EXECUTIVE SUMMARY

The 2020 Annual Progress Report catalogues the achievements and challenges of the District in the implementation of the Annual Action Plan of the District Medium Term Development Plan, 2018-2021, of the Sekyere Afram Plains District Assembly.

The report has been organised into three chapters. The opening chapter outlines mainly the purpose for the preparation of the APR, the activities involved and the stakeholders. The second chapter delves into the M&E activities for the period. It provides the proposed activities and how far they have been achieved within the year. It also provided the revenue performance for the year. The revenue showed a continual meagre internally generated revenue as compared to the Grants. Lands and concessions, Fees and Fines continue to be the revenue items that provide internally generated revenue for the Assembly.

Performance of core district indicators for the District has been provided but there are some information that are not presented because the implementing departments did not submit their input after a several request.

Other critical areas for which information was readily available were presented in the last chapter. Issues of education, Social Protection Programmes, skills development and agriculture. Issues of Road infrastructure, environmental and climate change issues, HIV and AIDS have been duly presented. Some of the challenges of the entire process of reporting and the recommendations have been suggested to conclude the report.

CHAPTER ONE

INTRODUCTION

1.0 BACKGROUND

The Annual Progress Report (APR) provides an assessment of the implementation of the District Medium Term Development Plan (DMTDP), 2018-2021 of the Sekyere Afram Plains District.

This annual report of the Assembly covers its performance from the first quarter to the last quarter of 2020 in respect of implementation of harmonized programmes and projects in the DMTDP 2018-2021.

1.1 Summary of Achievements of Implementation of DMTDP

During the year under review, the District was able to implement 88.7% of its planned projects/programmes in the Composite Annual Action Plan. Besides, the proportion of the DMTDP implemented in the year under review was 27.5% of the total 200 projects/programmes in the MTDP.

Tables 1 and 2 below present summary of achievements of projects/programmes implemented in the year 2020.

| S/N | DEVELOPMENT DIMENSION | 2020 | | | | |
|-----|--|------|----------|--|--|--|

| plan implemented | | | |

Source: DPCU, SAPDA, 2020

The year 2020, however saw a sluggish and unpredicted releases of expected funds, especially the DACF and DDF which went a long way to affect the commencement and completion of projects.

Also, the Corona virus pandemic in the country affected implementation of projects and programmes because the Assembly had to used part of the funds received to support the fight against the pandemic.

1.2 Purpose of the Monitoring and Evaluation for the year 2020

The Guidelines for operationalization of the DPCU in line with provisions of the Local Governance Act 2016, Act 936, mandate the Assembly as a planning Authority to prepare and implement Monitoring and Evaluation Plan.

However, the need for embarking on monitoring and evaluation exercises is to track progress of implementations of activities outlined in the Annual Action Plan, and by extension, the District Medium Term Development Plan (2018-2021).

The conduct of monitoring exercises is necessary as it is the main means by which implementation progress of various projects and programmes could be assessed and verified.

It also gives the opportunity for management to know the implementation challenges and thus take informed decisions to address them.

Therefore, the purpose of carrying out monitoring and evaluation is to achieve a number of objectives which include the following:

- To identify achievements, constraints and failures so that improvements can be made to the Composite Annual Action Plan and project designs to achieve better impact.
- To provide information for effective coordination of District's development at the regional and national levels.
- To document progress made and lessons learnt from the implementation of programmes and projects.
- To improve service delivery and influence allocation of resources in the District.
- To demonstrate M&E results to stakeholders as part of accountability and transparency.

1.3 PREPARATION PROCESS OF THE 2020 ANNUAL PROGRESS REPORT

1.3.1The Process

Participatory monitoring was used to keep track of progress of implementation of projects towards achieving targets on quarterly basis.

The District Planning Coordinating Unit (DPCU) facilitated the preparation of this Annual Progress Report with the involvement of the Decentralised Departments of the Assembly. Monitoring and Evaluation data were compiled from both primary and secondary sources. The secondary data were compiled from the various quarterly Reports of Departments and Agencies

as well as the Area Council. The primary data were also obtained from the quarterly site meetings, public forums, and the quarterly meetings with the various stakeholders involved in the plan implementation and monitoring. The data were collated, analysed and evaluated by the DPCU.

1.3.2 Project Inspection and Site Visits

Monthly and other periodic monitoring of projects was carried out through visits to Programme, project and activity sites by the District Assembly Monitoring Team made up of members of the District Planning Coordinating Unit (DPCU). The visits enabled the DPCU to assess projects for conformation to specifications, value for money and whether the outputs will help achieve the project objective(s).

These visits also provided the opportunity for the monitoring team to hold sites meetings. These meetings improve accountability as the monitoring team apprised all project/programme and communicated to the relevant actors, communities, departments and institutions of key findings and observations after each project inspection.

1.3.3 Data Collection and Validation

The DPCU collected data on ongoing activities, programmes and projects as well as those implemented from January to December, 2020. The data were reviewed at the meeting of the DPCU and management meeting of the Heads of Department of the Assembly, Unit Heads of the Central Administration and other relevant stakeholders. The Monitoring reports prepared were extensively used in the preparation of the APR.

1.3.4 Departmental Reports

Annual and Quarterly Departmental performance reports submitted by Departments and Institutions in the Assembly provided additional secondary information towards the preparation of this report.

1.3.5 Challenges Encountered

In consonance with the previous reports, most of the problems encountered in the previous reports still persist

still persist.

1.3.6 Inadequate logistics and resources

The DPCU was at times compelled to postpone planned activities when a vehicle designated for an activity is re-assigned for other duties without notice. On a number of occasions, officers had to use their private cars to undertake official inspection and travels.

Inadequate budget for monitoring and evaluation activities sometimes compelled the DPCU to curtail some planned M&E activities. The problem also resulted in absence of incentives to motivated staff to commit themselves to M&E requirements.

1.3.7 Different Reporting Formats

Different reporting formats makes it difficult for data harmonization and alignment. In addition, departments delay their reports making it difficult to make accurate reporting on the performance of the district.

CHAPTER TWO

MONITORING AND EVALUATION ACTIVITIES

2.0 Introduction

This section addresses issues on the status of projects implemented in 2020, updates on revenue sources and expenditure. It also indicates core indicators and critical development and poverty issues including monitoring and evaluation conducted, their findings and conclusions within the planned period.

2.1 Program/Project status as at the end of 2020

Table 2.1 below shows the status of projects and programs implemented by the Assembly as at the end of December, 2020. Fifty-two (52) programs and projects were planned for implementation, however, as at the end of the fourth quarter, the District had benefited ten projects from other sources (GET Fund and GNPC) making the total projects/programmes for implementation to sixty-two (62). Out of this total, fifty-five (55) programs and projects representing 88.7% were implemented while 7 representing 11.3% were yet to start. However, forty-four (44) out of the Fifty-fifty (55) implemented are still ongoing.

2.2 Revenue Performance

A total of GH¢ **3,425,545.68** was the amount received by the Sekyere Afram Plains District Assembly by the end of the year 2020. The range of the revenue sources include Internal Generated Fund (IGF), District Assemblies Common Fund (DACF), Member of Parliament Common Fund (MPCF), and District Development Facility (DDF). A summary of the revenue performance of the District is presented in the Table 4 below. Out of the GH¢ **5,190,205.36** estimated, by the end of 2020 an amount of GH¢ **3,**425,545.68 was realized. Therefore, the Assembly's inability to implement some of its programmes and projects could be attributed to the inadequate releases of the DACF and the DACF-RFG.

The IGF have seen improvement in the past three years. In the year 2020, the revenue target was exceeded by 61.4%. However, the increase in IGF is attributed to Royalties which is not a good indicator the Assembly in terms of generating revenue locally. Therefore, in order to generate enough revenue locally, adequate measures have been put in place to educate the public on the need to pay rates. In addition, several actions have been taken by the Assembly to improve upon the revenue collection and management for the year 2021.

2.3 Update on Disbursement

In order to ensure effective implementation of every plan and budget, revenue and expenditure reporting play a key role for successful implementation. This section of the progress report brings on board the revenue and

expenditure for the year under review. This will demonstrate the total revenue generated within the year and how funds were released to finance the expenditure of the 2020 Composite Budget and the 2020 Composite Annual Action Plan

From the Table 5 it can be seen that an amount of GH¢5,275,368.88out of the total estimated expenditure of GH¢8,183,221.40 was spent. The programmes and projects implemented with the four expenditure items were initiated from the 2020 Composite Annual Action Plan and Composite Budget, which were prepared from the DMTDP 2018-2021.

| EXPENDITURE | 2018 | 2019 Target | 2019 Actual | 2020 Target | 2020 Actual |
|-------------------|--------------|--------------|--------------|--------------|--------------|
| ITEM | Baseline | (GH¢) | (GH¢) | (GH¢) | (GH¢) |
| | (GH¢) | | | | |
| Compensation | 1,039,006.50 | 897,685.95 | 1,161,531.17 | 1,003,136.86 | 1,591,738.98 |

Source: District Finance Department, 2020

2.4 Update on Indicators and Targets

The Table 6 shows the performance indicators and targets for the implementation of 2020 Annual Action Plan and Composite Budget. In general, the achievements are affected by the delays and inadequate release of the major funding sources (DACF and DDF) and the outbreak of corona virus in the country.

2.5.1 Economic (Skills Training, Employment Generation and Credit)

The Assembly engages in the provision of skills training and the generation of employment through its Business Advisory Centre (BAC). During the period under review, the centre undertook the following:

| S/No. | Training | Location | Number | Number of participants | |
|-------|--|------------------------------|--------|------------------------|-------|
| | | | Male | Female | Total |
| 1 | Study Tour | Unijay Fashions Kumasi | 2 | 28 | 30 |
| 2 | Tech. Improv. Training in Cassava Processing | Fumsua | 6 | 10 | 16 |
| 3 | Internship for Bakers | Kumawu | 0 | 2 | 2 |
| 4 | Formation of Association | Nyame Bekyere | 11 | 4 | 15 |
| 5 | Formation of Association | Jijiri | 12 | 2 | 14 |
| 6 | Entrepreneurship and Financial Literacy Training | Drobonso | 13 | 22 | 35 |
| 7 | Life Skills and Management Training | James Town | 0 | 90 | 90 |
| 8 | Business Counselling | Within the District | 20 | 30 | 50 |
| Total | | | 64 | 188 | 252 |

Table 8: Training provided by the Business Advisory Centre

Source: Business Advisory Centre, 2020

A total of 252 individuals were engaged in a number of trainings by the centre. All the trainees were males. A look at the table indicates a variation in the train perhaps based on the gender perception associated with some trades.

2.5.2 FUMIGATION

Zoomlion Ghana in collaboration with SAPDA/EHSU fumigated Drobonso, the District Capital on December. Seven (7) Sites were fumigated which include; Public Toilets, Refuse Containers Sites, Refuse Dump, Market Centers, Schools, Police Station and Final Disposal Site.

General fumigation exercise was also carried out in public places across the District as Covid-19 mitigation measures.

2.5.3 MEDICAL SCREENING

During the year under review, 112 food venders were screened and issued certificates to operate, forming only 48.6% of the targeted population. Out of the 112 venders screened, 7 cases of Hepatitis were identified

and denied certificate to operate as food vendors. Affected vendors were then issued referral letters and advised to visit the nearest health facility for treatment.

2.5.4 NATIONAL HEALTH INSURANCE

The National Health Insurance Scheme (NHIS) in the district is highly challenged just like most institutions in the District. The NHIS has no office in the District. As a result, residents who want to join the scheme have to travel to the nearby Districts. Those in the Northern part of the District do so in Districts like Atebubu-Amanten, Sene East and Sene West. In the southern part is the Asante Akim North and Kwahu Afram Plains North. The Eastern part also do the registration in the Sekyere East District. However, residents have to cover not less than 50km in all these cases just to get registered on the scheme. As a result of these challenges, it is very difficult to get accurate data on the number of people in the district who are registered with the scheme.

2.5.5 PROGRAMME FOR THE VULNERABLE AND EXCLUDED

15 cases on child right comprising of 6 males and 9 females' promotion and protection were received during the year. Also 68 cases comprising of 18 males and 50 females were also received on family welfare, child maintenance and juvenile delinquencies. Two (2) LEAP payments were made in February and April 2020. 56 beneficiaries representing 30 males and 26 females benefited. 65 Persons with Disability (PWDs) comprising of 15 males and 50 females' applications for support were received and supported in various forms including cash. Some of the child protection activities implemented include the following;

- 1. Investigated 15 cases of spousal/child abused and neglect in 2020 at Drobonso.
- 2. 68 cases of child maintenance and family reconciliation were received and resolved by the end of the 2020
- 3. 84 children were counselled and provided support in four communities namely Anyinofi, Fumsua, Dawia and Seneso.

| No. of LEAP Beneficiaries | Sex Aggregation | | Grant Received by | No. of Households | No. of Communities | | |
|------------------------------|-----------------|-----------------|----------------------|----------------------|-----------------------|-----------|--|
| | Adult male | Adult female | Children | Beneficiaries 2018 | | Benefited | |
| 206 | 56 | 68 | 82 | 87,784.00 | 206 | 29 | |

2.5.6 SOCIAL PROTECTION PROGRAMMES Table: 9 Livelihood Empowerment Against Poverty

2.5.7 PERSONS WITH DISABILITIES

The Department during the year under review undertook a head count for all disabilities in the district. The table below shows the disability types and sex aggregation in the district.

| Type of disability | Male | Female | Total |
|-----------------------|------|--------|-------|
| Deaf | 19 | 14 | 31 |
| Physically challenged | 81 | 67 | 122 |
| Blind | 15 | 13 | 23 |
| Mentally Challenged | 1 | - | 1 |
| Total | 116 | 94 | 210 |

Table 10: Disability Type and Sex Aggregation

2.5.8 CHILD RIGHTS PROMOTION AND PROTECTION

To facilitate the provision of adequate protection and security for children by their parents and guardians, the department helps to unravel the impasse between parents through mediation in the cases: A total of 64 cases were registered by the department during the year under review. The registered cases were in the areas of Child Maintenance, Child Welfare, Child custody and denial of paternity. During the year under review, spousal abuse and marital infidelity was also registered.

Table 11: Maintenance of Children

| | MALE CHILD | FEMALE CHILD | TOTAL |
|------------------|------------|--------------|-------|
| CASE BROUGHT | 8 | 5 | 13 |
| FORWARD | | | |
| NEW CASES | 13 | 11 | 24 |
| SUCCESSFUL CASES | 15 | 12 | 27 |
| WITHDRAWN CASES | 0 | 0 | 0 |
| CASE BROUGHT TO | 0 | 0 | 0 |
| FAMILY TRABUNAL | | | |
| TOTAL | | | 64 |

2.5.9 CLIMATE CHANGE

Table 12: Awareness Creation Programmes

| No | Date | Venue | Activity |
|----|------------|--|---|
| 1 | | | |
| | 10/01/2020 | Anyinofi, Seneso, Saabrewa and Saabum | Sensitization on the effects of bush fire on crops and livestock |
| 2 | | | |
| | 22/01/2020 | Dagomba, Drobonso, James Town. | Sensitization on effects of sand winning and the promotion of tree planting along the Afram river |

Number of climate change sensitization programmes undertaken in 2018 was 3 covering 3 Administrative zones

| No | Date | Venue | Activity |
|----|------------|--|---|
| 1 | 10/01/2020 | Anyinofi, Seneso, Saabrewa and Saabum | Sensitization on the effects of bush fire on crops and livestock |
| 2 | 09/04/2020 | Dagomba, Drobonso and Jamestown. | Sensitization on effects of sand winning and the promotion of tree planting along the Afram river |
| 3 | 20/08/2020 | Mamprusi, Wenamda, and Community 18. | Sensitization on the effects of indiscriminate felling of trees for charcoal burning and farmers to adopt practices that prevents bush burning |
| 4 | 18/12/2020 | Drobonso, Dagomba, Mamprusi and communities close to Drobonso Forest Reserve. | Sensitization on the effects of illegal chainsaw operation |

 Table 13: Climate Change sensitization Programmes

The Assembly's MTDP contains climate change data analysis which was conducted in 2020 showing list of risks, issues and areas and analysis applied in the planning.

| Risks | Issues | Areas | Analysis Applied |
|--|--|--|---------------------|
| Reduced soil fertility and rainfall | Charcoal burning and lumbering | Adukrom | Sustainability test |
| Destruction of vegetative cover | Bush burning | Drobonso, Dagomba | Sustainability test |
| Affects aquatic life in nearby rivers | Inappropriate use of chemicals for farming | Along Afram river, Abdulai, Boffourkura | Sustainability test |

2.6 AGRICULTURE SECTOR

2.6.1 Crops Sub-Sector

Prices of major food crops did not change much from the average prices in 2020. The highest change was seen in the average prices of Maize, 100%. This was followed by Local Rice, 0.80% and Cassava with 0.75%. However, the district recorded a decrease in the average prices for Tomatoes, and plantain as indicated in the Table 17 below.

| District Average Price (GH¢) | | | | | | |
|-------------------------------|------|------|-----------------------|--|--|--|
| COMMODITY | 2019 | 2020 | Percentage Difference | | | |
| Maize (100Kg) | 100 | 200 | 100.0 | | | |
| Local Rice (100 kg) | 200 | 280 | 0.80 | | | |
| Cowpea (109 kg) | 150 | 200 | 0.50 | | | |
| Groundnut (82 kg) | 190 | 250 | 0.60 | | | |
| Yam (250 kg) | 200 | 250 | 0.50 | | | |
| Cocoyam (91 kg) | - | - | - | | | |
| Cassava (91 kg) | 75 | 150 | 0.75 | | | |
| Plantain (9-11kg) | 13 | 15 | 0.02 | | | |
| Tomatoes (52kg) | 200 | 165 | 0.35 | | | |
| Millet (93 kg) | - | - | - | | | |
| Sorghum (109 kg) | - | - | - | | | |
| Smoked Herrings (100 singles) | - | - | - | | | |

Table 15: District Average Price of major commodities

Source: MOFA

Farmers and Farmer Based Organisations went through some training in the year.

| TOPIC | BENEF | CIARIES | TOTAL |
|--|-------|---------|-------|
| | MALE | FEMALE | |
| Training on time and correct method of fertilizer application | 157 | 48 | 205 |
| Training on good record keeping | 64 | 31 | 95 |
| Sensitization on food safety and personal hygiene | 78 | 22 | 100 |
| Sensitization on bush burning | 68 | 41 | 109 |
| Training on the use of PICs bags for storage of maize to improve shelf life | 93 | 36 | 129 |
| Training on integrated pest management | 132 | 31 | 163 |
| Training on timely harvesting | 195 | 62 | 257 |
| Training of pest disease recognition, control and prevent | 139 | 31 | 170 |

Table 16: Training for Food Crop Farmers, 2020

| Training on post-harvest handling of | 138 | 52 | 190 |
|--------------------------------------|-------|-----|-------|
| produce | | | |
| Sensitization on child labour | 34 | 107 | 141 |
| TOTAL | 1,098 | 461 | 1,559 |

2.6.2 Livestock Sub-Sector

In the livestock sub-sector, some trainings were undertaken which benefitted

| TOPIC | AREA OF TRAINING | BENEFICIARY | | |
|---|---|-------------|--------|-------|
| | | MALE | FEMALE | TOTAL |
| Improving animal housing | Provision of slated floor to animals | 48 | 21 | 69 |
| Zoo hygiene | Importance of practicing proper sanitation in livestock housing | 42 | 48 | 90 |
| Animal nutrition | Feed supplementation | 52 | 31 | 83 |
| Pests and diseases recognition and control in animals | Symptoms of diseases in animals and identification of healthy and unhealthy animals | 39 | 20 | 59 |
| TOTAL | | 236 | 150 | 386 |

2.7 PARTICIPATORY MONITORING AND EVALUATION AND OTHER STUDIES

2.7.1 Evaluations Conducted, Their Findings and Recommendations

Evaluation plays a vital role in the life of every project implementation as the feedback always determines the success or failure of the project. However, the Assembly did not organized evaluation on any of the projects implemented.

Nonetheless, it is expected that terminal evaluation will be carried out on some selected projects after they have been used for a reasonable period.

2.7.2 Participatory Monitoring and Evaluation Undertaken and Their Results

Participatory Monitoring and Evaluation (PM&E) refers to the practice where all key stakeholders are directly involved in the M&E design and implementation processes. However, just like the evaluation, the Assembly did not organized any Participatory Monitoring and Evaluation in the year 2020.

2.7.3 Monitoring Activities

Three quarterly Monitoring exercises were undertaken at the end of March, June and September which culminated in the production of Progress Reports that were submitted to the National Development Planning Commission and the Regional Coordinating Council.

The Monitoring exercises were faced with some impediments. These include

- Most of the roads were inaccessible
- Low monitoring and evaluation capacity skills
- Inadequate logistics and resources to effectively carry out the M&E exercise
- Ineffective reporting systems and information management
- Uncompleted integration and dual allegiance of some departments of the Assembly
- Ineffective DA sub-district structures

2.7.3 Recommendations for Improved Monitoring and Evaluation

The implementation of the under listed activities is expected to greatly improved the capacity for an enhanced monitoring and evaluation with the Assembly.

- Deepen the capacity for monitoring and evaluation at all levels of the Assembly
- Provide enough funds for M&E activities
- Computer training in data collection and analysis

CHAPTER THREE

THE FORWARD

3.0 Introduction

This section summarizes the 2020 Annual Progress Report by exhibiting the key issues addressed and those yet to be addressed as well as the recommendations for successful implementation of subsequent Composite Annual Action Plans (CAAP). It also discusses other development issues of concern in the district.

3.1 Key Issues Addressed and Those Yet to be Addressed

There is more to be done in terms of project monitoring and evaluation to ensure effectiveness of projects implementation. The situation is very worrying as no vehicle had been assigned purposely for the District Planning Co-ordination Unit which is responsible to undertake monitoring. Logistics were hardly available which resulted in forfeiting conduct of evaluation of projects to ascertain their impacts on the beneficiaries and the district as a whole.

Besides, difficulty in coordinating effectively at the District level had resulted in a situation where basic data is very difficult to obtain. This makes it even more difficult in order to keep track of projects implementation in the District.

Though there is a Monitoring and Evaluation Plan, the implementation of the DMTDP is most often confronted by the following constraints which must be resolved immediately:

- Low monitoring and evaluation skills and human resource capacity in the District.
- Low appreciation of the importance of Monitoring and Evaluation.
- Inadequate logistic and resources to monitor and evaluate the DMTDP.
- Ineffective reporting systems and information management.
- Incomplete integration and dual allegiance of some Departments of the Assembly.
- Ineffective DA sub-structures (i.e. Area Councils and Unit Committees).
- Inadequate and scattered data for the revenue items to guide projections and revenue generation in the district were also of much concern. However, efforts are being made to gather some data for revenue generation, especially the property rate.
- Untimely releases of the DACF also had a great effect on projects implementation periods.
- Lack of political commitment to prosecute tax defaulters to serve as a deterrent resulted in inadequate revenue mobilization.

3.2 Recommendations

The way forward to address the challenges faced in the Monitoring and Evaluation activities include the following:

- Ensure efficient and effective functioning of the sub-district structures
- Timely and adequate releases of the DACF
- Evaluate properties for property rate collection in all major communities in the District.

- Ensure strict enforcement of District Assembly's directives, regulations and enactments in physical development and other spheres of administration
- Develop and deploy an effective financial management system.
- Improve Budget compliance/execution and reporting.
- Supervision of Revenue Collection/mobilization must be strengthened.
- The DPCU should be resourced and well equipped with the necessary training and logistics to function effectively.

3.3 Road Infrastructure

The general road infrastructure is very poor in the district – un-engineered roads, bad road surface, poor linkage of communities and many others. However, in the year under review saw improvements in the state of roads in the District.

The Drobonso-Issahkura-Dawia-Mempekasa road was commenced for construction and bitumen surfacing. However, it was still ongoing as at the end of the year.

The feeder road between Anyinofi and Sene-Agya was rehabilitated in the period to make it easier to cart people, goods and services.

3.4 Environmental Protection and Climate Change

Bush fires continue to pose great hazard to the ecosystem in the district. Despite the regular education of citizens, the act is still persistent. The assembly resolved to actively implement effectively its bye-laws relating to bushfires in conjunction with the Ghana police service.

3.5 HIV/AIDS

The HIV/AIDS desk under the District AIDS Committee (DAC) and District Response Management Team (DRMT) undertook various activities aim to sensitising and promoting ways of reducing the risk of infection. Prevalence rate in the District is very low.

3.6 Summary of Challenges

- Poor road and transportation network
- Inadequate information and communication technology infrastructure
- Inadequate agro-based small scale industries
- Underdeveloped tourism
- Poor environmental management practices
- Low revenue mobilisation
- Inadequate access to quality education infrastructure
- Poor settlements linkages

3.7 Recommendations

• Increased investment in road infrastructure and the creation of enabling atmosphere for effective transportation

- Provision of information and communication technology infrastructure in major settlements and effective telecommunication networks
- Promote the tourism potential of the District
- Continue the provision of modern school infrastructure
- Ensure the provision of adequate extension services to farmers

3.8 Conclusion

It is the hope of the Assembly that these recommended strategies would be pursued in order to step up the general efforts of promoting growth in the local economy and also facilitate development in the various sectors, to improve the living conditions of the people in the District.
