CHAPTER ONE

GENERAL INTRODUCTION

1.0 Introduction

The 2020 Annual Progress Report (APR) of Atwima Kwanwoma District Assembly details the implementation of 2020 Composite Annual Action Plan (CAAP). The APR also provides assessment of the implementation of projects, programmes and strategies stated in the third phase of the Agenda for Jobs, 2018-2021 District Medium Term Development Plan (DMTDP).

In this Report, a number of performance indicators and targets were set by stakeholders to help assess the progress of implementation of the development projects and programmes outlined for the achievement of the Assembly's development goal and objectives in the 2020 Composite Annual Action Plan.

1.1 Purpose of the 2020 Monitoring and Evaluation Report

The purpose of the Monitoring and Evaluation (M&E) report is to fulfill the mandatory requirement of the Assembly in:

- > ensuring that projects and programmes are implemented as planned
- > ensuring accountability of the resources used and the results obtained
- providing information on the progress made by the District Assembly in achieving the goals and objectives under the Agenda for Jobs; 2018-2021 DMTDP
- taking appropriate decisions on the future of projects and provide opportunities for stakeholder feedback
- helping review and give information on achievements and impacts of policies, projects, programmes

1.2 Summary of Achievement

As at the end 31st December, 2020, the Atwima Kwanwoma District Assembly had taken a number of projects and programmes. In this stipulated time, the Assembly was able to improve on its performance in project implementation. Among the projects include:

- Completion of 1No. 3-unit classroom block with ancillary facilities at Nwinsah,
- Completion of 1No. 3-unit classroom block with ancillary facilities at Bebu,
- Completion of isolation center in Trabuom
- ➢ 450 mono desks supplied to schools
- ➢ 4No. boreholes drilled and mechanized in Twedie, Foase, Ampabame No.1 and Brofoyedru markets.
- Procurement of mini Urvan to enhance revenue generation
- Completion of 2No. 12 seater water closet drilling and mechanization of 1No. borehole at Trede SHS. (see project register for details)

Additionally, the Assembly embarked upon numerous Programmes on Education, Health, Environment and Sanitation, gender and vulnerability issues, Disaster, Agriculture, Local Economic Development among others within the same period under review. (*see programme register for details*)

1.3 Identified Challenges facing the Implementation of the 2018-2021 DMTDP

The following challenges have been identified during the implementation of the 2018-2021 District Medium Term Development Plan (DMTDP):

- > Delays in the release of statutory funds especially, the quarterly release of DACF
- Lockdown due to the outbreak of Covid 19 pandemic
- > Inadequate and sustainable funds for DPCU to conduct its activities.
- > Poor record keeping by some departments of the Assembly
- Insufficient funds for some programmes and projects stated in the Composite Annual Action Plan.
- Inadequate funds for data collection
- Different reporting format by departments and units
- Low IGF performance

1.4 Processes Involved

The processes involved in the preparation of the 2020 Annual Progress Report and other reports (Quarterly Progress Report as well as Monitoring and Evaluation Reports) have been designed to be participatory in nature. These included town hall meetings, using Public Financial Management templates, public hearing, field survey as well as community score cards on physical project and project reports. All the decentralized Heads of Department and Units, Traditional Authorities, the substructure and Non state actors [Civil Society Organizations (CSOs) and Non-Governmental Organizations (NGOs)], who matter in the implementation of the plan, have been actively involved. The essence of the participation in the preparation of this report is to ensure collective ownership of this document and any action that emanates from it by the stakeholders and to exhibit true reflection of the actual implementation of the Agenda for Jobs: Creating Prosperity and Equal Opportunities for all (2018-2021-DMTDP) in line with the Assembly's mission and vision.

Per the guidelines of the National Development Planning Commission (NDPC), the District Planning Coordinating Unit (DPCU) designed templates and distributed to all Heads of Departments, Units and relevant stakeholders to report on all the dimensions for reporting purposes. Besides, the DPCU engages the Traditional Authorities, Hon. Assembly members, some members of the communities whose inputs are required. Additionally, the DPCU engages other relevant stakeholders during the validation of the collected data for feedback when it becomes necessary during data review.

1.5 Status of Implementation of the DMTDP

The Atwima Kwanwoma District Assembly has a total number of eighty-five (85) projects and programmes of activities in its 2020 Composite Annual Action Plan from the 2018-2021 DMTDP. The state of implementation of work for, 2020 is shown in table 1.1 below.

| Indicators | Baseline 2017 | Target 2018 | | Target 2019 | | U | Actual 2020 |

CHAPTER TWO

2.0 MONITORING AND EVALUATION ACTIVITIES REPORT- 2020

2.1 Status of Projects and Programmes -2020

Within the period under review, the Assembly monitored and evaluated a number of projects and programmes to ensure their successful implementation. Among them included a number of rollover projects from the 2019 and beyond alongside with the projects and programmes in 2020 in the 2018-2021 DMTDP. Tables 2.1 and 2.2 below details the status from the 2020 Composite Annual Action Plan (CAAP) of projects and programmes.

| | Project Details | Location | Funding Source | Contractor | Contract Sum GH¢ | Payment GH¢ | Date Award | Comm. Date | Exp. Comp. | Comp. Date | Stage Done | Status | Remarks |
|---|-------------------------------------------------------|--------------------|-------------------|---------------------------------------|---------------------|----------------|----------------|---------------|---------------|---------------|---------------|-----------|---------|

2.2 Update on funding Sources

In the 2020 fiscal year, the Atwima Kwanwoma District budgeted a total of GhC14,095,600.88 to finance all projects and programmes. As at 31st December 2020, the district had received a total of GhC9,313,852.47 for the implementation of activities of programmes, projects in its CAAP. This figure represents 66.08% of the anticipated amount for the 2020 fiscal year. Despite the outbreak of Covid 19 pandemic and it's attended lockdown of the district, revenue performance was relatively successful. The remarkable success in the internally generated funds was due to the adoption and implementation of revenue techniques and the proper use of Nation Builders Corps (NABCO) beneficiaries within the Covid 19 pandemic era. The sources of the funding for the accumulated net for the period included: Internally Generated Fund (IGF), District Assembly Common Fund (DACF), Member of Parliament's Common Fund (MPCF), District Development Facility (DDF), Goods and Service Transfers (G&ST), Compensation Transfers (CT), Ghana School Feeding Programme (GSFP) and People with Disability Common Fund (PWDCF). The funds for Livelihood Empowerment against Poverty (LEAP) is paid directly into the individual beneficiary's accounts from the central government. Table 2.3 below shows the performance of individual funding source for 2020 fiscal year.

| Sources of Revenue | 2018 Actual (GH¢) | 2019 Targets. | 2019 Actual | 2020 Target | 2020 Actuals |
|--------------------------------------------------|----------------------|------------------|--------------|---------------|--------------|
| Internal Generated Fund (IGF) | 1,050,910.82 | 1,341,725. 00 | 1,180,805.98 | 1,600,000.00 | 1,333,352.24 |

Update of Funding Source for 2020.

Source: District Finance Office, 2020

2.3 Update on Disbursements.

To effectively implement the 2020 Composite Annual Action Plan, revenue and expenditure become critical in measuring the performance of implementation of projects and programmes and their associated activities. From table 2.4 below, a total amount of GhC6,866,933.02 had been spent on the expenditure items for the 2020 fiscal year. The figure represents 75.74% of the budgeted expenditure of GhC9,198,883.45. The expenditure items were extracted from the 2020 Composite Annual Action Plan and Composite Budget prepared from the 2018-2021 District Medium Term Development Plan (DMTDP). The table below gives detailed expenditure items for the 2020 fiscal year.

| Expenditure | 2017 | 2018 | 2018 | 2019 | 2019 Actual | 2020 | 2020 Actuals |
|----------------------|-------------------|------------------|-----------------|-----------------|--------------|------------------|--------------|
| Item | Baseline (GH¢) | Target (GH¢) | Actual (GH¢) | Target (GH¢) | | Target | |
| Compensation | 1,374,207.26 | 2,562,948. 12 | 679,847.73 | 3,087,784.00 | 1,963,911.00 | 3,185,110. 00 | 3,149,710.00 |
| Goods and Service | 308,688.22 | 988,222.81 | 588,901.57 | 4,260,012.00 | 11,581.33 | 3,647,210. 00 | 2,252,628.59 |
| Investment | | | | | | | |

2.4 Update on District Core Indicators and Targets

The National Development Planning Commission (NDPC) in consultation with other necessary stakeholders have strategically devised twenty (20) core indicators and targets from four (4) Economic Dimensions to track the performance of the implementation (2018-2021) DMTDP of which the 2020 Composite Annual Action Plan and the Composite Budget as well as the trend analysis of the implementation were derived from. Table 2.5 below shows the performance of indicators and targets for the implementation of 2020 Composite Annual Action Plan of the Agenda for Jobs (2018-2021) DMTDP.

The outcome of the policy implementation has largely been affected by insufficient funding for projects and programmes and delays in the release of the major funding sources (DACF and DDF) as they constitute substantially to budgetary allocations of the Assembly.

Source: DPCU-AKD-2020

Table 2.5 presents four (4) detailed prescription of Development Dimensions developed by National Development Planning Commission (NDPC) namely: Economic Development, Social Development, Environment, Infrastructure and Human Settlement as well as Governance, Corruption and Public Accountability. Under these dimensions, twenty (20) targets have been set to ensure the achievement of Agenda for Jobs (2018-2021) DMTDP.

To achieve the goal of building a prosperous society, the Atwima Kwanwoma district is basically into the production of staple crops such as maize, cassava and plantain as detailed in the table above. The total output of Agricultural production for 2020 could not meet the target as anticipated for the 2020 production year. The low performance is mainly due to rapid urbanization in the district as arable lands being turned into residential areas and the destruction of farm lands for illegal mining popularly known as galamsey. Other factors include; erratic rainfall pattern as well as the outbreak of Corona virus which reduced the contact between farmers and AEAs for the adoption of new agricultural techniques.

Under livestock production, the output from District Directorate averagely recorded a decrease from the 2019 figures. The reduction in poultry production, for instance, was mainly due to the ban on the importation of day-old chicks and feed due to the Covid 19 pandemic. The arable land for both staple and cash crops drastically reduced from the previous year's figure. This is attributed to the excessive illegal mining operations in the rural part of the district where crop production strives. Unplanned housing development yearly takes an average of ten hectors of the arable lands thereby affecting crop production negatively. The district has no information on new industries and jobs established under agriculture, industry and service.

The Operational Health Facilities in AKD remains 8, 7 and 6 for CHPS compound, Clinics and Hospitals respectively for the 2020. The district does not have its own data on the number of National Health Insurance (NHI) beneficiaries. The only available data is for both Atwima Kwanwoma and the Bosomtwe Districts (*the Insurance scheme has been operating for the two districts ever since the district was split in 2007*). However, District Health Directorate recorded a total of 72,333 NHIS users for the period under review. The actual total Birth recorded for 2020 was 3,060 a 2.30% decrease of the 2019 figure of 3132. This can be attributed to the acceptance rate of family planning and the contraception as against the anticipated 5% rise for the period. The number of deaths recorded 12 deaths for 2020 as against zero (0) deaths for the same cohorts in 2019.

Malaria cases fatality in all health facilities in the district recorded zero for 2020. This is attributed to the acceptance usage of the treated mosquito net programme and hygiene.

Net enrollment ratio, gender parity, completion rate for all levels remained unchanged from the 2019 figures as appeared in the table above.

The total length of road network in the district is 132.8km consisting of 27.8km highway and 105 km feeder road. Of this, 8.4km Santasi- Pekyi No.2 stretch of the highway had been tarred. On the webbed feeder roads cutting throughout the district, 43.2km has been tarred and in good condition. The construction works which commenced on the: Twedie –Yabi, Denchemmouso-Trabuom and Afrancho-Trabuom roads as at the end of 2019 been to be stalled.

Electricity coverage in the entire district stands at 97% with all the peri-urban towns in the district having 100% coverage. The little challenge has to do with newly developed sites in these towns. The rural coverage also stands at 96%.

With the 85 projects and programmes implemented by the District in 2020, 88.24% were executed with. The District could not embark on ten projects and programmes meant to commence within the period mainly due to the lockdown from the Covid-19 pandemic.

The recorded crime cases in the district was very minimal as compared to the 2019 figures for rape, armed robbery, defilement. This was due to the intensification of security in the district. However, 2020 recorded two (2) murder cases as against four (4) in the 2019 and eight (8) robbery cases against ten (10) in 2019 over the same period.

2.5 Critical Development and Poverty Issues.

The Critical Development and Poverty Issues are social intervention programs enrolled to reduce extreme poverty situations which consciously targets the vulnerable in the District. Among the social protection and intervention programmes include: Ghana School Feeding Programme, Capitation Grants, National Health Insurance Scheme, Livelihood Empowerment Against Poverty (LEAP) Programme, Youth Employment Agency, One District-One Factory Programme, One Village-One Dam Programme, One Constituency-One Million Dollars Programme, Planting for Food and Jobs Programme, Free SHS Programme, National Entrepreneurship and Innovation Plan (NEIP), Implementation of Infrastructural for Poverty Eradication Programme (IPEP), Nation Builders Corps (NABCO) as well as Sensitization Workshops on LGS Protocols. Updates on the Critical Development and Poverty Issues for 2020 are presented in the Table2.6 below:

| Critical | 2017 | 2018 Actual | Actual 2020 | | No. of Be | eneficiaries | | Remarks |
|---------------------------------------------------------------------------------------|--------------|--------------|--------------|---------|-----------|--------------|--------|---------------------------------------------------------------------------------------------------------------|

2.6 Update on Critical Development and Poverty Issues, 2020

| (SoS, CoS, CoC, SDS, PMS, OM) | | | |
|----------------------------------|--|--|--|
|----------------------------------|--|--|--|

Source: DPCU-AKD-2020

Table 2.6 shows that the District has not got her own NHIS office and that the citizens access the facilities with other districts. However, a temporal office has been acquired awaiting approval from the NHIA to begin data for the district.

According to the District's database, AKD has successfully roped in all the registered 937 households as LEAP beneficiaries into the programme at the end of 2020. On the Disability Common Fund, a need based assessment was carried out for the procurement of preferred items for the beneficiaries as: Deep Freezers, Fufu pounding machines, popcorn machines, Wheelchairs, Laptop computers, sowing machines etc to the PLWD from the GhC145,991.37 of their share of DACF to enhance their lives. The District has budgeted a total of GhC21,475,000.00 for the 1D1F policy for the four applications received from the prospective companies (*see appendix III*). Under the Planting for Food and Jobs, coupons were issued to farmers for the supply of NPK and UREA fertilizers. The Assembly has assisted NABCO with GhC 20,000.00 in all the 7 modules since the programme in an effort to create employment for the youth.

2.6.0 CROSS CUTTING ISSUES

This section presents a detailed report on the implementation of some cross cutting issues such as gender mainstreaming activities, child protection activities, climate change issues and local economic development initiatives in the district.

2.6.1 Identification and Registration of Persons with Disability

During the year under review, a total of Ninety-Two (92) PWD's were identified and registered. Below is the breakdown.

| Age | Speech/H | Iearing | Visua | ıl | Physi | ically | Mult | iple | Menta | ally | Tot | al |
|--------|----------|---------|-------|-------|-------|--------|------|-------|-------|-------|-----|----|

2.6.1 HIV/AIDS

HIV/AIDS is on the increase and as part of measures instituted to curb the menace, the District Assembly organized a sensitization talk and free screening at Nweneso No. 2 & 3 on 3rd October 2020. The community was educated on how to avoid contracting the diseases. They were advised to avoid unprotected sex, using sharp objects such as blades and needles which have already been used by other people.

The community was advised not to shun people living with HIV/ AIDS. Testing HIV/ AIDS positive is not the end of one's life because there is medical treatment to manage your life which make them healthy and even test for their non- detected viral loads.

Similar activities took place at various communities within the District. Seven Hundred Thirty-Eight (738) people were tested, two hundred and Fifteen (215) male, Five Hundred and Twenty -Three (523) female, Seventy- Nine (79) were tested positive for HIV/AIDS. Thirty-One (31) were male and Forty -Eight (48) were female

Child Rights Promotion and Protection Case Management

During the year under review Thirty (30) cases were handled and an amount of Four Thousand, Seven Hundred and Seventy Ghana Cedis (GH \oplus 4,770.00) was collected as monthly maintenance money and release to clients. Below is the break down

| Nature Of Case | B/F | New | Successful | W/D | F/T | Pending |
|----------------|-----|-----|------------|-----|-----|---------|
| Maintenance | 1 | 29 | 25 | 0 | 0 | 0 |

• Sensitization Programmes

The Department worked with four (4) communities namely, Foase, Nweneso 3, Yabi and Aburaso. The department visited all the four (4) communities sensitized them on the protocols; regular hand washing, the use of nose mask, avoid hand sake, avoid market crowded places and use of alcohol base sanitizers. During the year under review, the team visited all the four communities listed above. The groups were sensitized on the corona virus and how to prevent themselves from the virus. A total of four hundred and fifty-one (451)) participants were sensitized.

| No | Activity | Communities | Remarks | | |

• Education on Child Labour

The Department of Social Welfare and Community Development organized a 2-day training workshop for a cross section of people from the Twedie and Trede Area Councils. A total number of 58 people made up of 32 males and 26 females were educated on worst forms of child labour and the importance of education. The sessions were held on the 14th and 15th May 2020 at the Twedie and Trede Area Councils respectively. The program discussed issues on child welfare namely education, health and child development processes and how to handle the unique developmental stages in each child.

• Monitoring of Day Care Centers

The Department of Social Welfare and Community Development undertook a monitoring exercise on all day care centers in the Atwima Kwanwoma District. After the exercise it was realized that there are a total number of 55-day care centers operating in the district of which only 9 have registered with the department

• Sensitization of Communities on Child Protection

During the year under review, the Department of Social Welfare and Community Development with support from the District Assembly embarked on a One-day community visit each to five (5) selected communities (Nweneso11, Foase, Konkori, Atwima Boko and Nkoranza) from 17th June -21st June, 2020 within the District to educate them on child protection. The team was able to reach out to a total number of three hundred and seventy participants (370) made up of two hundred and thirty (230) females and one hundred and forty (140) males. The sensitizations were held at different places within each community with Adults, adolescents and children. Majority of the discussions was held at the community meeting places.

Interactions with community members brought forth the need for institutions like, Social Welfare, CHRAJ and DOVVSU to be sponsored to go directly to the communities to solve most of the child right protections cases prevailing there, the sensitization programme should be sustained to bring more impact to the people.

• Growth Monitoring

The District Health Directorate during the year under review monitored the growth of children of school going age. Growth of children aged 0-59 months is monitored during monthly Child Welfare Clinic sessions (CWCs) held at 33 outreach points and static points across the district throughout the year. During these sessions, the weight of each child is taken and caregivers were giving counselling on feeding options and other relevant issues pertaining to their children's health. Percentage coverage for the age group 0-11 months is 139.4%, coverage for 12-23 months is 42.8% whilst coverage for 24-59 months is 7.9%. Mothers are entreated to send their children to the Child Welfare Clinics in the first five years of life to improve their health and development, for vitamin A, and also for early detection of chronic conditions such as marasmus.

The table below shows Growth Monitoring by Age for the district for the period under review.

| Indicator | 2020 | | | | | |
|-----------------|--------|-------------|--------------|--|--|--|
| | Target | Performance | Coverage (%) | | | |
| 0-11 MONTHS | 4435 | 6184 | 139.4 | | | |
| 12-23 MONTHS | 6209 | 2657 | 42.8 | | | |
| 24-59 MONTHS | 11310 | 899 | 7.9 | | | |

• CHILD HEALTH PROMOTION WEEK

The Child Health programme constitutes all health activities aimed at promoting and maintaining the optimal growth and development of children from birth to five years. Reproductive and child health services will continue to be integrated and made accessible to all individuals in Ghana. This year's celebration took place from 13th -17th May 2020 at Brofoyedru and the theme for this year's Child Health Promotion week was: **The combined maternal and child health record book; working together for a healthy family.** Among services rendered during the week in the district included:

- Immunization
- Vitamin A supplementation
- Growth promotion
- Food demonstration and
- Promotion of ITN use.

2.6.1 Gender Mainstreaming Activities

Gender refers to socially constructed power relations between men and women. As the two key stakeholders, both must be involved in identifying problems and solutions if the interests of the

community as a whole are to be furthered. However, women often face different constraints than men that inhibit them to benefit from opportunities. Key gender issues in the district include;

- ✤ Inadequate employable skills
- Teenage pregnancy
- ✤ High birth rate
- ✤ Gender based violence-domestic violence against women

In the year 2019, the District undertook some activities aimed at promoting gender mainstreaming and women empowerment. These included; education on teen/child pregnancies in two (2) communities, sensitization on promoting women empowerment as a tool to fighting domestic violence, a workshop on sexual harassment at the workplace and a workshop on women participation in decision making. In order to bridge the equity gap in terms of access and control of resources for both men and women,

• Education On Early Child Marriage and Teenage Pregnancy

The Department of Social Welfare and Community Development organized an educational workshop for two selected communities on early child marriage and teenage pregnancy on Monday 10th June 2019. The communities where Kromoase and Nkoranza. Participants were taken through the Causes and factors contributing to early child marriage, Effects of teenage pregnancy and recommendations and solutions to prevent the phenomenon. A total of Thirty (30) women and fifteen (15) men participated in the workshop. Parents and guardians were advised to put a stop to early child marriage and also tasked to educate their children on the importance of avoiding premarital sex as a means of preventing teen age pregnancies and also give sex education to their children at home.

| No. | Community | No. of Males | No. of Females | Total |
|-----|-----------|--------------|----------------|-------|
| 1. | Kromoase | 8 | 19 | 27 |
| 2. | Nkoranza | 7 | 11 | 18 |
| | TOTAL | 15 | 30 | 45 |

Source: DSW/CD, 2020

• Sensitization on Promoting Women Empowerment as a tool to ending domestic violence

The Department of Social Welfare and Community Development organized a sensitization programme on women empowerment at the Twedie Area Council in June, 2020. The objective of the workshop was to sensitize the women on empowerment and how it can be used as a tool to fight domestic violence. At the end of the sensitization, participants accepted that women were mostly victims of domestic violence. Therefore, empowering them is necessary to bringing an end to it. It was also agreed that an empowered woman can stand up against domestic violence. A total of Thirty-Five (35) women participated in the workshop.

• Sensitization on Menstrual hygiene

The District Health Directorate in collaboration with the Dept. of Social Welfare and Community Development conducted a social education for women groups and girls on menstrual hygiene. The sensitization exercise was held on 12th June, 2020 at the Twedie Methodist Church. A total number of 48 women and girls participated in the exercise.

2.6.2 Climate Change Interventions

This section of the report focuses issues relating to climate change interventions and awareness creation of climate change in the district.

• Sensitization Programme for Teachers and Pupils On Climate Change

On Wednesday, 17th July, 2020 NADMO embarked on a sensitization programme to educate teachers and pupils on climate change at Afua Kobi Senior High School. A total number of 832 participants which includes both teachers and students (41 males and 791 females) made up of 83 pupils. The objectives of the programme was,

- To create awareness on climate change and its adaptation strategies
- To strengthen capacities of educational institutions to undertake climate change studies
- To develop strategies to implement climate change adaptation options
- To develop systems for data collection, processing and dissemination of information

• Education on the effects of galamsey activities and bush fires

During the year 2020 the department of NADMO embarked on community sensitization on bush fires and the effects of galamsey activities on the environment in 3 communities (Nweneso 1, 11 and 111) on Monday 4th November 2020. The total number of community members involved were 124 out of which 95 were males and 34 were females. Participants were taken through the causes of bush fires which included; uncontrolled burning of farm lands, activities of hunters, improper discarding of cigarette butts among others. They were also made to understand that galamsey activities are very detrimental to the environment. Participants were made up of Assembly Members, Unit Committee Members, Chiefs and the general community. At the end of the program, communities were able to identify alternative ways of undertaking activities such a hunting in order not to cause bushfires.

• Tree Planting in Schools and Distribution of Seedlings

During the year 2020, the Atwima Kwanwoma district in collaboration with Forestry Commission, the District Directorate of Agriculture and the Ghana Education Service (GES) undertook tree planting exercises in all four secondary schools in the District (Afua Kobi SHS, Kwanwoma SHS, Trede SHS and ICCES) schools between 16th July to 20th July 2020. All the Assembly members and majority of opinion leaders in the communities were greatly involved in the exercise. A total number of 589 participants made up of (385 males and 204 females) The District Directorate of Agriculture educated students and teachers about the relevance of planting trees in schools and the communities. In all, two hundred (100) trees were planted in the schools. As part of its function as windbreaks, the trees were planted in front of buildings and along major roads. The District Directorate of Agriculture advised all the headmasters of the participating schools to ensure that proper monitoring is done so as to achieve the aim of planting the trees. Additionally, farmers were given seedlings of various species to plant in their farms to replace older trees fell for lumber and to serve as wind breaks to protect lives and property.

• Education and Disaster Prevention and mitigation

Within the 2020 period, the organization (NADMO) undertook four disaster education tour to all the four secondary schools (Kwanwoma SHS, Afua Kobi SHS, Trede SHS and ICCES) in the district when the schools returned from break during the closure after lockdown. The purpose was to educate the students on the fire prevention in their immediate environments. The programme was to also educate the students to fight minor fire outbreaks before they develop into disaster

level. A total number of 397 participants made of 240 females and 157 males attended the training sessions

The district NADMO also held a number of sensitization with farmers to prevent their farms fire during dry season. The activities were how to make farm belt around their farms to prevent bush fires. Hunters and palm wine tappers in the district were also educated on the dangers and damages bushfires could cause and were educated through brainstorming on these matters.

The NADMO office, embarked on a number of visits in the flood prone areas in the district to guide the residents to ensure proper drainage systems and also avoid building on waterlogged areas to protect lives and properties from avoidable disasters.

• Formation of Disaster Volunteer Groups

The District NADMO office engaged in the formation of Disaster Volunteer Groups (DVGs) to the insufficient existing DVGs. This is to help combat any form of disaster within their localities especially in the disaster prone areas. In addition to the already existing DVGs, 5 additional DVGs were formed and launched on 24th September, 2020 at Twedie. A total number of 53 people participated (38 males and 15 females)

• Inspection and Distribution of Relief Items to Disaster Victims.

The District NADMO office received five (5) reports on a number of disaster situations within the district over the 2020 period. The table below gives a picture of the incidence of the situation.

| S/ | Location | Nature of | Relief | Sex | of | Items/Propertie | Comment/Remark |
|----|----------|-----------------------------------------|--------------------------------------------------------|---------|----|--------------------------------------------------|----------------|

• Campaign against Indiscriminate Use of Agro-Chemicals

One of the most difficult challenges being faced in the country now is the indiscriminate use of agro-chemicals in animal farming, fish farming and crop production. The District Directorate of Agriculture and the Information Service Department of the District undertook a campaign against the indiscriminate use of agro-chemical in the district during the Farmers' Day Celebration at Trede in November, 2020. This exercise was an intensive one because of the dangers it can have on human life. The team visited all the Sixty-four (64) communities of

the district and a proper sensitization was done. The meetings drew a lot of people in all the communities visited most of which were farmers. The meetings were held at vantage places such as markets, lorry stations, churches and mosque to sensitize the people especially farmers on the abuse of agro-chemicals in farming. An estimated 1,135 people made up of 737 males and 398 females took part in the programme in all communities.

• Study Tour on Conservation Agriculture to Center for no till Agriculture

As part of the annual study tour of the Department of Agriculture which is organized to give farmers and technical staff of the department of agriculture a practical view of some of the extended modern technologies in Agriculture, the Department of Agric organized a tour to the Centre for no till Agriculture in the Atwima Nwabiagya District (Amanchia) on September, 2020.

The main objective of the study tour was to introduce farmers and staff to conservation agriculture as a means to combat climate change. Through the facilitation, participants were made to understand and appreciate the Concept, Principles and Practices of Conservational Agriculture (No-tillage and No-chemical) use on farm lands. Some of the other conservatory agriculture practices demonstrated include: Harvesting of rain water for irrigation, brushing of weed, no burning, no ploughing, mulching, mixed cropping, Food/cover cropping, no-till with barriers (stone & vegetative), improvised irrigation with perforated plastic water bottles, agro-forestry, hanging gardens and other beneficial plants. During the tour it was also discovered that Naphtalene balls (Camphor) can be used to repel destructive insects on coconut seedlings.

The study tour paved the way for participants to understand the Effects and Impact associated with the destruction of soil and its natural habitats. In all forty (40) staff and farmers made up of thirty-two (32) male and eight (8) females participated in the tour.

• Training of AEAs and Farmers on Climate Change in Planting and New Farming Techniques

The Department of Agriculture within the month February, 2020 embarked on the training of AEAs and farmers on the considerations of weather during planting seasons and conservation agriculture as an improved technology in the phase of the unpredictable weather patterns in preparations towards the 2020 major farming season. The venue for the exercise was Trabuom. A total number 15 people participated (12 males and 3 females)

2.6.4 Local Economic Development Programmes

This section of the report details out the local economic development activities that were undertaken in the district in the year 2020. The table shows the local economic activities that were undertaken in the district.

| No. | Dates | Activity | Target Group | Venue | No. | No. Of Parts. | | Funding Source | Remarks |

2.6 Evaluations Conducted, Findings and Recommendations

Evaluation plays a critical role in the lifespan of project implementation which therefore provides feedback to determine the success or failure of the project.

The evaluation of the achievements of the 2020 Composite Annual Action Plan for the 2020 fiscal year was conducted in two phases as: Ex-ante Evaluation (before) and Terminal evaluation (after) the implementation of the programmes, projects and activities based on the M&E Calendar and

Budget. The evaluation was conducted by the DPCU with the collaborations with Units, Agencies and the necessary non state actors.

The evaluations basically involved scrutiny of the status-quo reports and the analysis of data from both primary and secondary sources which was compared with appraisal reports during and after the implementation of the year's activities. Field surveys including data collection, analysis, observations, presentation as well as reports were used to conduct the evaluation of the selected physical projects implemented from the 2020 CAAP.

Moreover, findings from the evaluation revealed that all the selected physical projects that were implemented for the period under review, showed some positive impacts on the lives of the people in the District as shown in Table 2.6 below. Additionally, it is observed that the major sources of funding for the implementation of projects (DACF and DDF) were inadequate and their late releases negatively affect project implementation.

It is however recommended that adequate funds should be made available and released timely for implementation of the project and programmes for the achievements of the 2018-2021 DMTDP. Moreover, adequate funds and necessary logistics should be made readily available to conduct monitoring and evaluations to enhance effective programme, project and activity design and implementations in the District.

2.7 Participatory Monitoring and Evaluation Undertaken and Their Results

Participatory Monitoring and Evaluation (PM&E) refers to the involvement and or participation of all the necessary stakeholders in the M&E design and implementation process. For the period under review, the District conducted PM&E using Community Score Card and Participatory Expenditure Tracking Surveys in the implementation of 2020 Composite Annual Action Plan. The key stakeholders who participated in the two PM&E through the stakeholders' analysis included Traditional Authorities, Assembly Members, Unit Committee Members, Opinion Leaders, Contractors, Heads of Decentralised Departments and Units /Agencies and other non-state actors. Table 2.7 below gives the detailed PM&E conducted for the 2020.

| Name of PM&E Tool | Policy/Programme/ Project Involved | Consultant or Resource Persons Involved | Methodology Used | Findings | Recommendations |
|----------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

CHAPTER THREE

3.0 CONCLUSION AND THE WAY FORWARD

This section summarizes the 2020 Progress Report by exhibiting the key issues addressed in the 2020 CAAP and those rolled over as well as the recommendations for successful implementation of the ensuing years' Composite Annual Action Plans (CAAP).

3.1 Summary of Key Issues Addressed and Those Yet to be addressed

In the course of the implementation of the 2020 Composite Annual Action Plan, a number of key issues have been identified and were addressed which needed to be sustained.

- ✓ Funds for Monitoring and Evaluation activities were provided quarterly for the District Monitoring Team to conduct the exercise.
- ✓ Logistics in form of fuel, stationery and other Monitoring and Evaluation materials were provided timely for the conduct of the M&E exercise in the District. This provided solution to the logistical challenge raised by the District Monitoring Team.
- ✓ Funds were released for the Decentralized Departments of the Assembly to carry-out their mandated programmes, projects and activities in the 2020 Composite Annual Action Plan. This addressed the challenge of lack of funds for Departments to carry-out their activities in the 2020 CAAP.

However, the implementation of the 2020 Composite Annual Action Plan was challenged with the following key issues which need to be addressed.

- ✓ Lack of assigned permanent vehicle for Monitoring and Evaluation of programmes, projects and activities in the District. This pending issue should be rectified by management of the District Assembly.
- ✓ Inadequate and untimely release of DACF negatively affects the implementation of programmes, projects and activities in the District. This issue is yet to be resolved by the District Assemblies Common Fund Administrator.
- Delays in releasing information by some departments and units in preparation of (Annual) Progress Report.
- \checkmark The outbreak of Coronavirus pandemic and the subsequent lockdown of the district.

3.2 Recommendations

The way forward to address the challenges faced in the Monitoring and Evaluation activities, in addition to those yet to be addressed, include the following.

- ✓ Provision of permanent vehicle for Monitoring and Evaluation exercise in the District to help improve the routine inspection and supervision of programmes, projects and activities.
- ✓ Based on the challenges identified in the implementation of DACF programmes, the Assembly recommends timely and adequate release of DACF to finance the plan and budget implementation in the District.
- Regular reshaping of roads networks in the District to improve Monitoring and Evaluation exercise and other economic activities.
- Regular Organization of Monitoring and Evaluation training programmes by the National Development Planning Commission (NDPC) to equip District Monitoring Teams with the required knowledge and experience to perform effectively.
- ✓ Creation of DPCU Fund to promote the functionality of DPCU as enshrined in the Local Governance Act 936, 2016 and the National Development Planning (System) Regulations, LI 2232, 2016.
