our human and natural resources and operating within a democratic, open and fair society in which mutual trust and economic opportunities exist for all.

However, the overall goal with regards to Asokore Mampong Municipal Assembly's MTDP, is “to improve the production capacity of the Assembly, create employment and wealth in partnership with the private sector”.

This Annual Progress Report for Asokore Mampong Municipal Assembly covers the programmes, projects and activities carried out based on the 2020 Composite Annual Action Plan of the Assembly from January to December, 2020 and also reports of various Decentralized Departments and Agencies in the Municipality. The APR covers assessment of performance indicators and targets in the AMMA's MTDP 2020 with respect to progress in the implementation of programmes, projects and other policies to achieve the development goals of the Assembly. The report also highlights the implementation challenges encountered and the needed recommendations to address the challenges.

The objectives of the AMMA's APR are as follows;

- (i) Provide information on progress made by the Assembly with respect to the implementation for the Government “Agenda for Jobs”, creating prosperity and equal opportunity for all.
- (ii) Identify the challenges the Assembly encountered in the implementation of the 2020 Annual Action Plan
- (iii) Propose recommendation and measures to address the challenges.

## **1.2 Purpose of Monitoring and Evaluation for 2020**

The main thrust for the preparation of the 2020 Annual Progress Report is to give reliable information to the Central Government, National Development Planning Commission (NDPC), the Regional Co-ordinating Council, the donor Community, Traditional Councils, Stakeholders and the general public on the progress being made by the Assembly as a result of utilization of resources from the Central Government, donors and resources generated internally within the Municipality.

The purpose of the M&E report is to fulfill the mandatory requirement of the Assembly as stated below;

1. To ensure that projects and programmes are implemented as planned
2. To ensure accountability of the resources used and the results obtained
3. To provide information on the progress made by the District Assembly in achieving the goals and objectives under the Agenda for Jobs, Creating prosperity and equal opportunity for all, 2018-2021
4. To take appropriate decisions on the future of programmes and projects and provide opportunities for stakeholder feedback
5. To help review and give information on achievements and impacts of policies, projects, programmes

## **1.3 Process Involved**

The Assembly in the quest to ensure active participation of key stakeholders in the preparation of the report made extensive use of inputs from them. In assessing the impact of policies, programmes and projects on targeted groups, data from both primary and secondary sources were obtained. Quarterly and Annual Progress Reports from Departments, Subverted Agencies, Development Partners and Non-Governmental Organisations among others were gathered and validated at MPCU meetings. Also, the members of MPCU embarked on an all-inclusive project inspection and site visits on monthly and quarterly basis. The site meetings and project inspections involved Assembly members, Unit Committee members, Traditional leaders and beneficiaries of the interventions. The site meetings and project inspections enabled the MPCU assess whether the programmes and projects conform to the specifications, ensured value for money and was within the time schedule

#### **1.4 Summary of Achievements of the Implementation of the AAP/MTDP**

The Government coordinated programmes of Economic and social Development policies (CPESDP) is based on ‘Change’: An Agenda for jobs – creating prosperity and equal opportunity for all”. The priority intervention under this coordinated programme covers four major areas, namely: economic development; social development; environment, infrastructure and human settlement development and government, corruption and public accountability.

The Asokore Mampong Municipal Assembly’s 2020 APR which is in the second year of its implementation of the Assembly’s 2018-2021 under the five development dimensions of the National Medium-Term Development Policy Framework- Agenda for Jobs policy framework: “creating prosperity and equal opportunity for all”.

#### **1.5 Challenges encountered with the Implementation of the AAP/ MTDP**

During the plan implementation the following challenges were encountered

➤ **Delay in the release of the quarterly DACF and District Development Facility (DDF).**

Central government transfers constitute substantially to revenue sources of the Assembly. It forms about 54% of the entire revenue budget of the Assembly which means there is a positive relationship between achieving AAP implementation target and funds received from central government. The delays and non-release of 2019 fourth quarter DACF and 2018 DDF affected the Assembly’s ability to implement all the programmes and projects in the 2020 Annual Action Plan. This has delayed the implementation of some projects in the Annual Action Plan.

➤ **Ineffective Sub-Structures**

The Municipal Assembly has Three (3) Zonal Councils, however, they are not able to function as expected due to the fact they are not able to mobilize enough resources. This is due to the fact that the Zonal Councils are not well resourced financially and the requisite personnel are not available. This makes IGF mobilization difficult hence the Assembly’s inability to complement Governments’ and other Donor support in the implementation of programme and projects in the AAP

➤ **Inadequate Data**

Data needed by the Assembly to prepare reports are not readily available from the departments and agencies. Due to this, the analysis of figures, particularly ratable items, always come with a challenge because of inadequate data. Logistics to carry out data gathering exercises have not been adequately available hence placing a restriction on the few available skilled human resources.

- **Delays in the submission of reports**
- **Use of different reporting formats by the Department in submitting reports**

➤ **Difficulty in getting vehicle for monitoring and evaluation.**

- Delays in the release of funds for MPCU meetings to collect and collate reports for the preparation of Quarterly and Annual Progress reports

➤ **Inadequate funds for data collection**

Lack and non-release of funds for data collection has also affected adversely the implementation of the AAP

**CHAPTER TWO**  
**MONITORING AND EVALUATION ACTIVITIES**

**2.1 Introduction**

This chapter addresses issues on the status of programmes and projects for 2020 and updates on revenue sources and expenditure. It also indicates core indicators and critical development and poverty issues including monitoring and evaluation which was conducted their findings and made their absolute conclusions.

**2.2 Programme and Projects Status from January to December 2020**

AMMA’s 2020 AAP covered 106 programmes and projects. Out of these, 92 programmes and projects representing 87.79 % had been fully completed or were ongoing. Fourteen programmes and projects were not implemented representing 12.21 % were not implementing. The table show the status of projects and programs implemented by the Assembly as at the end of December, 2020, from the Annual Action Plans in the 2018-2021 MMTDP.

Data collected, collated, processed, validated, analysed and information generated from the results of the analysis and assessment of the project/activities in relations to the indicators (core and district specific) and targets of the MMTDP of the Asokore Mampong Municipal Assembly was undertaken to review the Assembly’s performance to ascertain the level of achievements of the 2020 Annual Action Plan. The previous performances were reviewed to serve as a guide towards the implementation of the 2018-2021 District Medium Term Development Plan.

**2.2.1 Overall proportion of the MTDP implemented in 2020**

The table 2.1 below indicates a summary of achievements of the implementation of the DMTDP for the year 2020

### 2.3 Update on Funding Sources and Disbursements

The Assembly in their quest to promote development within the municipality depends on various sources for funds to implement the programmes and projects. Within the period under the review the Assembly depended on sources such as DACF, PWDs CF etc. to implement the 2020 AAP.

The Table 2.5 and 2.6 below gives the updates of revenue sources and disbursements of the Assembly as at the end of 2020 using 2019 as the baseline.

Table 2.5: Update on Revenue Sources of the Assembly as at end of 31<sup>st</sup> December, 2020

With reference from Table 2.3 above, it can be realized that the total amount targeted at the beginning of the year 2020 was 21,896,141.76 but the actual amount gotten at the end of the year 2020 was 11,351,695.62 from all the revenue sources representing 51.8%. The reduction in the revenue can be attributed to the global pandemic (COVID-19), which affected the general performance of the economy. With regards to expenditure it can be inferred from table 2.4 that, the total budgeted expenditure for the year 2020 was 21,846,141.76 while the actual expenditure stood at 12,845,001.95 which represent 58.8% of the amount spent within the year 2020.

#### **2.4 Update on Core Indicators and Targets**

The National Development Planning Commission (NDPC) in the bid to track the performance of the implementation of the Composite Annual Action Plan, Composite Budget and the DMTDP of various MMDAs, has in consultation with stakeholders developed twenty (20) core indicators and targets to assess their quarterly and annual performance. Table 2.7 shows the performance indicators and targets for the implementation of the Composite Annual Action Plan and Budget for 2020.

### **2.6 Evaluation Conducted**

Evaluation plays a pivotal role in the life of every project implementation as the feedback always determines the success or failure of the project. In this regard, evaluating the implementation of the 2020 Composite Annual Action Plan, Ex-ante Evaluation was conducted to assess the implementation of the programmes, projects and activities based on the M&E Calendar and Budget. This was performed by the MPCU with support from the collaborating Agencies and Stakeholders.

The evaluations conducted involved analyzing reports and data from both primary and secondary sources and comparing them with the appraisal reports during and after the implementation of the year's activities. Field surveys including data collection, analysis, observations, presentation and reporting were used to conduct the evaluation of the selected physical projects implemented in the year. In addition, the MPCU and Stakeholders Forum were used to valid and confirm the data before and after completion to ascertain if the intervention achieved its original objectives and assess the overall changes caused by the implementation of the physical project. From Table 2.15 evaluations were conducted with for five Ex-ante Evaluations.

## **2.8 Participatory Monitoring and Evaluation (PM&E) Undertaken and their Results**

Participatory Monitoring and Evaluation (PM&E) encourages and reflects on what has happened in the past in order to make decisions about the future. By PM&E, beneficiary communities learn about things that have worked well and vice versa and through the process, it becomes more likely that corrective measures will be implemented. The effectiveness of participatory monitoring and evaluation lies in the understanding of the stakeholders to agree on the purpose of the evaluation. The objectives of the project, as well as the expected outputs provide a forum for changes and adjustments if the need arises in order to achieve desired results. The PM&E tools employed, projects undertaken, stakeholders involved, methodology used, findings and recommendations are as stated in the Table 2.16 below:
