Foreword

The District League Table (DLT), since its inception in 2014 has served as one of the important tools for measuring the status of development at the subnational level. The tool is in pursuance of the National Development Planning Commission's mandate of monitoring and evaluating development outcomes by highlighting inequalities and disparities in wellbeing across the country. It also provides a multi-sectoral, integrated assessment of how Ghana is developing across all its Metropolises, Municipalities and Districts (MMDs), based on selected sectors and indicators.

The 2021 DLT Report ranked all 261 MMDs on the wellbeing of its citizens based on seven sectors and twenty-two indicators with a focus on the survival and development of children. The selected indicators incorporate both the Sustainable Development Goals (SDGs) and African Union Agenda 2063 indicators to generate appropriate district level data and analysis for achieving these international commitments. The sectors are: health; education; water; sanitation; energy; nutrition; and governance. Compared to the 2020 DLT Report, the sectors have been expanded to include nutrition. Similarity in the selected sectors and indicators offers the opportunity for further analysis and comparison of progress for the current

(2021) and immediate past (2020) editions. Significant efforts have also been made to enhance the quality of the analysis, despite challenges related to the availability, regularity, and accuracy of administrative data on development outcomes at the district level.

The National Development Planning Commission (NDPC) and the United Nations Children's Fund (UNICEF) continue to collaborate to generate evidence through robust monitoring and evaluation systems at all levels for informed decision making and effective resource mobilisation for implementation of plans. Results from the 2020 DLT Report attracted support from some partners to address the disparities at the district level while sustaining gains made by best ranked districts.

NDPC, in collaboration with UNICEF and other partners, is committed to addressing disparities in development. Efforts are being made to integrate DLT into the allocation formula used for the District Assemblies Common Fund (DACF) to ensure resources are equitably distributed. This therefore calls for effective collaboration with all partners and district assemblies to work towards sustaining the DLT.

Professor George Gyan-Baffour
Chairman, NDPC

Kodjo Esseim Mensah-Abrampa, PhD
Director-General, NDPC

Acknowledgements

NDPC and UNICEF Ghana are appreciative of the support in the form of data and contributions received from Ministries, Departments and Agencies (MDAs) and Metropolitan, Municipal and District Assemblies (MMDAs). Special appreciation goes to the Ministry of Health, Ghana Health Service, Ministry of Education, Ghana Education Service, Ministry of Gender, Children and Social Protection, National Health Insurance Authority, Ministry of Local Government, Decentralization and Rural Development, Office of Head of Local Government Services and Ghana

Statistical Service. In addition, MMDAs are acknowledged for the submission of reports that provided valuable information for the District League Table Report.

Further appreciation goes to the data analysis team from the Center for Social Policy Studies, University of Ghana, led by Dr. Kwadwo Opoku, the DLT Steering Committee and Technical Working Group from selected MDAs, the Social Policy and Inclusion Section of UNICEF Ghana, and the staff at NDPC working on the DLT for their technical expertise.

Executive Summary

The 2021 District League Table (DLT) Report builds on the progress of work accomplished over the last six editions and provides an assessment of the levels of development across all the 261 Metropolises, Municipalities and Districts (MMDs) of Ghana, based on selected indicators from health, nutrition, education, water, sanitation, energy and governance. In all, 22 indicators were used to prepare the 2021 DLT report.

As in previous years, the indicators were selected, taking into consideration four important criteria – (i) key priority for people’s social wellbeing and development; (ii) available in an annually produced national database for every district in Ghana on a timely basis; (iii) represent an output or outcome, not an input; (iv) assess equity and accessibility. The data used for the DLT scores were provided by the Ministries, Departments and Agencies (MDAs) responsible for the respective sectors and indicators.

The factor analysis methodology was deployed in developing the scores and rankings to allow for weighting as some sectors had more than one indicator. The report ranks all MMDs in each of the seven sectors. Regional level analysis has also been done to show the levels of regional disparities across each of the seven sectors, as well as for the overall ranking.

The 2021 District League Table Report has once again provided evidence of the wide disparities in the levels of social development across the country and highlights how some segments of the population, including children, are left behind in access to service delivery and development outcomes simply as a result of where they reside.

Education

In the education sector, the gap between the top-ranked district, Ga West Municipality

(with a score of 90.16%) and Ayawaso North Municipality (with a score of only 3.52%) is 86.64 percentage points. In general, the average regional scores for education are not good, with the best performing region, Greater Accra scoring just 32.41 percent, compared to 14.46 percent for the worst performing region.

Health

In the health sector, seven (7) MMDs – Asutifi South District, Korle-Klottey Municipality, Ayawaso North Municipality, Tema Metropolis, Ayawaso East District, Birim Central Municipality and Chereponi District – scored 100 percent, while the bottom-ranked, Ga Central Municipality, scored just 7.47 percent. At the regional level, the North East Region topped with 90.48 percent, while Greater Accra Region was at the bottom with 55.88 percent.

Nutrition

In the area of nutrition, Okere District in the Eastern Region topped with a score of 100 percent, while the bottom-ranked, Kassena Nankana Municipality in the Upper East Region scored just 7.82 percent. The regional analysis shows that Eastern Region topped with 90.18 percent, and Upper East Region came in at the bottom with 70.68 percent. All Municipalities and Districts (MDs) in the Eastern Region, with the exception of Akyemansa District scored above 80 percent.

Water

In the water sector, 12 MMDs - Mampong Municipality, Ablekuma West Municipality, Krowor Municipality, Korle-Klottey Municipality, Cape Coast Metropolis, Accra Metropolis, Ga North Municipality, Ablekuma North Municipality, Effutu Municipality, La Dade-Kotopon Municipality, Kpone-Katamanso Municipality, and

Ayawaso Central Municipality– scored 100 percent, while the bottom-ranked district, Nanton District, scored just 1.11 percent. For the regional analysis, Greater Accra Region had 90.86 percent to place first, while Northern Region scored 54.91 percent to place sixteenth.

Sanitation

For the sanitation sector, two municipalities – Krowor and Adentan – scored 100 percent, while Sekyere South District, recorded the lowest score of 6.65 percent. The average regional scores for sanitation had Greater Accra Region topping with 68.58 percent, compared to 24.31 percent for the bottom region, Savannah.

Energy

Thirty MMDs had universal access to electricity, with over half of them in the Greater Accra Region, while Yunyoo-Nansuan District in the North East Region had only 5 percent coverage. Overall, the Greater Accra Region topped at the regional level with 97.92 percent coverage, while the Savannah Region scored 47.40 percent.

Governance

Generally MMDs performed very well in the area of governance with scores exceeding 80 percent. Four Municipalities and Districts (MDs) - Suaman District (Western North), Afigya-Kwabre North District (Ashanti),

Berekum East Municipality (Bono) and Karaga District (Northern) topped with a score of 100 percent each, while the bottom-ranked, Keta Municipality (Volta), scored just 22.89 percent. The regional analysis shows that Greater Accra Region topped with 92.43 percent, with North East Region coming in at the bottom with 80.61 percent.

Overall

The Tema Metropolis emerged as the overall top-ranked MMD for the 2021 District League Table, with an overall score of 81.78 percent. This is the second time that Tema has been adjudged the best MMD in the DLT, making it the only local authority to achieve this fete. The lowest ranked district of the 2021 DLT was Nanton in the Northern Region, with a score of 38.66 percent. The obvious wide gap between Tema and Nanton should therefore be a cause of concern for all development actors - from the national to the sub-national level. In terms of the regional ranking, the Greater Accra Region had 72.37 percent to place first and the Savannah Region was sixteenth with 52.61 percent.

It is obvious from the wide disparities in service delivery across the country that, many populations, especially in the lower ranked MMDs are being left behind, simply because of where they live. Without a deliberate effort at reducing inequality, accompanied by equitable resource allocation, the SDGs are unlikely to be achieved by the 2030 target year.

1. Introduction

Background

The District League Table (DLT) was initiated by UNICEF Ghana, in partnership with CDD-Ghana in 2014, as a tool for tracking national development; highlighting districts that are doing well and those challenged in terms of wellbeing of their populations. The DLT ranks all Metropolis, Municipalities and Districts (MMDs) in Ghana based on selected indicators from various sectors of the country. The DLT has been produced and disseminated annually with various modifications to indicators and methodology.

Key partners over the years have included the Ministry of Local Government, Decentralization and Rural Development, the Ghana Statistical Service, the Office of Head of Local Government Service, the Ministry of Health and the Ministry of Education. The Regional and District Planning and Coordinating Units have also been involved, especially during the regional pre-launch and post-launch events. Parliament, notably the Committees on Local Government and Poverty Reduction have also appreciated the outcomes of the DLT and are committed to supporting efforts toward equitable resource allocation to the districts.

Activities, with respect to past DLTs, especially the national and regional Launches of the reports have generated a significant amount of public interest with the support of the media, leading to increased awareness of disparities among districts. The report has also generated discussions at the district level, and therefore provided a platform for enhanced social accountability between District Assemblies and their citizens.

Even though the DLT has raised issues regarding wide disparities in wellbeing among the 261 MMDs, the bigger objective of generating action by Government and its stakeholders towards ensuring better

prioritisation and equitable resource allocation, has not been achieved. In this regard, the partnership structure changed in 2021 to involve NDPC, the government's lead agency for national development planning, to enhance the use of the DLT Reports.

Goal for the DLT

The goal of the 2021 DLT remains the same as previous ones: to generate appropriate district level data, conduct an independent analysis, and make findings and recommendations with key messages to engender policy dialogue and actions at both the national and district levels, towards reducing inequalities and leaving no child behind in achieving the SDGs.

Objectives of the DLT

The objectives of the DLT have not changed over the years, and are as follows:

1. To enable Government gain better understanding of the status of wellbeing across the MMDs in the country
2. To provide the evidence and basis for more equitable resource allocation and social investment to reduce disparities among MMDs
3. To increase social accountability around service delivery between national/local government and citizens; and
4. To improve state responsiveness to development issues at the subnational level

Scope

The DLT concept is developed around a framework composed of two important elements: sectors and indicators. The sectors represent development dimensions of wellbeing. Appropriate indicators provide best measure of development within the sectors.

The selection of indicators for the DLT is mainly influenced by the following criteria:

1. A key priority sector for people's wellbeing and MMDs development;
2. Represent an output or outcome indicator;
3. Administrative data must be annually available for most districts; and
4. Help assess equity and accessibility, in service delivery.

At the early stages of the sector and indicator selection process, over 10 sectors and 60 indicators were considered. Due to the lack of or insufficient data, seven sectors 22 indicators were picked for the analysis. The sectors and their respective indicators that met the criteria for the 2021 District League Table are as follows:

Table 1: Sectors and indicators used for District League Table

Sector	Indicator	Source of the Data
Education	1. Gross access rate to kindergartens	EMIS Report 2020/21
	2. Final Exam (BECE) Pass Rate	
	3. Net enrolment rates at KG	
	4. Net enrolment rates at Primary	
	5. Net enrolment rates at JHS	
	6. Completion rate at primary	
	7. Completion rate at JHS	
Health	8. Proportion of mothers who made at least 4 ANC visits	DHIMS 2
	9. Proportion of newborns/mothers receiving PNC within 48 hours of delivery	
	10. Proportion of children under 1 year fully immunised (Penta 3 as proxy)	
	11. Skilled attendant at delivery	
Nutrition	12. Exclusive breastfeeding rate among infants 0- 3 months	DHIMS 2
	13. Percentage of girls (10-19 years) screened for anaemia during the month	
	14. Vitamin A Coverage for children 6-59months	
	15. Early initiation of breastfeeding Rate	
	16. Percentage of pregnant women anaemic at registration	
	17. Proportion of children 0-59 months who are underweight	
	18. Proportion of children 0-59 months who are stunted	
Water	19. Proportion of population with access to safe drinking water sources	MMDAs 2021 APR
Sanitation	20. Proportion of population with access to improved sanitation services	
Energy	21. Percentage of communities covered by electricity	
Governance	22. Proportion of Annual Action Plan implemented	

2. Methodology

This section describes the methodology that was used to calculate the scores for the 2021 DLT. The section provides a step-by-step overview of the process for constructing the 2021 DLT, which included data collection, dealing with missing values or data non-availability, data transformation, assessment of the fit, and aggregation.

2.1 Data Cleaning, Standardization and Indicator Selection

The report adapted the appropriate steps of Stern et al. (2018) and Kapoor et al. (2017)¹ to estimate scores for ranking Metropolises, Municipalities, and Districts (MMDs), based on the selected indicators.

For some indicators, the coverage was not 100 percent for all MMDs. Some MMDs did not report the required information. The unavailable information or data of such MMDs were imputed by using averages of selected similar MMDs within a region if at least 80 percent of the MMDs have data on the indicator. Average of MMDs categories for each region were used for the imputation.

The indicators for the DLT were measured in different units and are incomparable. Indicators with relatively fewer variations but measured on larger scales compared to other variables may appear to have much greater variation than it does. Hence, the importance of standardisation to facilitate comparison. Standardisation helps in solving the problem by making indicators unitless as it rescales them with a mean of zero and standard deviation of one.

$$X_{new} = \frac{X - \mu}{\sigma}$$

Where μ and σ are population mean and

population standard deviation, respectively. X and X_{new} denote an original indicator and its standardised values, respectively.

Some indicators were measured such that social and economic progress were indicated by reduction in values. For those indicators, the values were inverted to make sure that improvement was denoted by an increase. For example, percentage of children suffering from stunting were recomputed to become percentage of children not suffering from stunting so that improvement was seen through upward movement in the values of the indicator.

Indicators set within a sector were expected to capture the development concept in the best possible manner. Thus, the indicator selection process involved the inclusion of only the indicators that were conceptually linked to each other and effectively described the concept of the sector's development. Indicators that did not meet the criteria were excluded from the analysis. The assessment of multiple aspects of fit between indicators and the resultant scores were critical in producing the DLT Index for comparison and ranking. In this regard, a series of fitness tests were conducted in the calculation of the index. First, there was a need to understand the relationship between indicators and the concept of development in the sector. The exploratory factor analysis (EFA) was used to test the underlying factors among the set of selected indicators for each sector. This helped with identifying relevant indicators for a sector. Second, the Kaiser-Meyer-Olkin (KMO) measure of sampling adequacy (MSA) was used to evaluate the goodness of fit of the factor analysis. The MSA was a single value that was used to assess the adequacy of the inter-correlations of a set of variables, and each variable for an EFA. The KMO index ranges from 0 to 1, as a rule of thumb, KMO scores should be above 0.5 (Williams et al.,

¹ See Stern et al., 2018 – for Social Progress Index: <https://ndlink.org/wp-content/uploads/2018/09/2018-Social-Progress-Index-Methodology.pdf>; Kapoor et al., 2017 – for Social Progress Index: States of India: https://socialprogress.in/wp-content/uploads/2017/10/SPI_2017_Methodology.pdf

2010). The indicators that were statistically incompatible were removed at the end of the EFA process.

2.2 Calculation of Sectoral Index Scores for Each District

The DLT index used the Principal Component Analysis (PCA) for calculating the weights of indicators within a sector. Scoring coefficients were used as weight of the indicators in the construction of the sectoral score. Thus, instead of using equal weight for each indicator, factor analysis used the correlation among indicators and between the unobserved factors to generate weight for each indicator. The sectoral sum values were calculated by summing the weighted values using the following formula:

$$Sector_sum_j = \sum weight_{ij} * indicator_{ij}$$

where i is for each indicator, and j is for each district.

The computed sums in each sector was then transformed into values ranging from a scale of 0 to 100, for ease of comparison across MMDs. These rescaled sectoral scores were calculated by dividing the difference between sectoral sum score for each MMDs and the lowest sum score among MMDs, with the difference between the highest

and lowest sum scores. The formula below was used for the transformation:

$$Sector\ transformed_j = \frac{Sector\ sum_j - Worst\ Value}{Best\ Value - Worst\ Value} \times 100$$

where *Best Value* represents the highest sectoral sum score and *Worst Value* represents the lowest sectoral sum score among districts.

2.3 Derivation of DLT Index Score for Each District

The seven sectors—education, health, nutrition, water, sanitation, energy and governance—that were used to compute the overall DLT index for each Metropolis, Municipality and District (MMD), equally reflect important aspects of the development progress. Therefore, while calculating the index, no priority was given to any sector. Equal weights were assigned to each of them to highlight their role in development. The DLT Index Score for each MMD was derived by averaging sectoral transformed scores of the district.

$$DLT_j = 1/7 \sum_i Sector_transformed_j$$

where DLT_j is the DLT index for each MMDs

3. Sector Analysis

The results of the 2021 DLT are presented in the following sectoral analysis, maps and tables with scores and ranking distributions among Metropolis, Municipalities, and Districts (MMDs). The sectors covered are: education; health; nutrition; water; sanitation; governance, and energy. Factor scores for sectors with more than one indicator or standardised scores in the case of one indicator are reported. The computed factor scores of all MMDs in Ghana are used to compute groups of MMDs in five categories based on percentage scores. Specifically, MMDs were grouped into 0-20 percent, 21-40 percent, 41-60 percent, 61-80 percent and 81-100 percent. Each map shows the distribution of MMDs rankings according to these scores. The top and least performing MMDs are presented and analysed with tables. The entire scores and rankings of all the MMDs in all the seven sectors are reported in Annex I of this report.

3.1 Education

Indicators used to measure the progress in the education sector include gross access rate to kindergartens; final exam pass rate at BECE; net enrolment rates at KG, primary and JHS; and completion rates at primary and JHS.

3.1.1 District Analysis

Table 2 presents the top 10 MMDs in education. Seven out of the top 10 are municipalities. None of the six metropolises appeared in the top 10. The top 10 MMDs in the educational sector are concentrated in three regions—Greater Accra, Central and Ashanti. Five out of the 10 top MMDs are in the Greater Accra Region, with Ashanti and Central regions accounting for three and two MMDs in the top 10. Ga West Municipality maintained its 2020 position as the best performing MMD in the education sector.

Table 2: Top 10 MMDs in Education Sector

Name	Region	Description	Score	Ranking
Ga West Municipality	Greater Accra	Municipal	90.16	1
Awutu Senya East Municipality	Central	Municipal	86.53	2
Kpone-Katamanso Municipality	Greater Accra	Municipal	84.64	3
Ablekuma West Municipality	Greater Accra	Municipal	81.28	4
Adentan Municipality	Greater Accra	Municipal	78.98	5
Gomoa East District	Central	District	71.24	6
Atwima Kwanwoma District	Ashanti	District	63.01	7
Kwabre East Municipality	Ashanti	Municipal	59.16	8
Atwima Nwabiagya North District	Ashanti	District	59.00	9
Ga Central Municipality	Greater Accra	Municipal	53.74	10

Table 3 presents the 10 lowest ranked MMDs in education. The lowest ranked is Ayawaso North Municipality in the Greater Accra Region—located in the centre of the capital city, Accra. Ayawaso North Municipality was also the lowest ranked MMD in education in 2020, an indication that there are important structural and persistent problems that are

needed to be diagnosed through research and uprooted with specific policies targeted to the people in the municipality. The net enrolment ratios for both primary and JHS for Ayawaso North Municipality were as low as 47.4 percent and 23.7 percent, compared to the country's average of 105.8 percent and 51.3 percent, respectively. Also, the

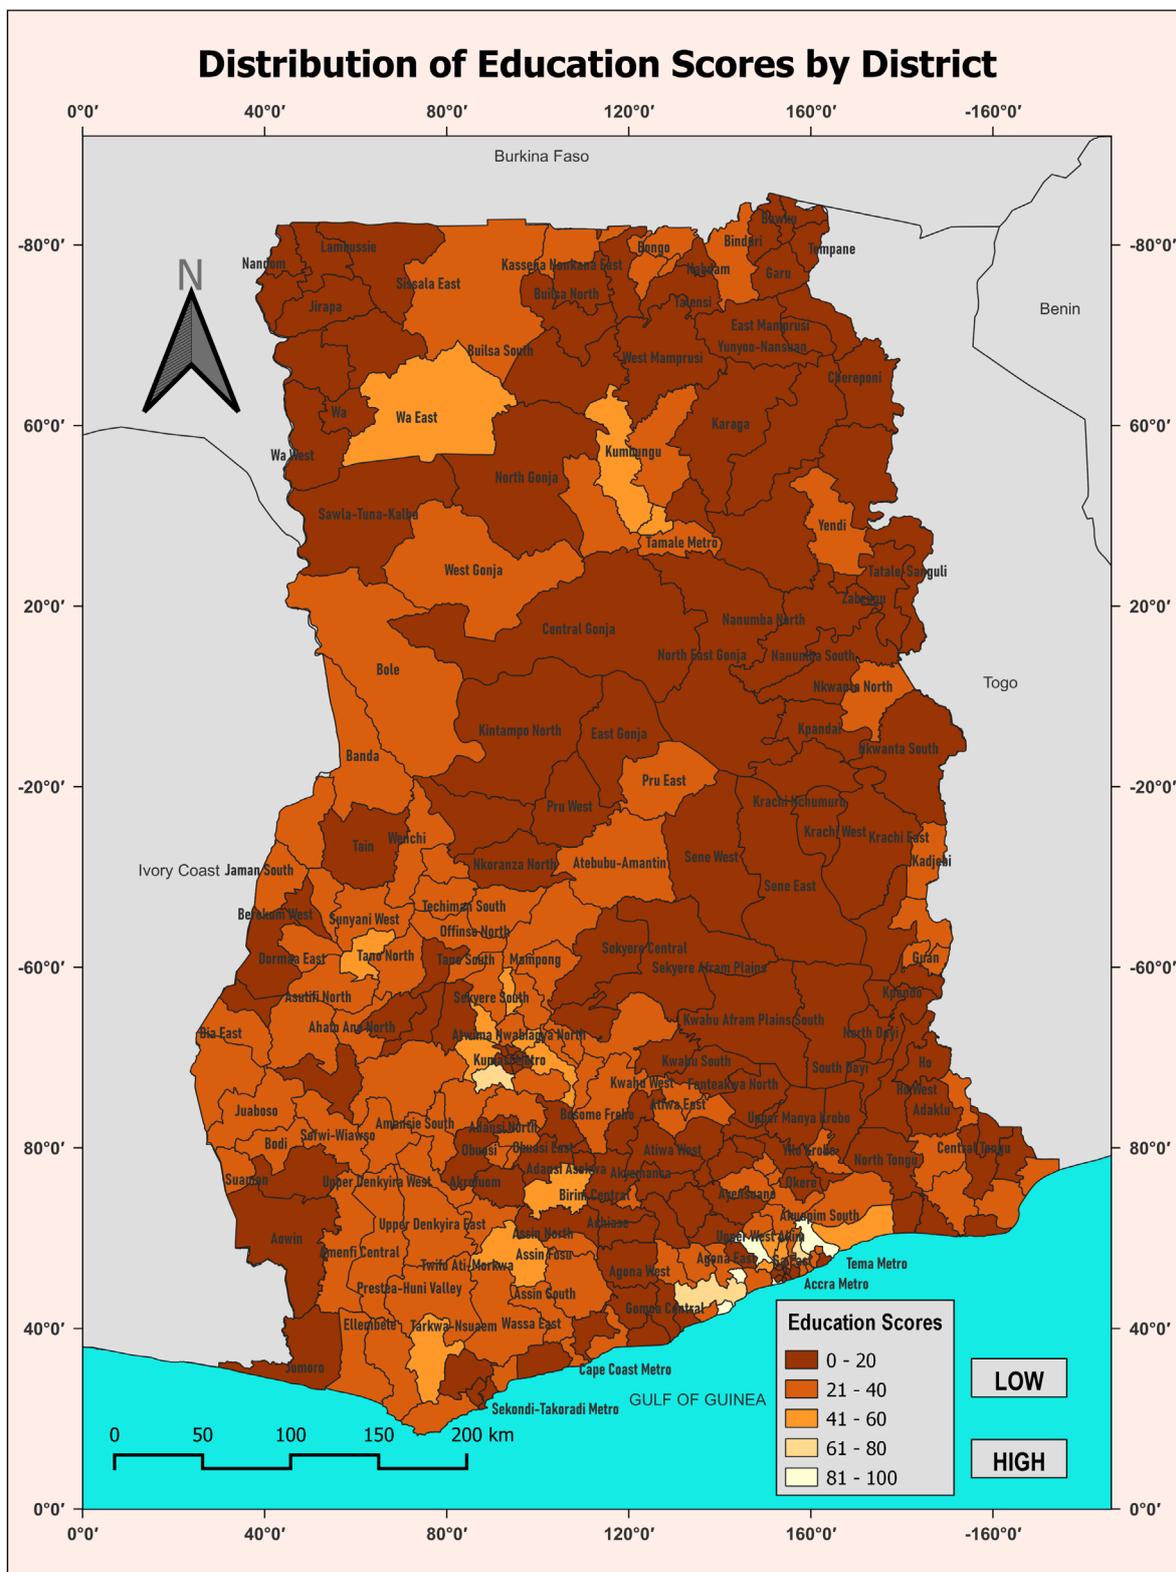

completion rates for primary and JHS in the municipality were 31.7 percent and 26.1 percent, compared to the average of 115.9 percent and 86.4 percent in the country.

Table 3: 10 Least Scoring MMDs in Education Sector

Name	Region	Description	Score	Ranking
Jirapa Municipality	Upper West	Municipal	7.69	252
Sawla-Tuna-Kalba District	Savannah	District	7.49	253
Hohoe Municipality	Volta	Municipal	7.29	254
Ablekuma Central Municipality	Greater Accra	Municipal	7.24	255
Korle-Klottey Municipality	Greater Accra	Municipal	7.09	256
Kwadaso Municipality	Ashanti	Municipal	6.72	257
Akrofuom District	Ashanti	District	5.47	258
Kwahu Afram Plains South District	Eastern	District	4.82	259
Kwahu Afram Plains North District	Eastern	District	4.00	260
Ayawaso North Municipality	Greater Accra	Municipal	3.52	261

Map 1 also indicates that 4 MMDs obtained scores greater than 80 percent and these MMDs are concentrated in the Greater Accra Region. However, most of the MMDs among the low scores of less than 20 percent are in the Savannah, Upper East, Bono East, and Volta regions.

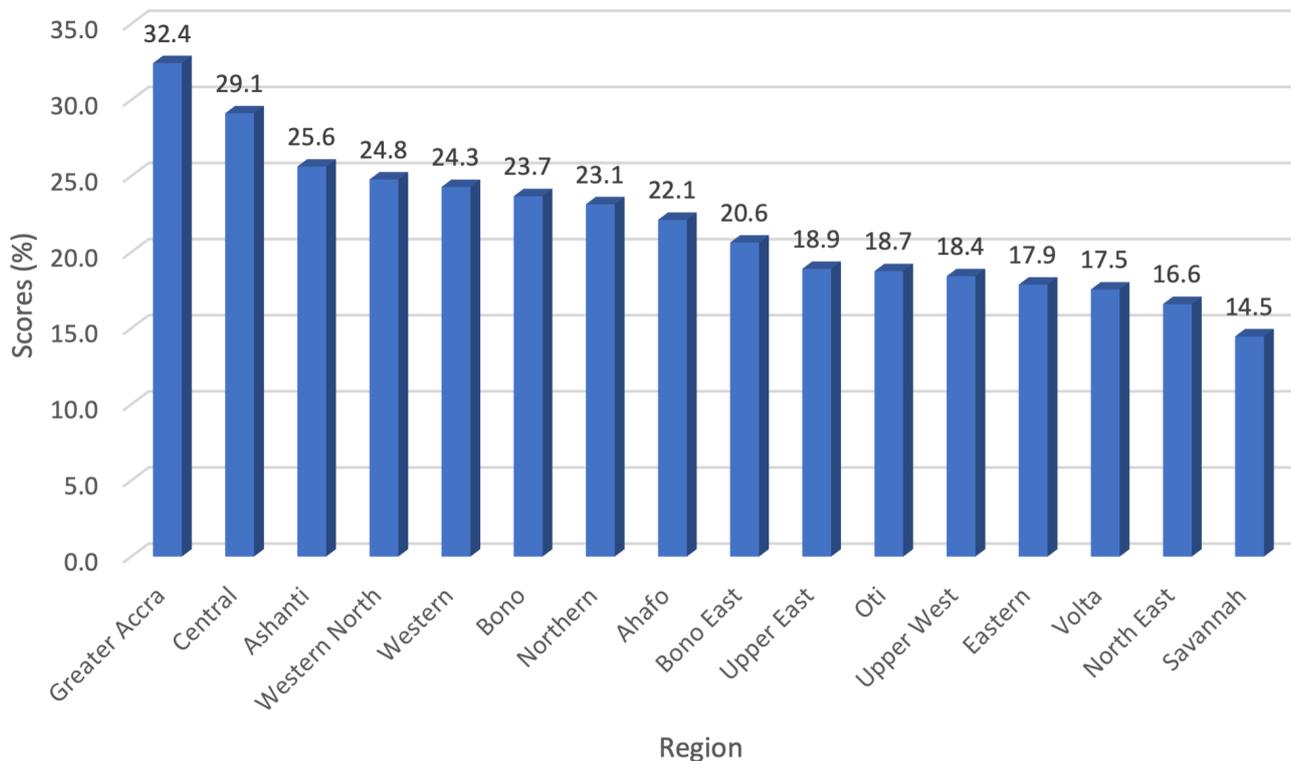

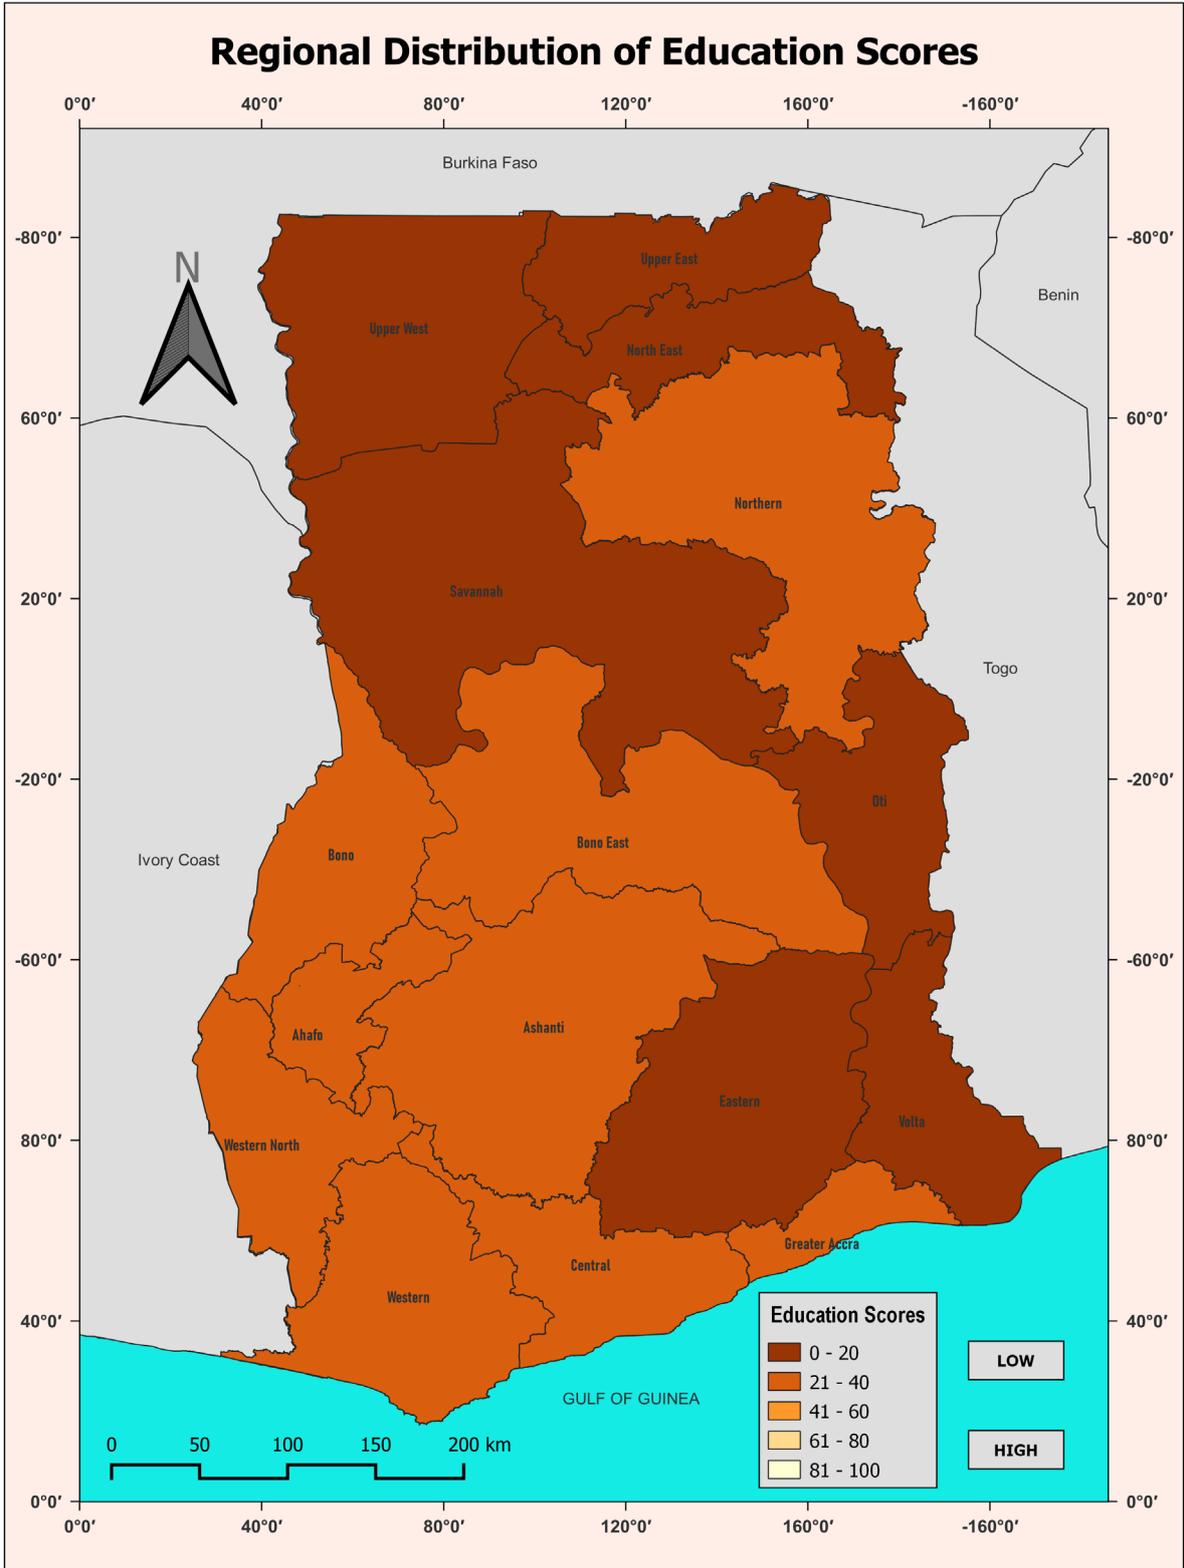

Map 1: Distribution of Education Scores by District

3.1.2 Regional Analysis

As shown in Figure 1 and Map 2, the top ranked regions in the education sector were Greater Accra, Central, Ashanti and Western North, with the lowest ranked regions being Savannah, North East, Volta and Eastern. The Savannah Region maintained its 2020 position, as the least ranked region, with a further drop in index performance (from 15.5% in 2020 to 14.5% in 2021). Figure 1 and Map 2 also indicate that regional scores were very low as no region scored greater than 40 percent.

Figure 1: Education Performance by Region

Map 2: Regional Distribution of Education Scores

3.2 Health

The following indicators were used to measure the performance of all MMDs in the health sector:

- Proportion of mothers who made at least four ANC visits
- Proportion of newborns/mothers receiving PNC within 48 hours of delivery
- Proportion of children under one year fully immunised (Penta 3 as proxy)
- Skilled attendant at delivery

3.2.1 District Analysis

Table 4 presents the top 10 ranked MMDs in the health sector. The top 10 ranked MMDs in the health sector are spread across six

out of the 16 regions. Four out of the top 10 MMDs are located in the Greater Accra Region. Three out of the 10 were districts, five were municipalities and two were metropolises. Ahafo and North East, newly created regions, had a district each in the top ten. Ayawaso North Municipality, which ranked lowest in education performance, is among the top 10 high performing MMDs in healthcare. All top 10 MMDs in 2020 were missing from the top 10 of 2021, raising major concerns about reasons for the drop. Further analysis is required to identify the causal factors for the drop, especially given that similar indicators were assessed in 2021.

Table 4: Top 10 MMDs in the Health Sector

Name	Region	Description	Score	Ranking
Asutifi South District	Ahafo	District	100.00	1
Ayawaso East District	Greater Accra	District	100.00	1
Ayawaso North Municipality	Greater Accra	Municipal	100.00	1
Birim Central Municipality	Eastern	Municipal	100.00	1
Chereponi District	North East	District	100.00	1
Korle-Klottey Municipality	Greater Accra	Municipal	100.00	1
Tema Metropolis	Greater Accra	Metropolitan	100.00	1
Kumasi Metropolis	Ashanti	Metropolitan	99.73	8
Obuasi East District	Ashanti	District	98.78	9
Bawku Municipality	Upper East	Municipal	98.46	10

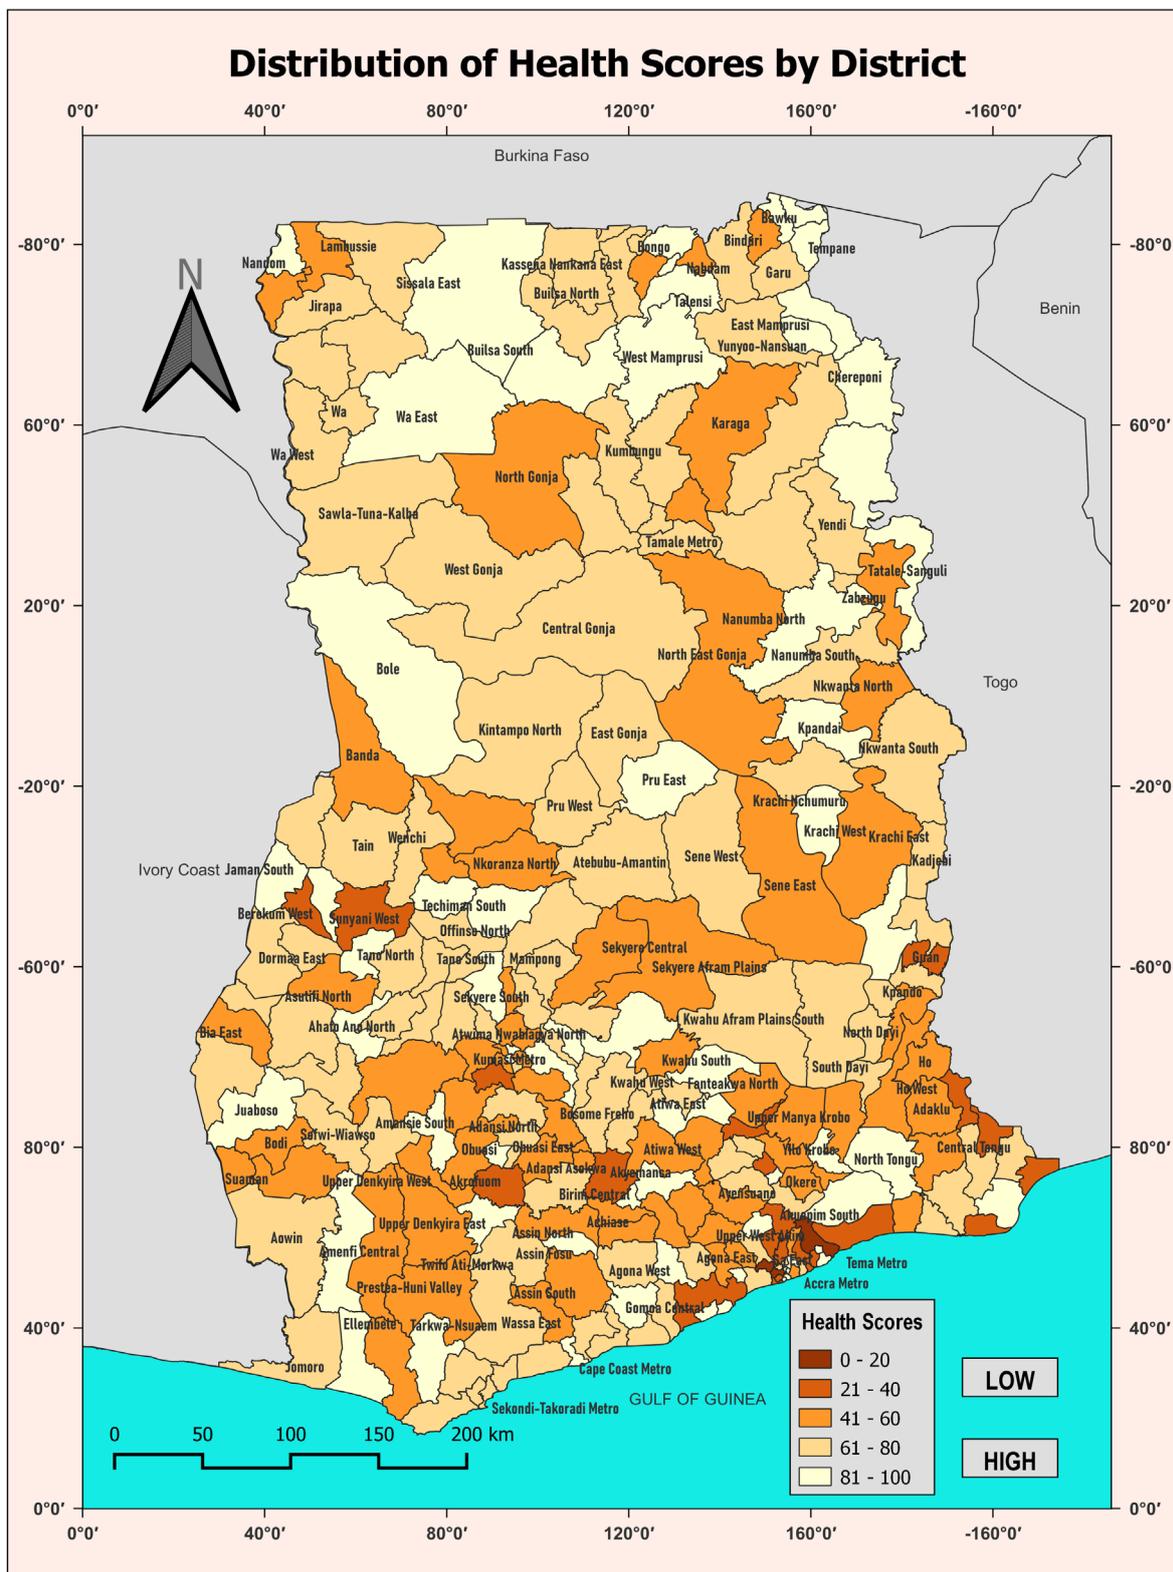

The least-ranked MMDs in the health sector are presented in Table 5. Seven out of the 10 MMDs are municipalities, with the remaining three with the status of district. Seven out of the least 10 are in the Greater Accra Region. The least-ranked MMDs in the health sector is Ga Central Municipality, also located in Greater Accra Region. The municipality, for instance,

recorded skilled delivery attendance of 10.1 percent, compared to the average of 66.1 percent for the country. No MMDs in the five northern regions was among the least 10 ranked MMDs in the health sector. The large number of MMDs in the Greater Accra Region in both the top 10 and the last 10 is an indication of inequality in access to healthcare across the region.

Table 5: 10 MMDs with the Least Scores in the Health Sector

Name	Region	Description	Score	Ranking
Ningo-Prampram District	Greater Accra	District	28.52	252
Adentan Municipality	Greater Accra	Municipal	27.38	253
Akuapim South Municipality	Eastern	Municipal	27.00	254
Ablekuma Central Municipality	Greater Accra	Municipal	24.60	255
Akrofuom District	Ashanti	District	22.71	256
Ablekuma West Municipality	Greater Accra	Municipal	22.02	257
Guan District	Oti	District	20.68	258
Ablekuma North Municipality	Greater Accra	Municipal	20.46	259
Kpone-Katamanso Municipality	Greater Accra	Municipal	19.23	260
Ga Central Municipality	Greater Accra	Municipal	7.47	261

Map 3 indicates that Greater Accra and Ashanti regions have the highest number of MMDs that recorded scores of more than 80 percent. The majority (74.1%) of the low ranked MMDs that scored below 40 percent are in the Greater Accra, Eastern and Volta regions.

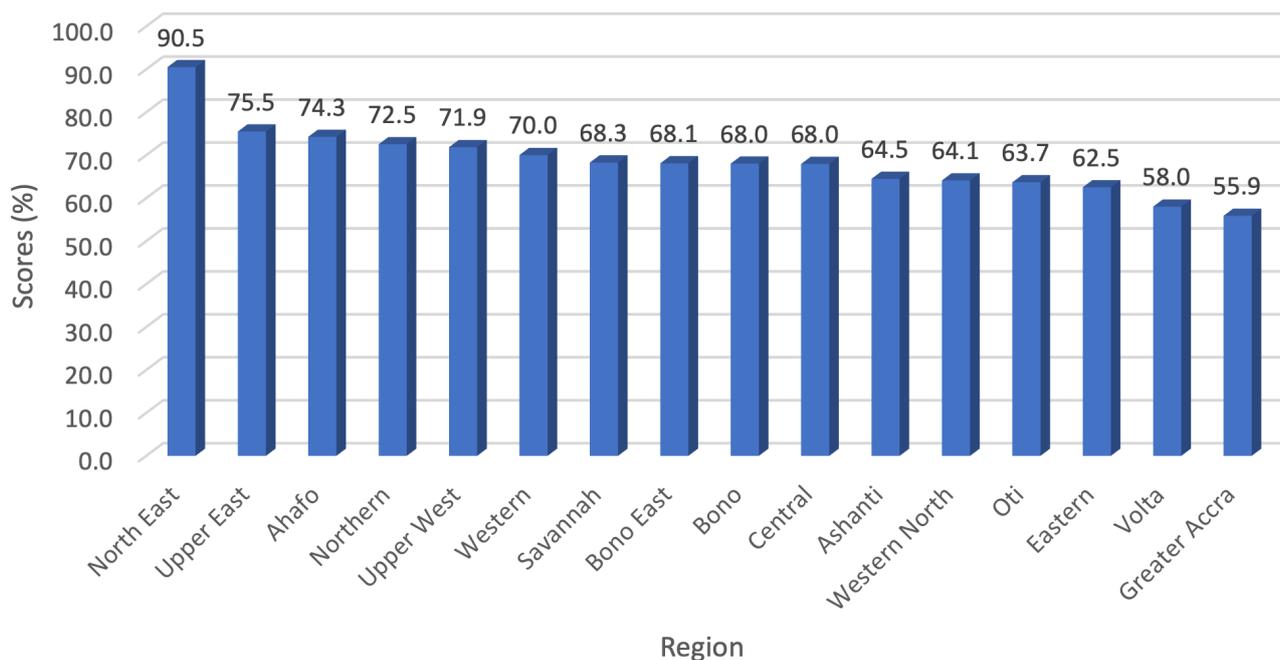

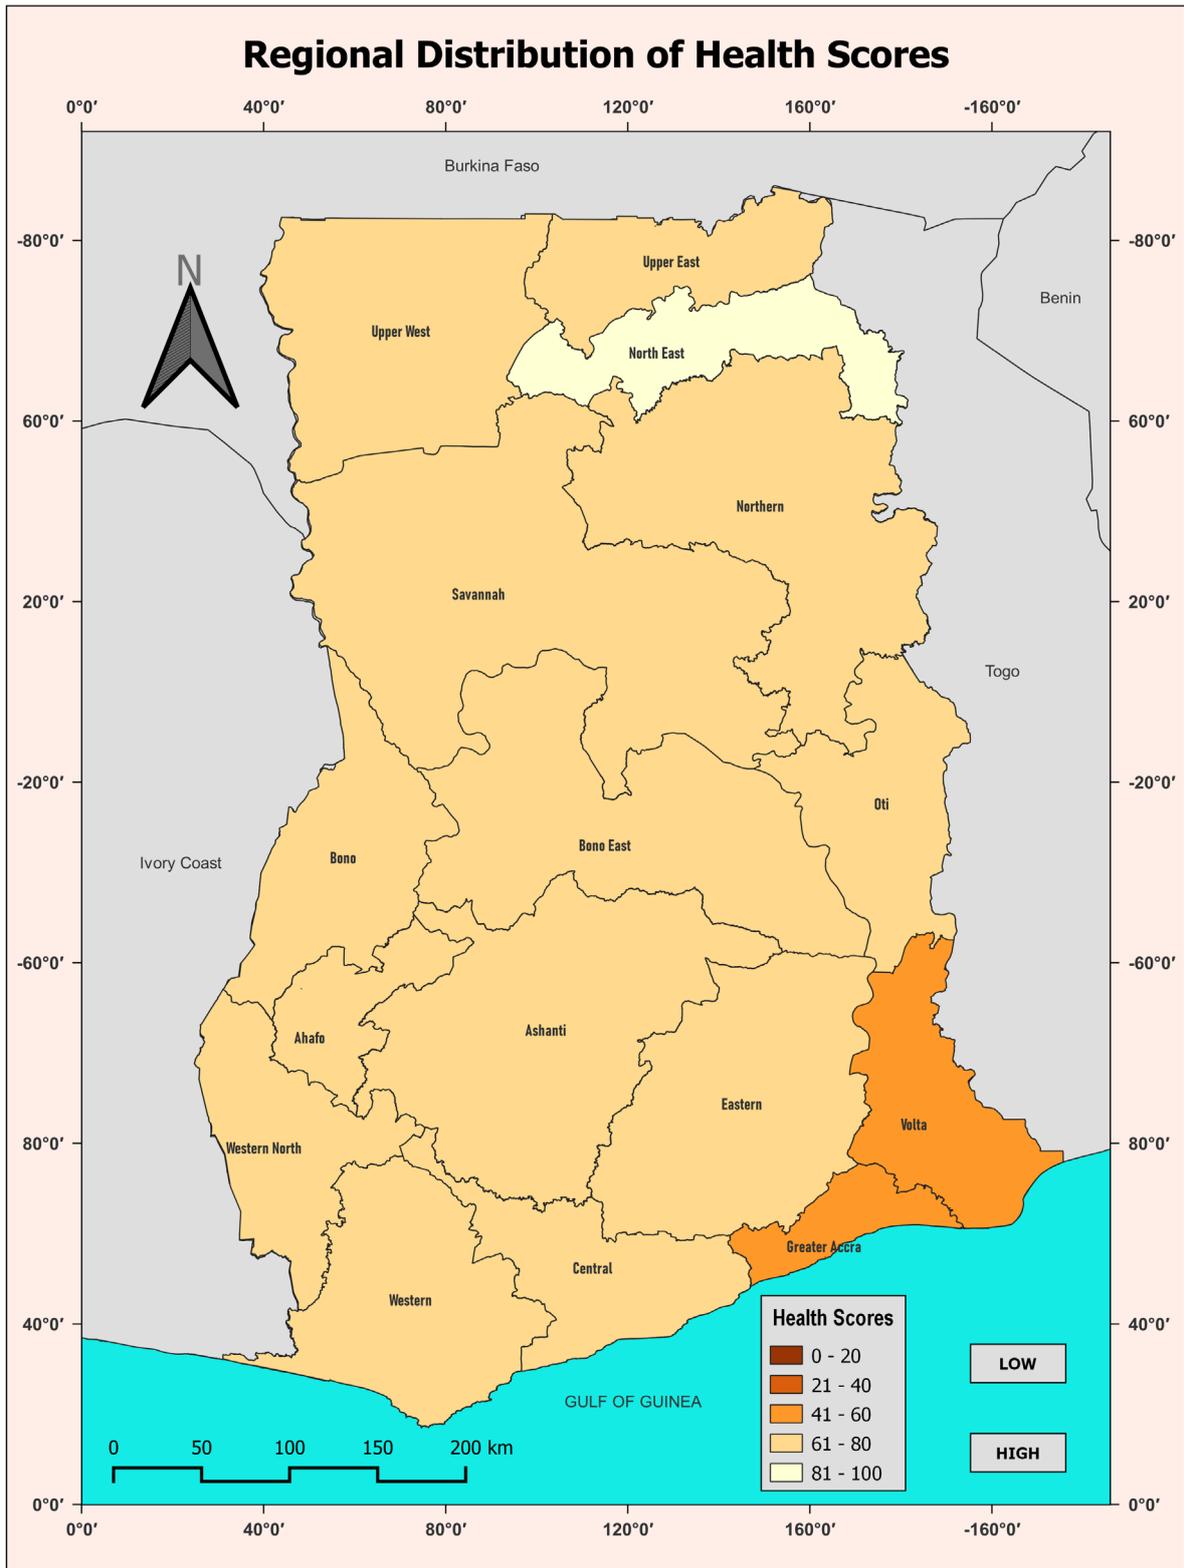

Map 3: Distribution of Health Scores by District

3.2.2 Regional Analysis

Figure 2 and Map 4 indicate that the highest ranked regions are North East, Upper East, Ahafo, Northern and Upper West, suggesting that citizens located in these regions are benefiting from antenatal care, immunisation and services being delivered by healthcare professionals. The least ranked regions in health include Greater Accra, Volta, Eastern, Oti and Western North. The North East Region improved its 2020 position from 2nd to 1st in 2021.

Figure 2: Health Performance by Region

Map 4: Regional Distribution of Health Scores

3.3 Nutrition

Meeting the nutritional needs for children is an important measure of progress of wellbeing or development. The following indicators were used to compute an index to measure the performance in the nutrition sector:

1. Exclusive breastfeeding rate among infants 0-3 months
2. Percentage of girls (10-19 years) screened for anemia during the month
3. Vitamin A coverage for children 6-59 months
4. Early initiation of breastfeeding rate
5. Percentage of pregnant women anemic at registration
6. Proportion of children 0-59 months who are underweight
7. Proportion of children 0-59 months who are stunted

The last three indicators—percentage of pregnant women anaemic at registration, proportion of children 0-59 months who are underweight, and proportion of children 0-59 months who are stunted—were inverted to the following descriptions: percentage of pregnant women NOT anaemic at registration, proportion of children 0-59 months who are NOT underweight, and proportion of children 0-59 months NOT stunted.

3.3.1 District Analysis

Table 6 presents the top 10 ranked MMDs in the nutrition sector. The top 10 MMDs in the nutrition sector performance are spread across eight regions. Five out of the top 10 in the nutrition sector are in the district category, with the remaining from municipalities. Okere District in the Eastern Region is the top-ranked MMD in this sector. There were districts from two newly created regions in the top 10.

Table 6: Top 10 MMDs in the Nutrition Sector

Name	Region	Description	Score	District Ranking
Okere District	Eastern	District	100.00	1
Techiman North District	Bono East	District	98.94	2
Effia-Kwesimintsim Municipality	Western	Municipal	98.91	3
Sissala East Municipality	Upper West	Municipal	98.77	4
Ekumfi District	Central	District	98.10	5
Atiwa West District	Eastern	District	98.09	6
Wassa Amenfi West Municipality	Western	Municipal	97.95	7
Biakoye Nkonya District	Oti	District	97.89	8
Nanumba North Municipality	Northern	Municipal	97.83	9
Jaman South Municipality	Bono	Municipal	97.81	10

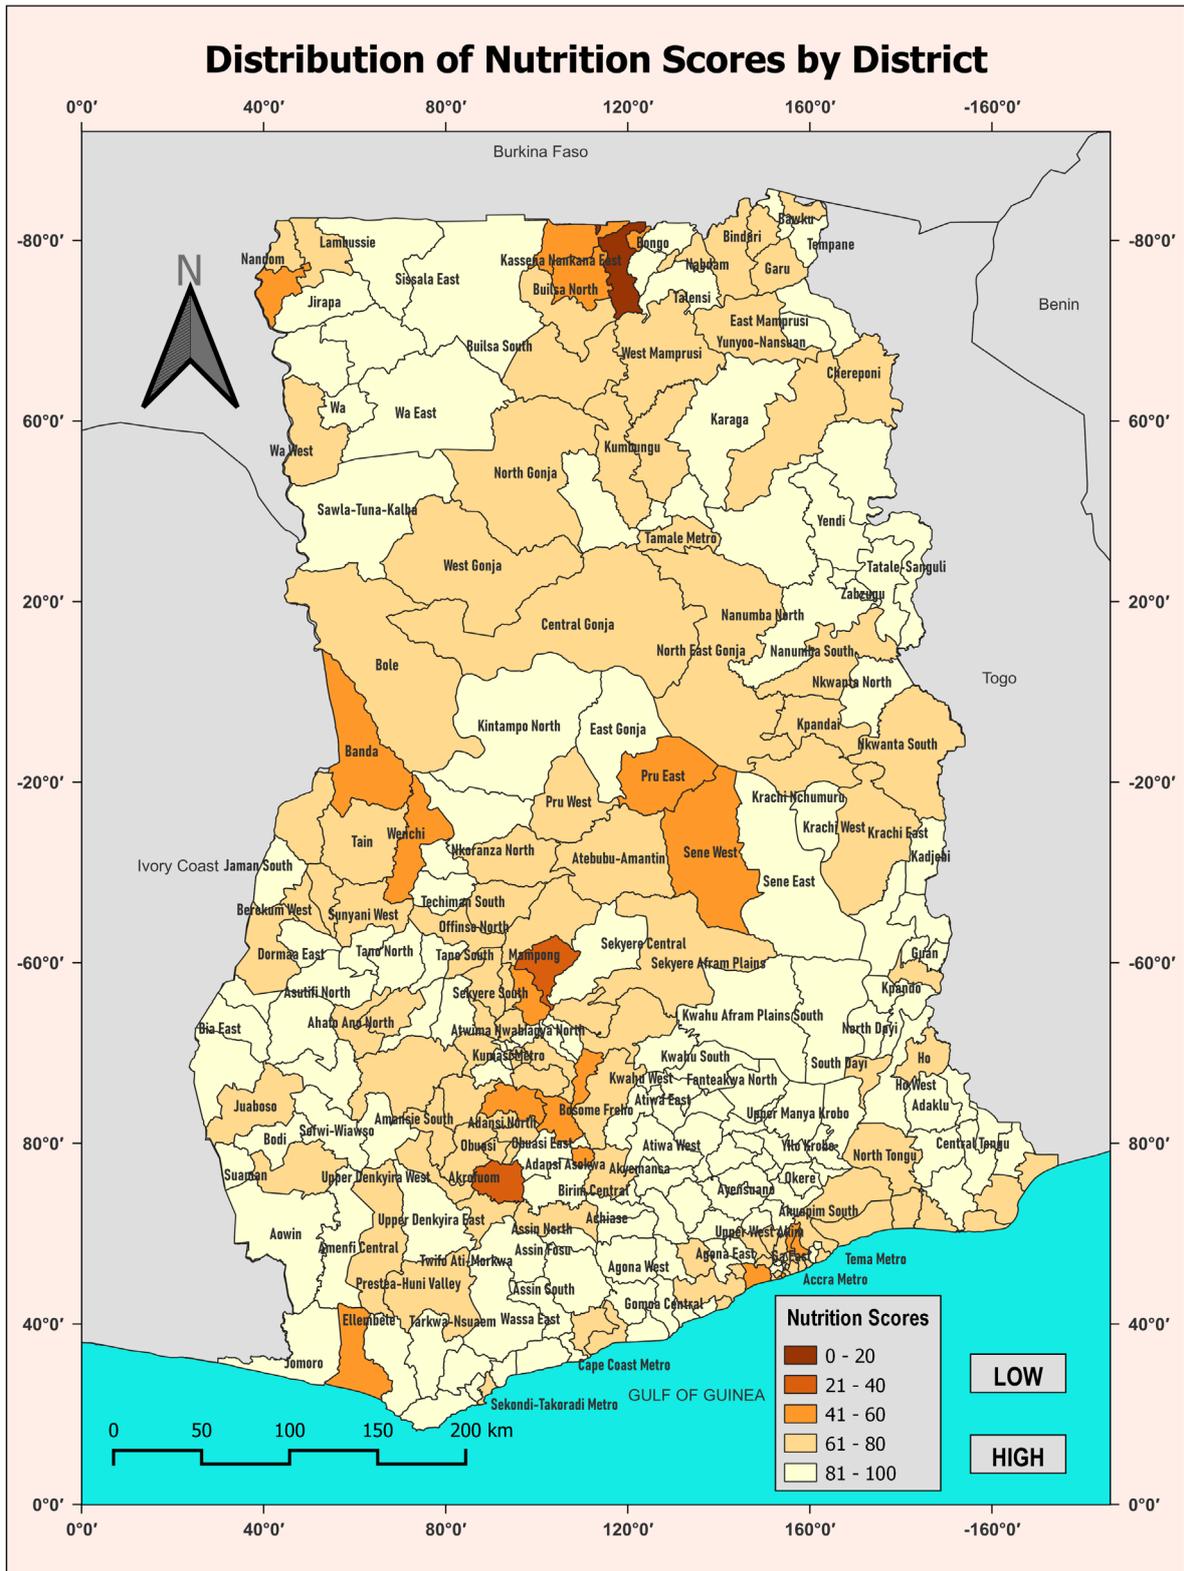

Table 7 presents results of sector scores and ranking of the least performing MMDs in the nutrition sector. Kassena Nankana Municipality in the Upper East Region, is the lowest ranked MMD in the nutrition sector. Ashanti Region had the most MMDs in the least ten, followed by Greater Accra and Upper East regions.

Table 7: Lowest Scoring 10 MMDs in the Nutrition Sector

Name	Region	Description	Score	District Ranking
Lawra Municipality	Upper West	Municipal	53.92	252
La Nkwantanang-Madina Municipality	Greater Accra	Municipal	53.07	253
Kassena Nankana West District	Upper East	District	52.90	254
Accra Metropolis	Greater Accra	Metropolitan	51.98	255
Sene West District	Bono East	District	51.71	256

Name	Region	Description	Score	District Ranking
Banda District	Bono	District	47.94	257
Asante Akim Central Municipality	Ashanti	Municipal	44.07	258
Akrofuom District	Ashanti	District	29.55	259
Mampong Municipality	Ashanti	Municipal	22.36	260
Kassena Nankana Municipality	Upper East	Municipal	7.82	261

Map 5 shows that MMDs ranked among the top 20 percent were distributed across the country. All municipalities and districts (MDs) with the exception of Akyemansa District in the Eastern Region were in the top 20 percent. This provides an indication that there could be some innovative strategies been implemented, which can be learned from by all other regions. Upper East Region was the only region with MMDs in the least 20 percent.

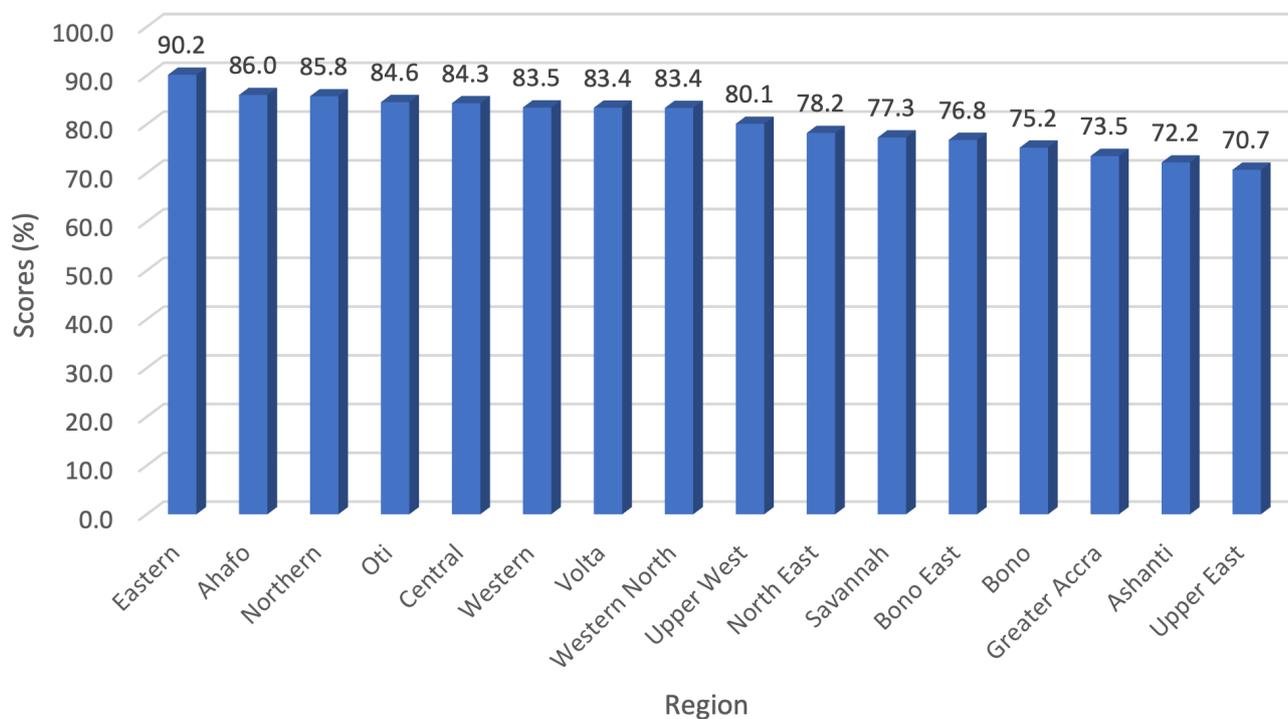

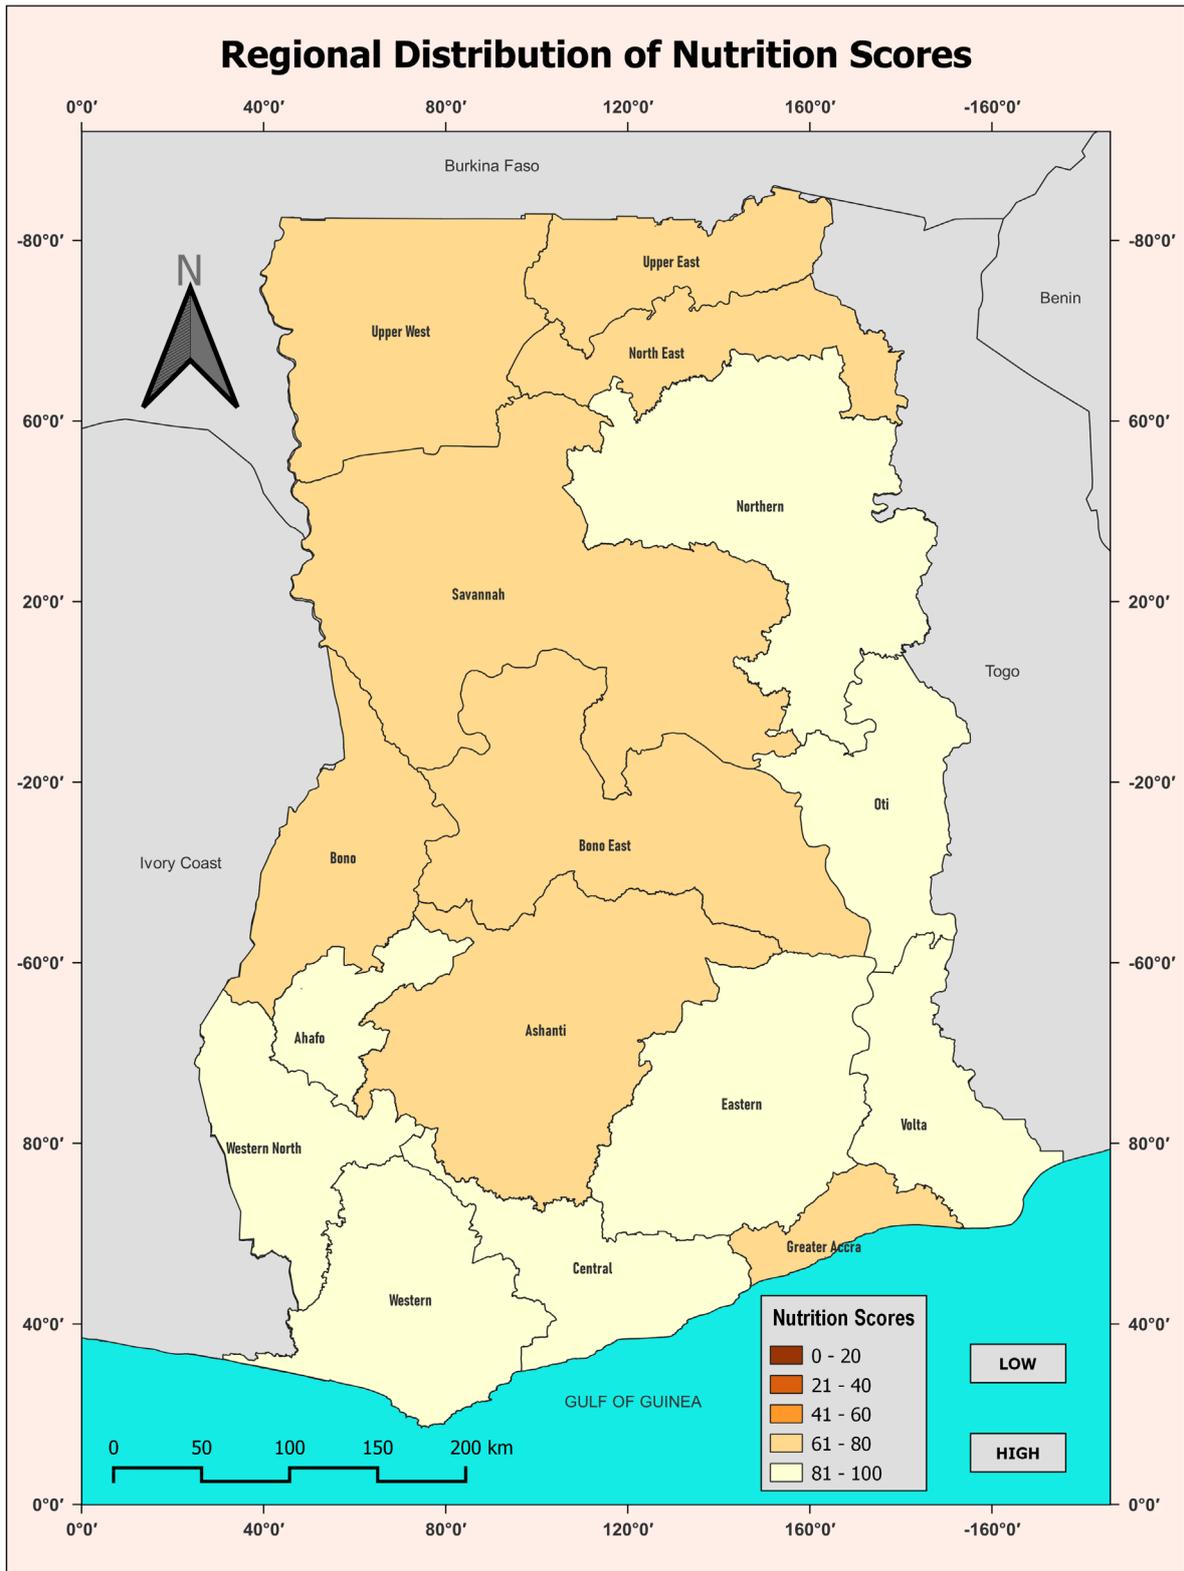

Map 5: Distribution of Nutrition Scores by District

3.3.2 Regional Analysis

Figure 3 and Map 6 present regional analysis of MMDs performance in the nutrition sector. The figure shows that nine out of 16 regions recorded scores higher than 80 percent. The least ranked region is Upper East.

Figure 3: Nutrition Performance by Region

Map 6: Regional Distribution of Nutrition Scores

3.4 Water

Provision and availability of clean water for household consumption is an important measure of progress of wellbeing or development. The developments in access to water is measured in this report using the proportion of population with access to safe drinking water sources.

3.4.1 District Analysis

Table 8 presents the top 12 ranked MMDs in the water sector. All the top 12 MMDs have 100 percent access to safe drinking water sources. Nine out of the top 12 ranked MMDs in water provisions are in the Greater Accra Region, with the remaining in the Central (2) and Ashanti (1) regions. All the top 12 ranked MMDs in the water sector are municipalities and Metropolises, which are predominantly urban in nature.

Table 8: Top 12 MMDs in the Water Sector

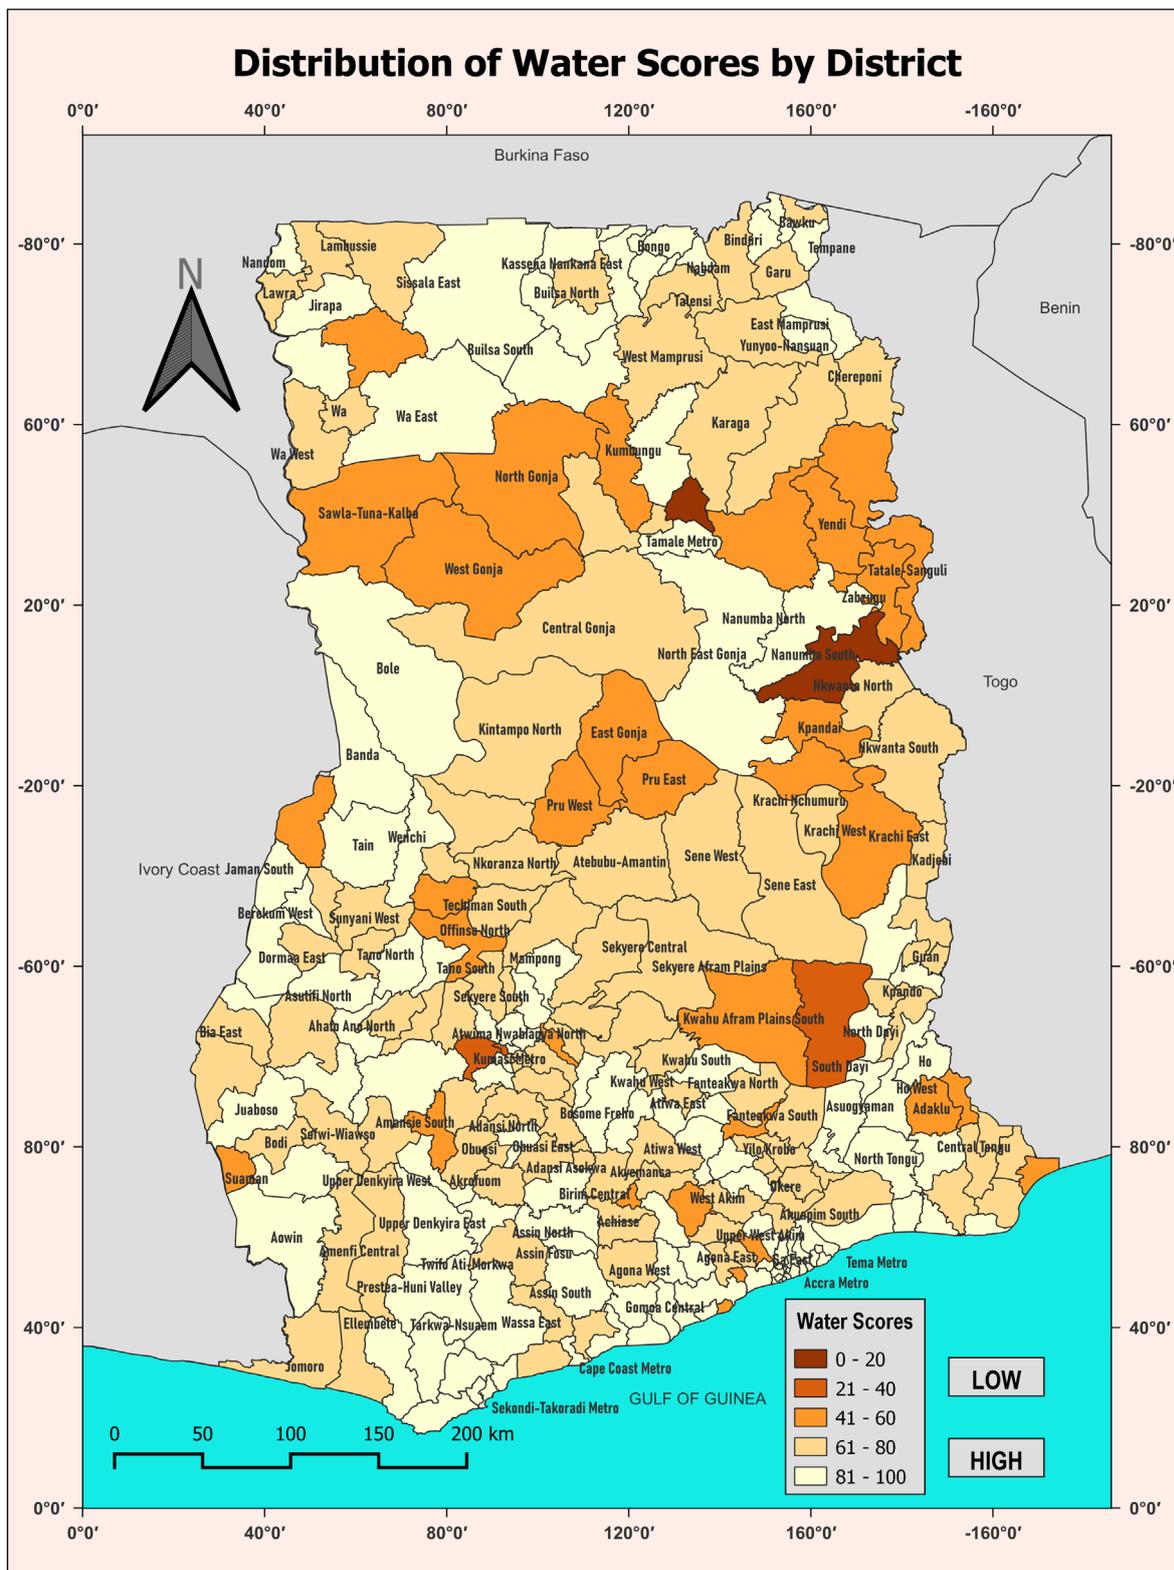

Name	Region	Description	Score	Ranking
Ablekuma North Municipality	Greater Accra	Municipal	100.00	1
Ablekuma West Municipality	Greater Accra	Municipal	100.00	1
Accra Metropolis	Greater Accra	Metropolitan	100.00	1
Ayawaso Central Municipality	Greater Accra	Municipal	100.00	1
Cape Coast Metropolis	Central	Metropolitan	100.00	1
Effutu Municipality	Central	Municipal	100.00	1
Ga North Municipality	Greater Accra	Municipal	100.00	1
Korle-Klottey Municipality	Greater Accra	Municipal	100.00	1
Kpone-Katamanso Municipality	Greater Accra	Municipal	100.00	1
Krowor Municipality	Greater Accra	Municipal	100.00	1
La Dade-Kotopon Municipality	Greater Accra	Municipal	100.00	1
Mampong Municipality	Ashanti	Municipal	100.00	1

Table 9 presents results of the sector scores and rankings of the least performing MMDs. Nine out of the 10 least ranked are districts, with seven located in the Northern Region. Suame Municipality in the centre of Kumasi is the only municipality in the last 10 with only 28 percent of the population having access to safe drinking water sources. Nanton District, in the Northern Region, is the lowest ranked MMD in the water sector with only 1.11 percent of inhabitants having access to safe drinking water sources.

Table 9: Lowest Scoring 10 MMDs in the Water Sector

Name	Region	Description	Score	Ranking
Tatale-Sanguli District	Northern	District	41.22	252
Saboba District	Northern	District	41.22	252
Kumbungu District	Northern	District	41.22	252
Zabzugu District	Northern	District	41.22	252
Mion District	Northern	District	41.22	252
Kwahu Afram Plains North District	Eastern	District	40.00	257
Atwima Nwabiagya North District	Ashanti	District	40.00	257
Suame Municipality	Ashanti	Municipal	28.00	259
Nanumba South District	Northern	District	5.00	260
Nanton District	Northern	District	1.11	261

Map 7 presents interval scores of water provision for all MMDs in Ghana. The Map indicates that 122 MMDs spread around the country performed well with access greater than 80 percent. Only two districts – Nanumba South and Nanton, both located in the Northern Region recorded very low access to water of less than 20 percent.

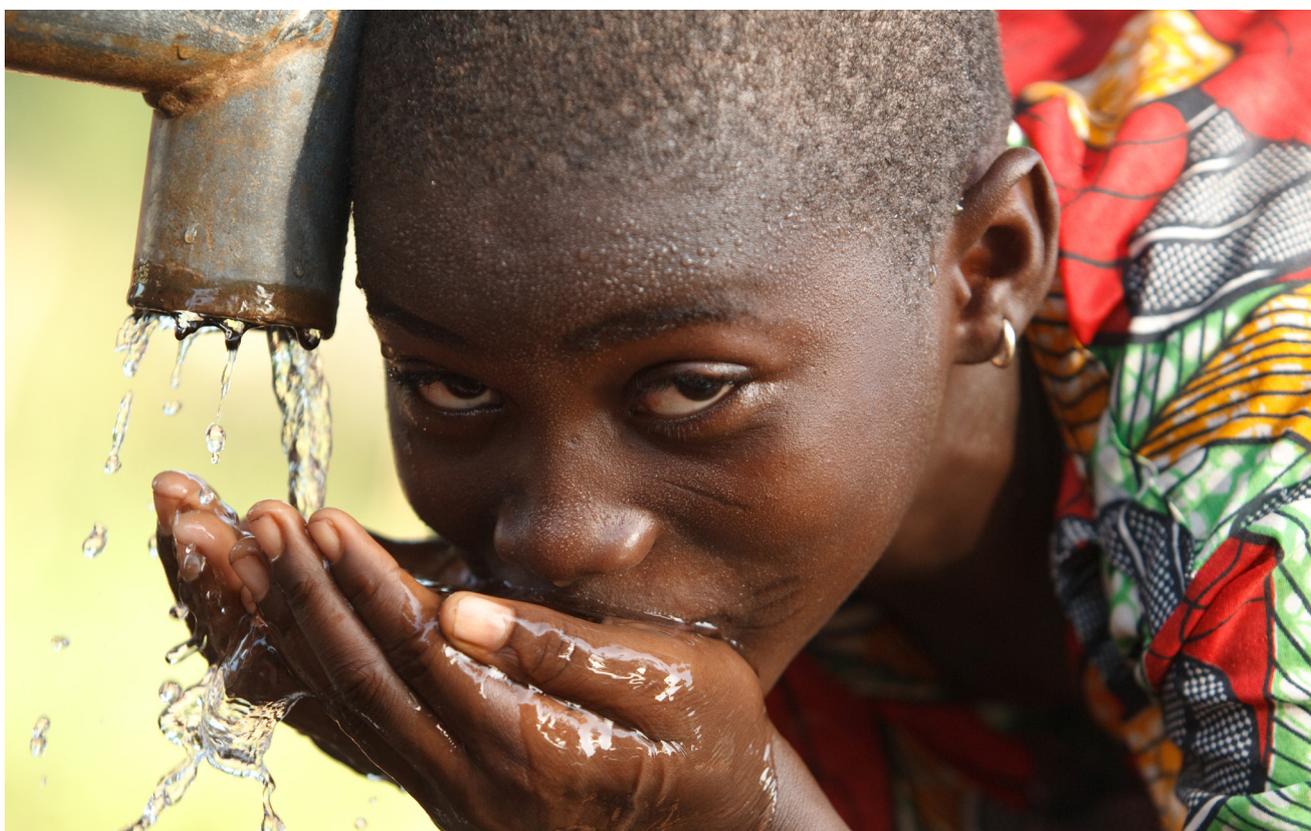

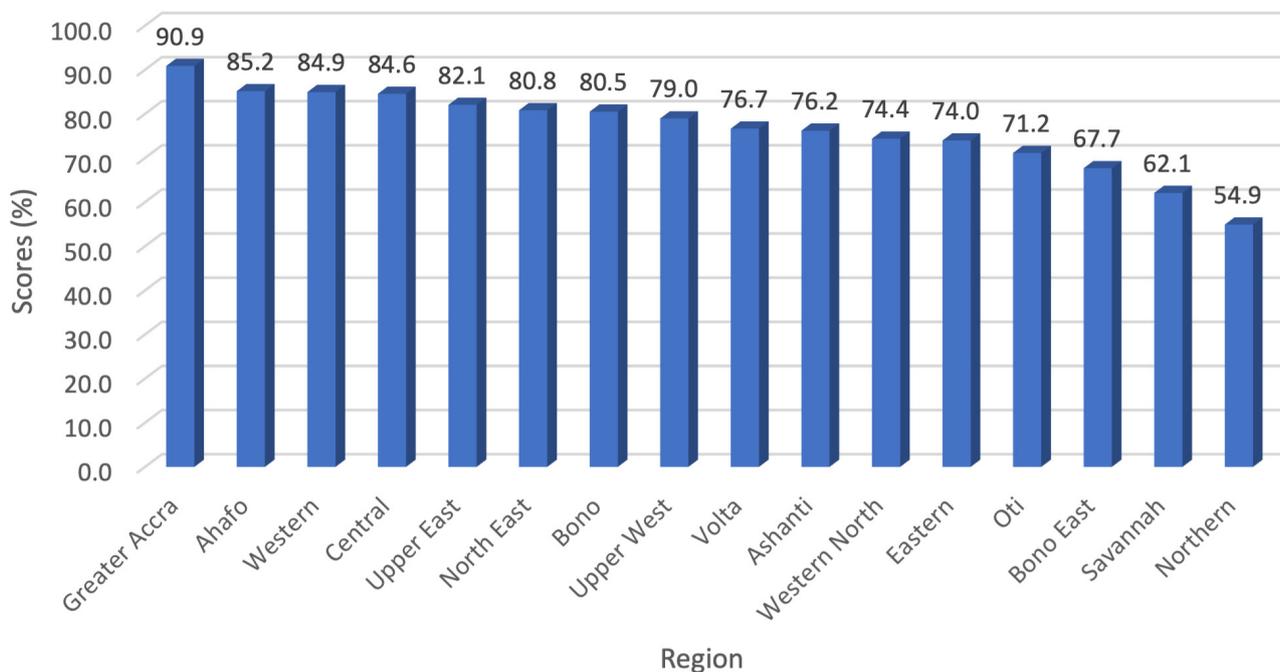

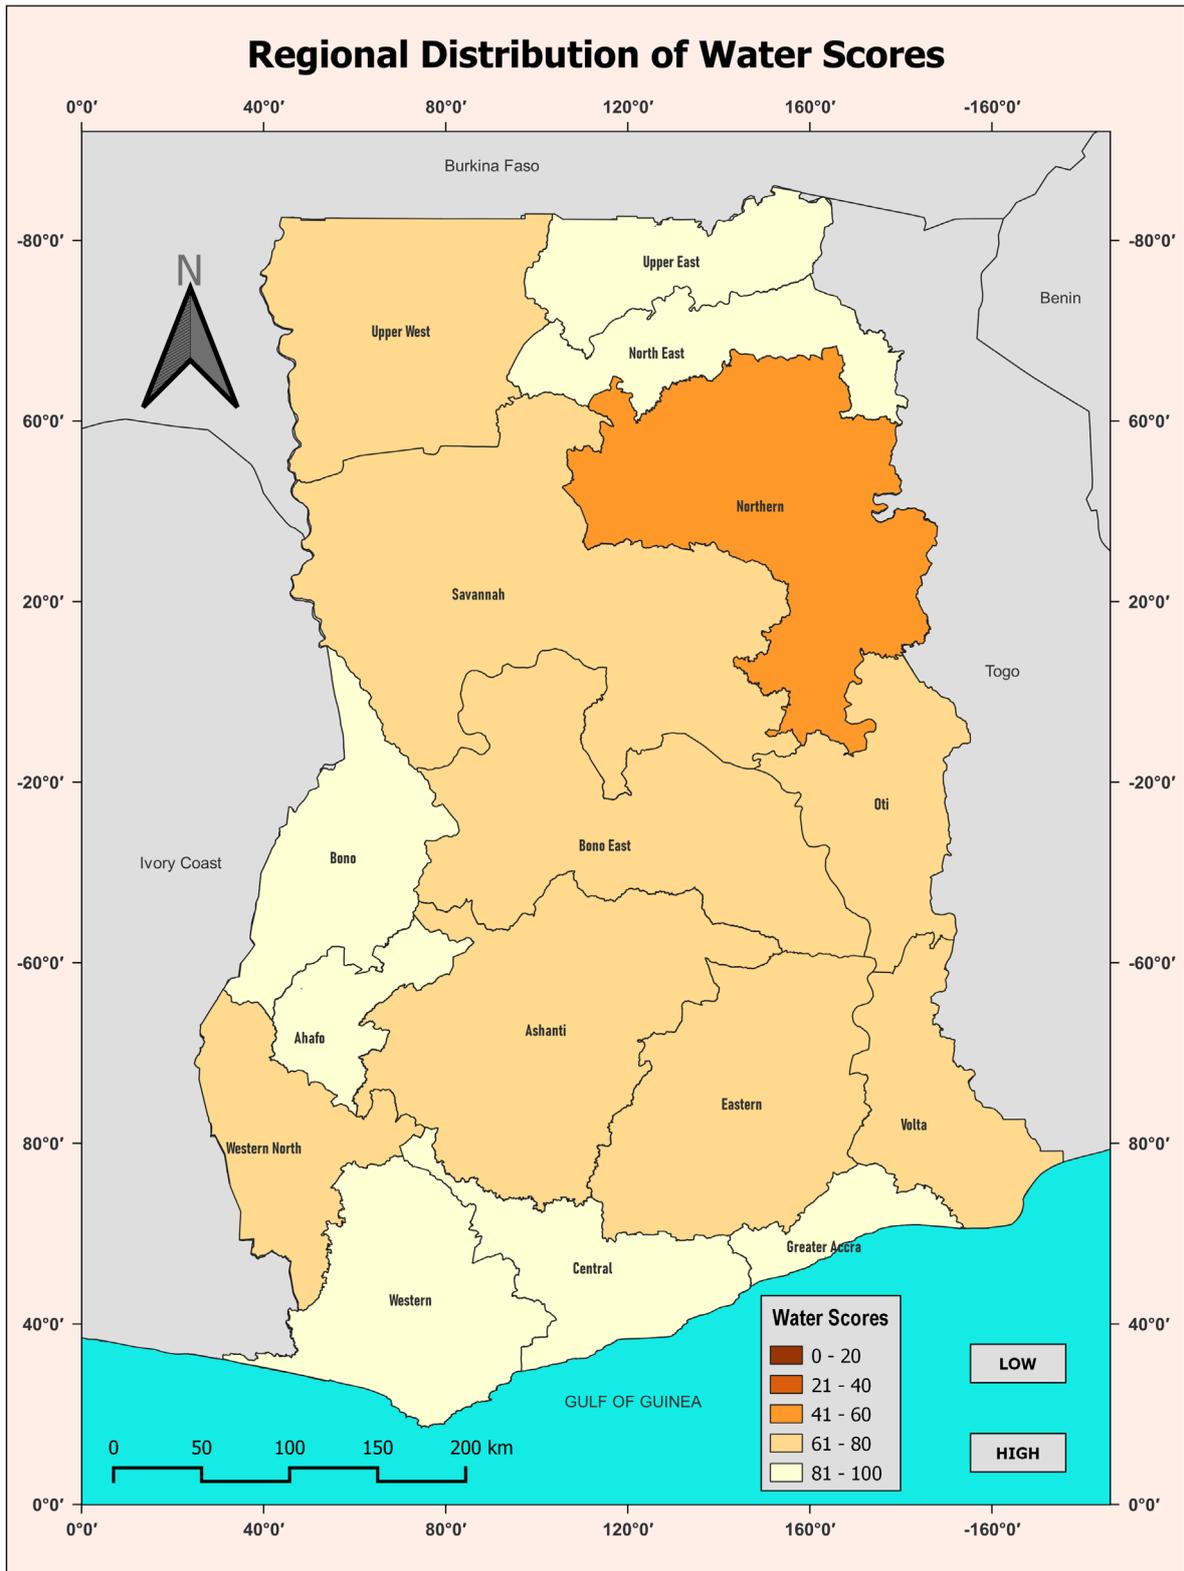

Map 7: Distribution of Water Scores by District

3.4.2 Regional Analysis

Figure 4 and Map 8 present regional analysis of MMDs performance in the water sector. The Figure and the Map show that Greater Accra, Ahafo, Western, Central, Upper East, North East and Bono regions had scores greater than 80 percent. On the other hand, the least ranked regions were Northern and Savannah with scores of 54.9 percent and 62.1 percent, respectively.

Figure 4: Water Performance by Region

Map 8: Regional Distribution of Water Scores

3.5 Sanitation

Provision of adequate sanitation is an important measure of quality of life as it reduces vulnerability to diseases. The key indicator used to measure performance in the sanitation sector is the proportion of population with access to improved sanitation services.

3.5.1 District Analysis

Table 10 presents the top 12 ranked MMDs in the sanitation sector. The top 12 MMDs in the sanitation sector are spread across many regions in Ghana, with concentration in the Greater Accra Region. This is an indication that specific policies to tackle the menace may have been employed by these MMDs. Nine out of the top 12 ranked MMDs in the sanitation sector are Municipalities and Metropolises. Krowor and Adentan Municipalities in the Greater Accra Region are the top ranked in this sector with 100 percent access to improved sanitation services.

Table 10: Top 12 MMDs in the Sanitation Sector

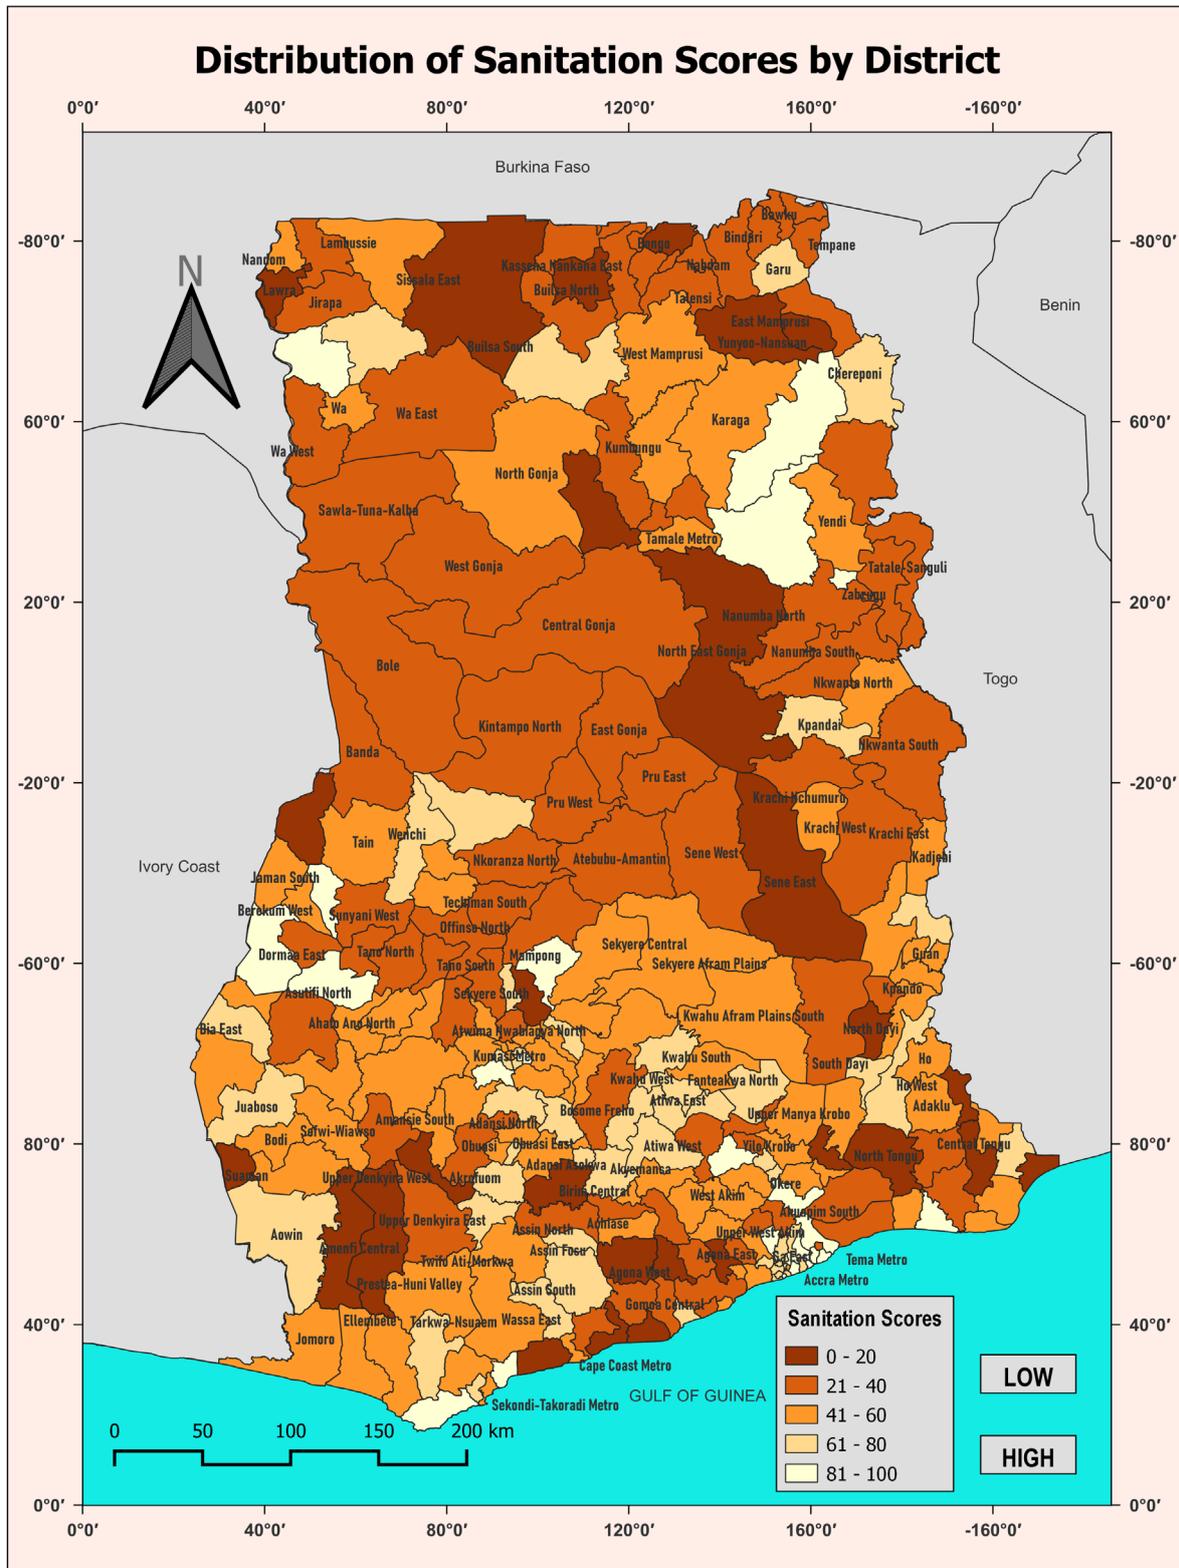

Name	Region	Description	Score	Ranking
Krowor Municipality	Greater Accra	Municipal	100.00	1
Adentan Municipality	Greater Accra	Municipal	100.00	1
Akuapim North Municipality	Eastern	Municipal	98.00	3
Berekum East Municipality	Bono	Municipal	97.50	4
Atwima Kwanwoma District	Ashanti	District	95.00	5
Asutifi North District	Ahafo	District	94.35	6
Tema Metropolis	Greater Accra	Metropolitan	94.00	7
Oforikrom Municipality	Ashanti	Municipal	94.00	7
Tema West Municipality	Greater Accra	Municipal	92.00	9
Accra Metropolis	Greater Accra	Metropolitan	90.00	10
La Dade-Kotopon Municipality	Greater Accra	Municipal	90.00	10
Ada East District	Greater Accra	District	90.00	10

Table 11 presents results of sanitation sector scores and ranking of the least performing MMDs. Eight out of the least 10 are districts, which are usually rural. There were only two municipalities (East Mamprusi and Mfantsiman) in the least 10. Sekyere South in the Ashanti Region is the lowest ranked MMD in the sanitation sector.

Table 11: Lowest Scoring 10 MMDs in the Sanitation Sector

District	Region	Description	Score	Ranking
Lower Manya Krobo District	Eastern	District	12.500	252
East Mamprusi Municipality	North East	Municipal	12.500	252
Mfantsiman Municipality	Central	Municipal	12.000	254
North Dayi District	Volta	District	11.900	255
Adansi South District	Ashanti	District	11.495	256
Asikuma-Odoben-Brakwa District	Central	District	11.000	257
North Gonja District	Savannah	District	10.940	258
Amenfi Central District	Western	District	9.700	259
Builsa North District	Upper East	District	8.500	260
Sekyere South District	Ashanti	District	6.646	261

Map 9 also indicates that the MMDs with low access to sanitation of less than 20 percent are spread across many regions, with some level of concentration in Central and Volta regions.

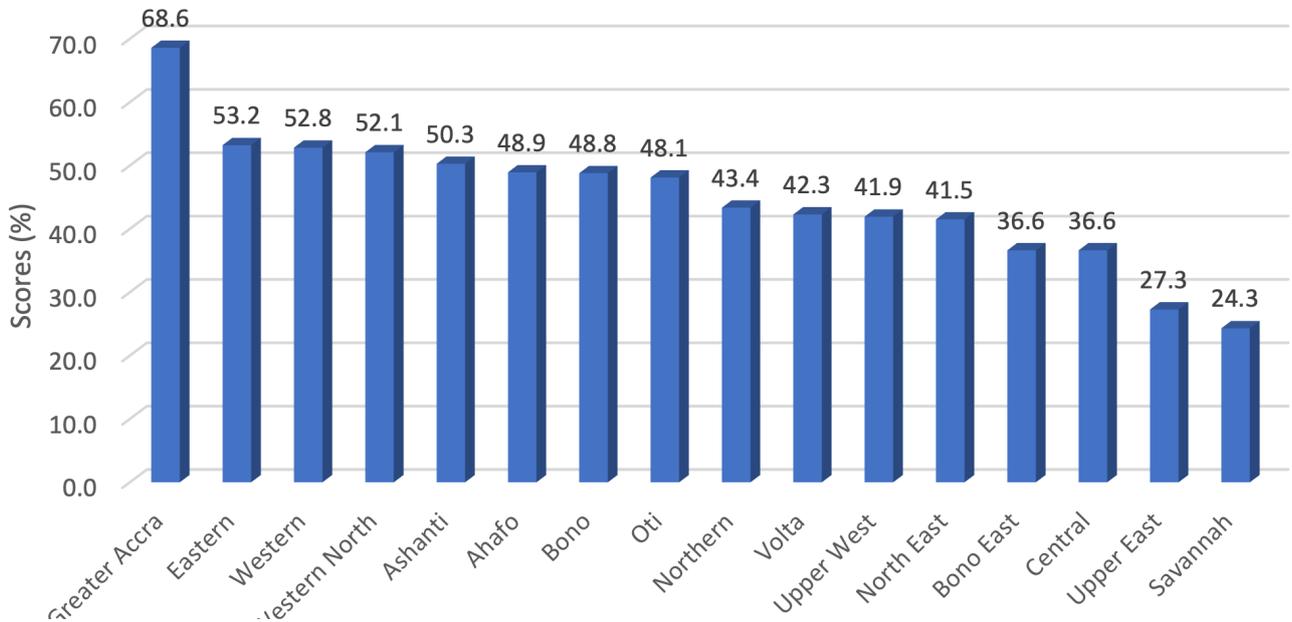

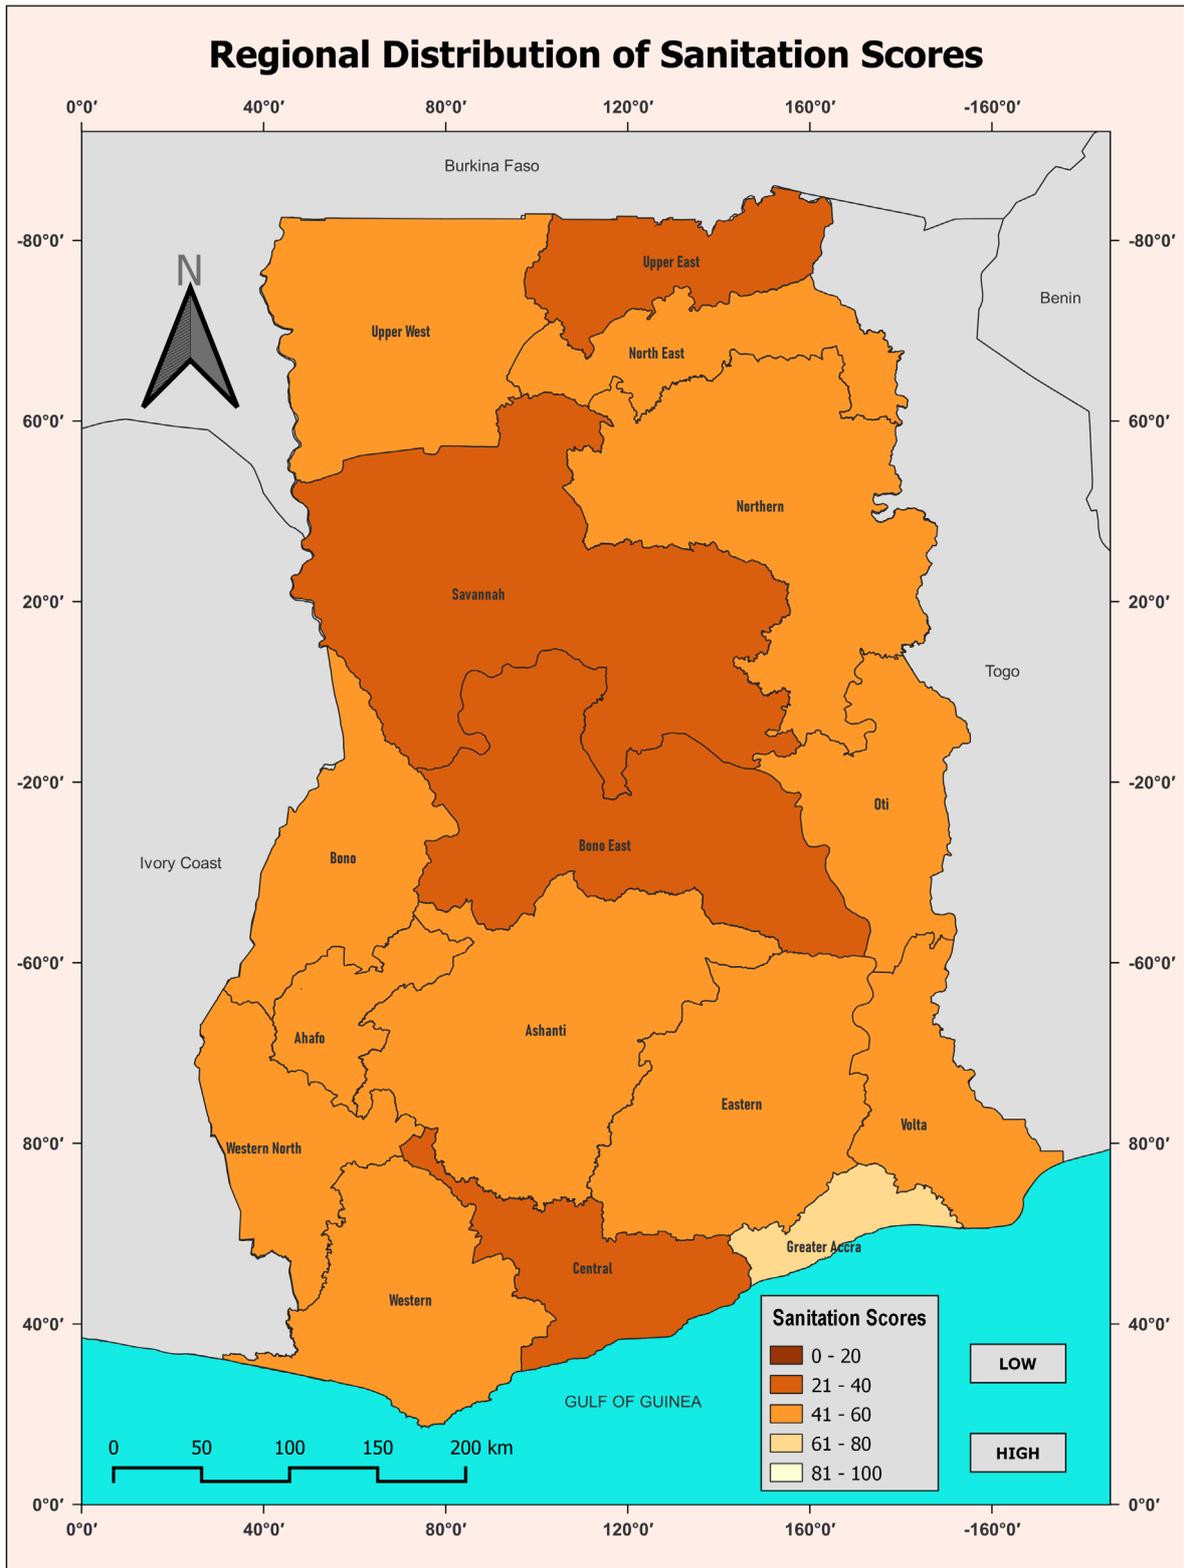

Map 9: Distribution of Sanitation Scores by District

3.5.2 Regional Analysis

Figure 5 and Map 10 present regional analysis of MMDs performance in the sanitation sector. The Figure and the Map show that Greater Accra, Eastern, Western, Western North and Ashanti regions had scores above 50 percent. On the other hand, Savannah and Upper East had scores below 30 percent.

Figure 5: Sanitation Performance by Region

Map 10: Regional Distribution of Sanitation Scores

3.6 Energy

The percentage of communities in the MMDs covered by electricity was the indicator used to measure performance of the sector.

3.6.1 District Analysis

Table 12 presents results for the top 30 MMDs in the energy sector—access to

electricity. The table indicates that access to electricity has been concentrated in the nation's capital (Greater Accra Region). 16 out of the top 30 MMDs in the energy sector is in Greater Accra Region. In addition, 28 out of the top 30 MMDs are municipalities and metropolises, making electricity access a privilege of urban dwellers. All the top 30 MMDs have 100 percent access to electricity.

Table 12: Top 30 MMDs in the Energy Sector

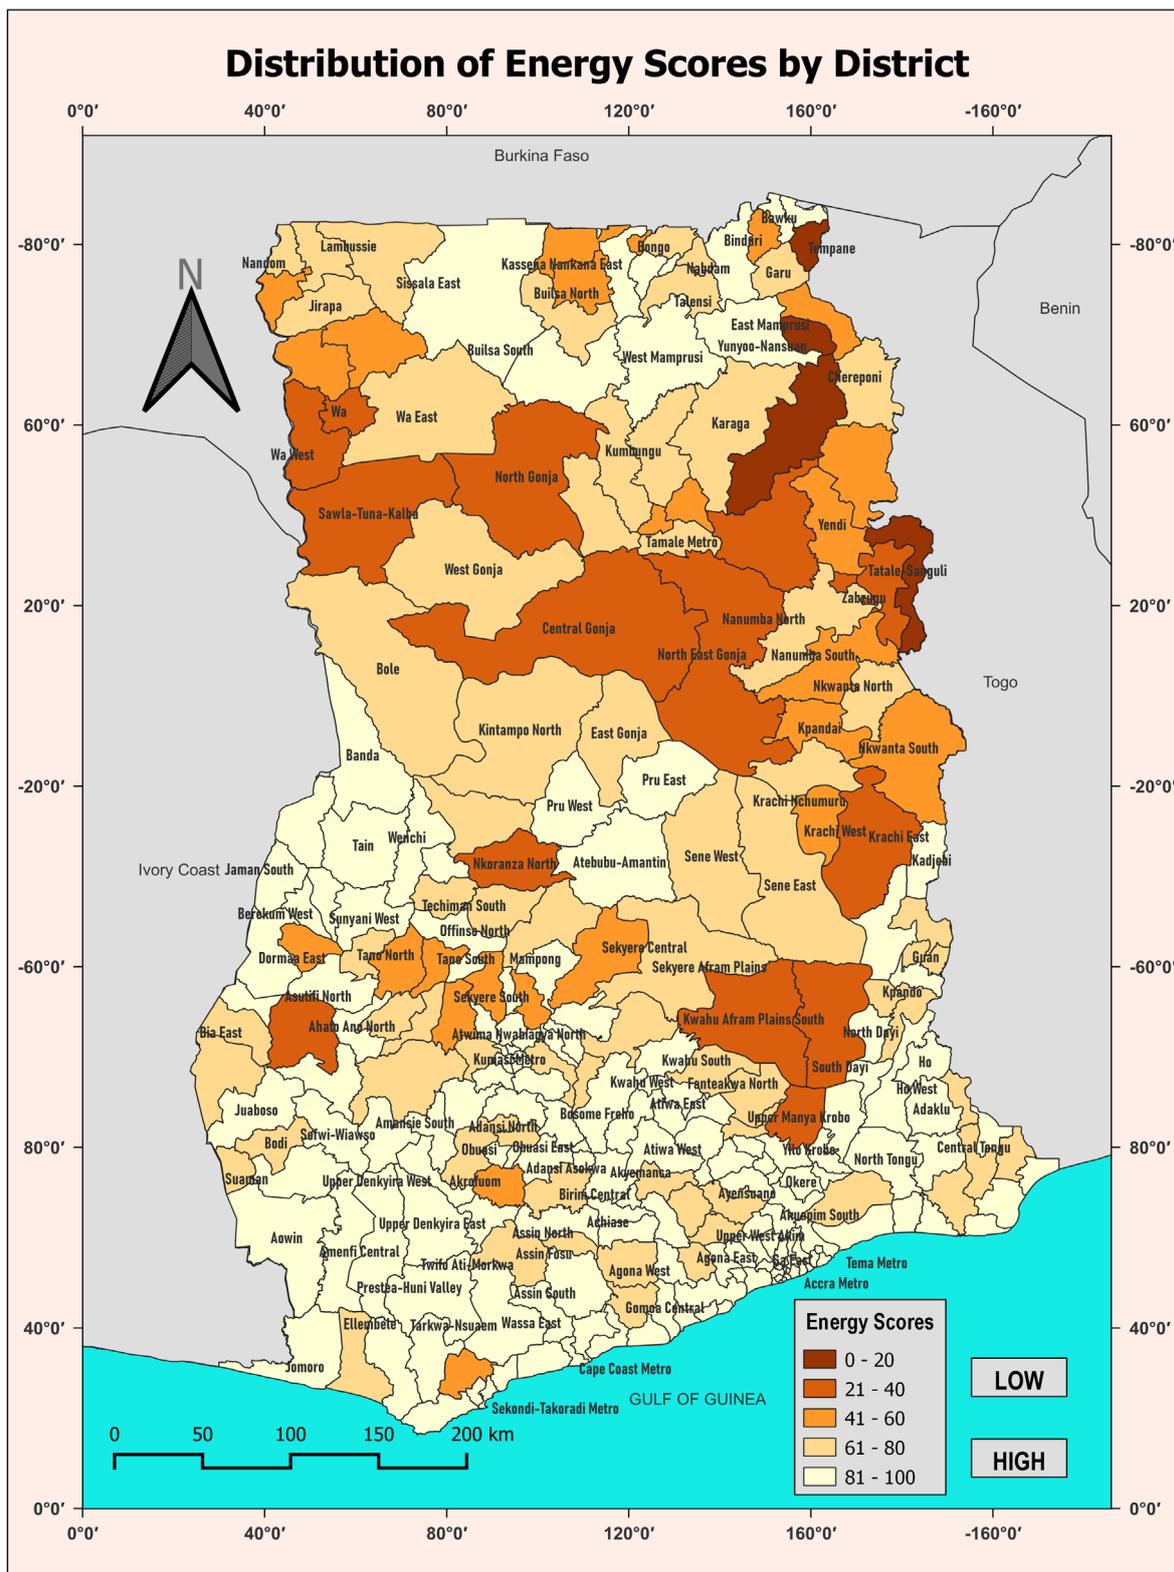

Name	Region	Description	Score	Ranking
Abuakwa North Municipality	Eastern	Municipal	100.00	1

Accra Metropolis	Greater Accra	Metropolitan	100.00	1
Effutu Municipality	Central	Municipal	100.00	1
Tarkwa-Nsuaem Municipality	Western	Municipal	100.00	1
Krowor Municipality	Greater Accra	Municipal	100.00	1
Ablekuma Central Municipality	Greater Accra	Municipal	100.00	1
Wassa Amenfi West Municipality	Western	Municipal	100.00	1
Kpone-Katamanso Municipality	Greater Accra	Municipal	100.00	1
La Dade-Kotopon Municipality	Greater Accra	Municipal	100.00	1
Effia-Kwesimintsim Municipality	Western	Municipal	100.00	1
Tema West Municipality	Greater Accra	Municipal	100.00	1
Asokwa Municipality	Ashanti	Municipal	100.00	1
Ayawaso East District	Greater Accra	District	100.00	1
Ga North Municipality	Greater Accra	Municipal	100.00	1
Ho Municipality	Volta	Municipal	100.00	1
Old Tafo Municipality	Ashanti	Municipal	100.00	1
Ablekuma West Municipality	Greater Accra	Municipal	100.00	1
Ga East Municipality	Greater Accra	Municipal	100.00	1
Cape Coast Metropolis	Central	Metropolitan	100.00	1
Wassa Amenfi East Municipality	Western	Municipal	100.00	1

Table 13 presents the least scoring eleven MMDs in the energy sector. With exception of Upper Manya Krobo District and Kwahu Afram Plains North District; and Nkoranza North District in the Eastern and Bono East regions respectively, all the other eight districts and municipalities among the least 11 are in the five regions in the northern part of the country. Also, with exception of the Gushiegu Municipality, all the other 10 in the least ranked are districts.

Table 13: Lowest Scoring 11 MMDs in the Energy Sector

Name	Region	Description	Score	Ranking
Mion District	Northern	District	35.00	251
Kwahu Afram Plains North District	Eastern	District	35.00	251
Upper Manya Krobo District	Eastern	District	31.30	253
Wa East District	Upper West	District	28.50	254
Nkoranza North District	Bono East	District	25.25	255
North Gonja District	Savannah	District	23.10	256
North-East Gonja District	Savannah	District	22.00	257
Gushiegu Municipality	Northern	Municipal	13.92	258
Tatale-Sanguli District	Northern	District	11.70	259
Tempane District	Upper East	District	10.00	260
Yunyoo-Nansuan District	North East	District	5.00	261

Map 11 indicates that there is a sharp inequality in the access to electricity between the southern and northern parts of Ghana. Many MMDs in the southern part of Ghana recorded access to electricity of more than 80 percent. On the contrary, only few MMDs in the northern part of Ghana have access to electricity of more than 80 percent. It is important to note that only four MMDs located in the Northern, Upper East and North East regions had access to electricity of less than 20 percent.

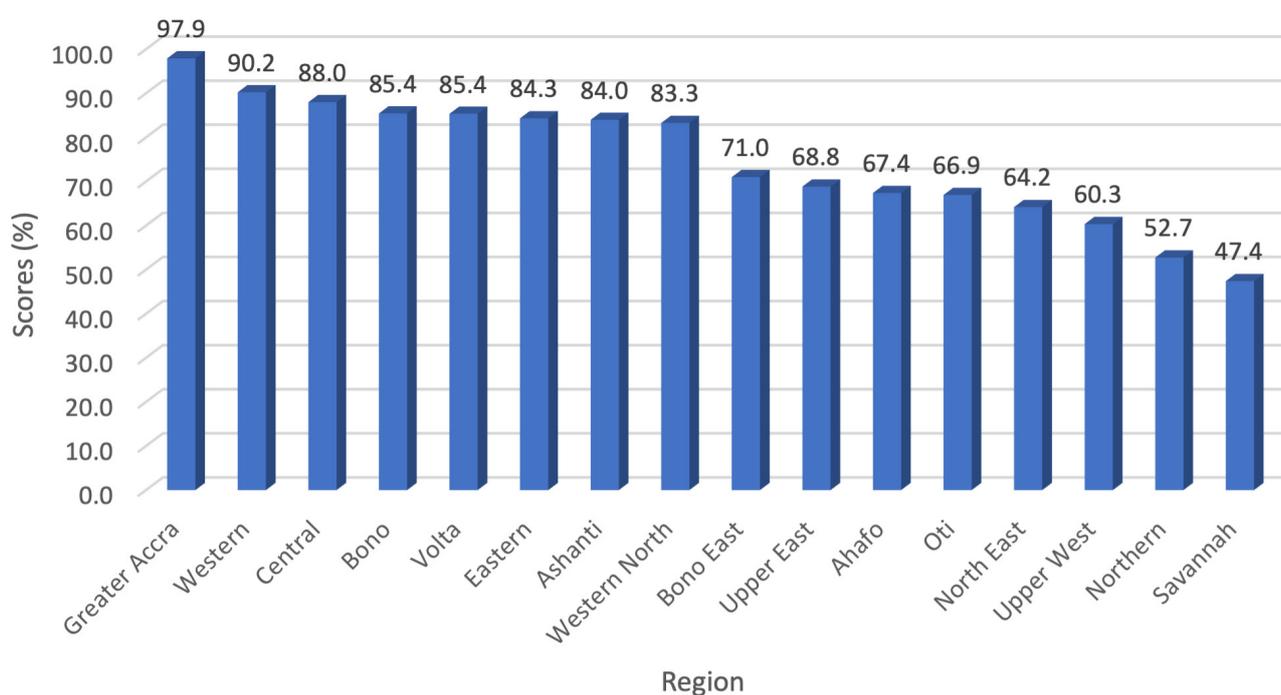

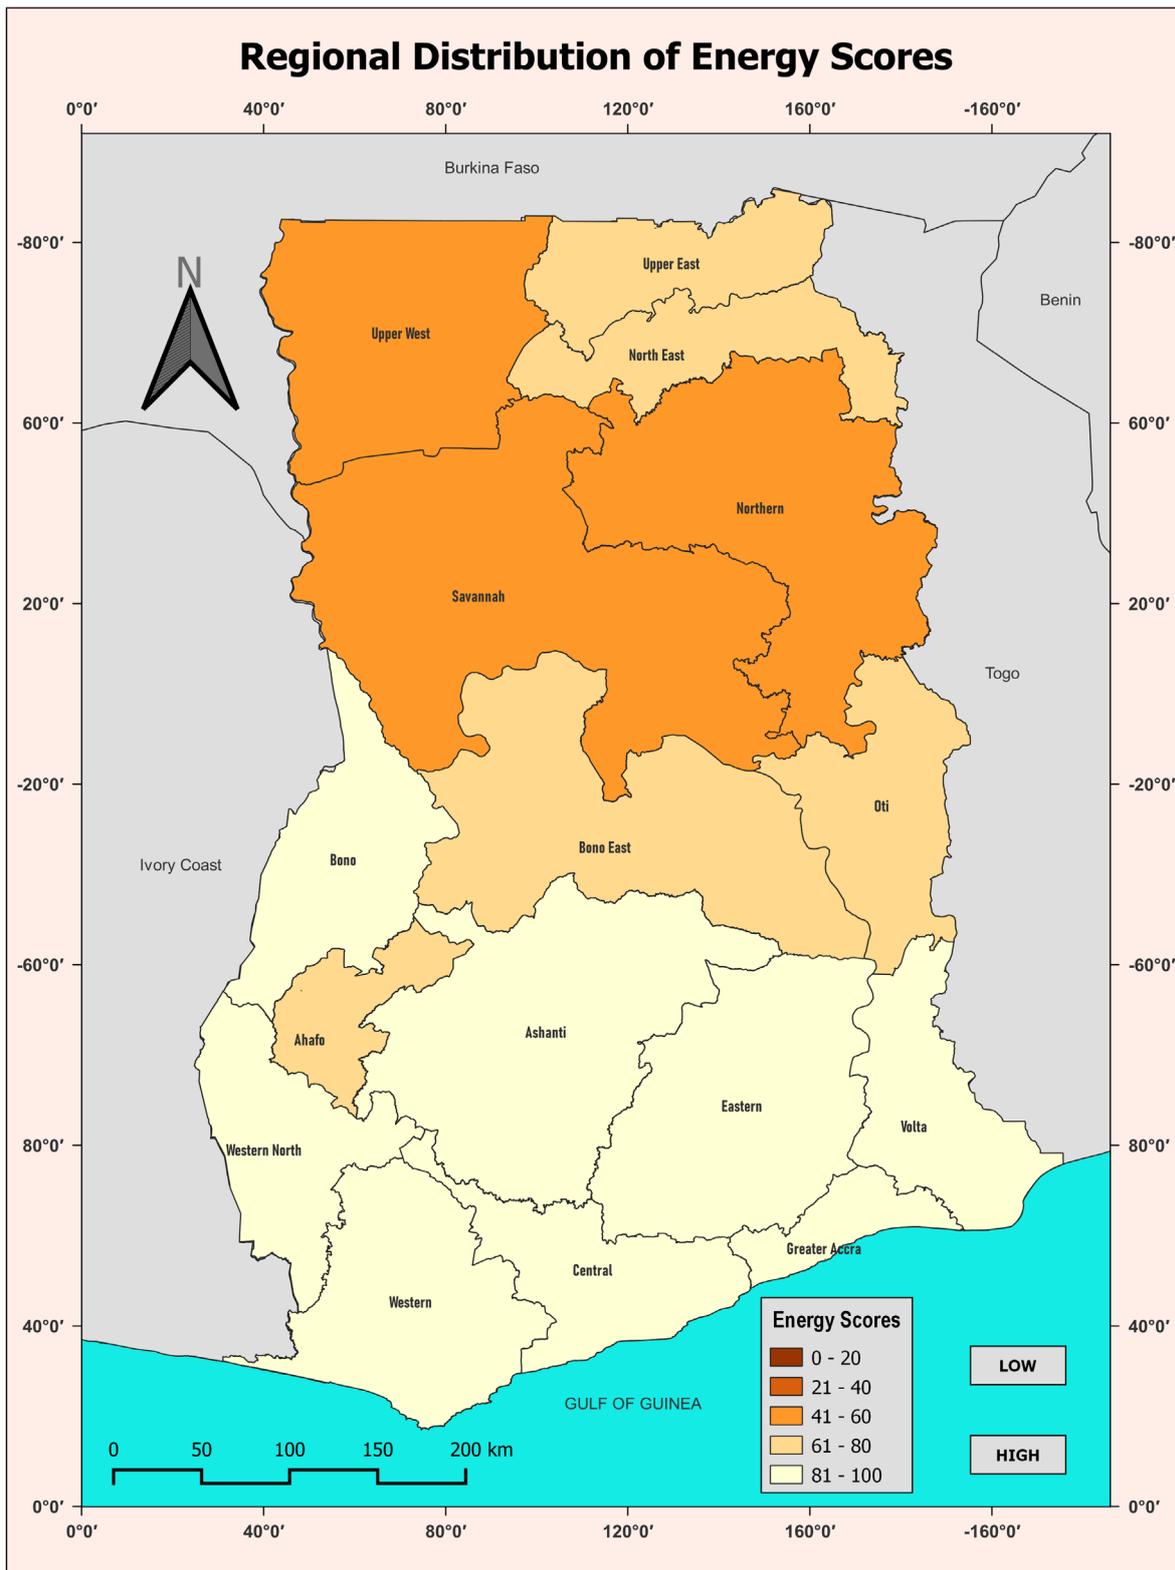

Map 11: Distribution of Energy Scores by District

3.6.2 Regional Analysis

Figure 6 and Map 12 present regional rankings in the energy sector population access to electricity. The Figure indicates that over 97.9 percent of inhabitants in the Greater Accra Region have access to electricity. The Map and the Figure also show that Greater Accra, Western, Central, Bono, Volta, Eastern, Ashanti and Western North regions have electricity access coverage of more than 80 percent. On the other hand, Savannah, Northern, Upper West and North East regions form the bloc of 'energy poverty', being the lowly ranked regions in respect of access to electricity. Only 47.4 percent of the population in Savannah Region have access to electricity compared with 97.9 percent in Greater Accra, an indication of unequal distribution of electricity across regions.

Figure 6: Energy Performance by Region

Map 12: Regional Distribution of Energy Scores

3.7 Governance

Governance sector is measured with one indicator, which is the implementation of the annual action plans of districts. Since only one indicator is used in this sector, raw scores are used for ranking and analysis. The analyses are presented for both district and regional levels.

3.7.1 District Analysis

Table 14 presents the top-ranked 10 MMDs in terms of the implementation of the

annual action plan. These comprise of five municipalities and five districts—across six regions in the country. The top-ranked are Suaman District, Afigya-Kwabre North District, Berekum East Municipality and Karaga District, with 100 percent. With the exception of Afigya-Kwabre North District that remained in the top 10, all others in the top 10 ranked position in 2020, dropped in 2021. Further assessment of the factors leading to Afigya-Kwabre North District maintaining its position might provide useful lessons for other MMDs.

Table 14: Top 10 MMDs in the Governance Sector

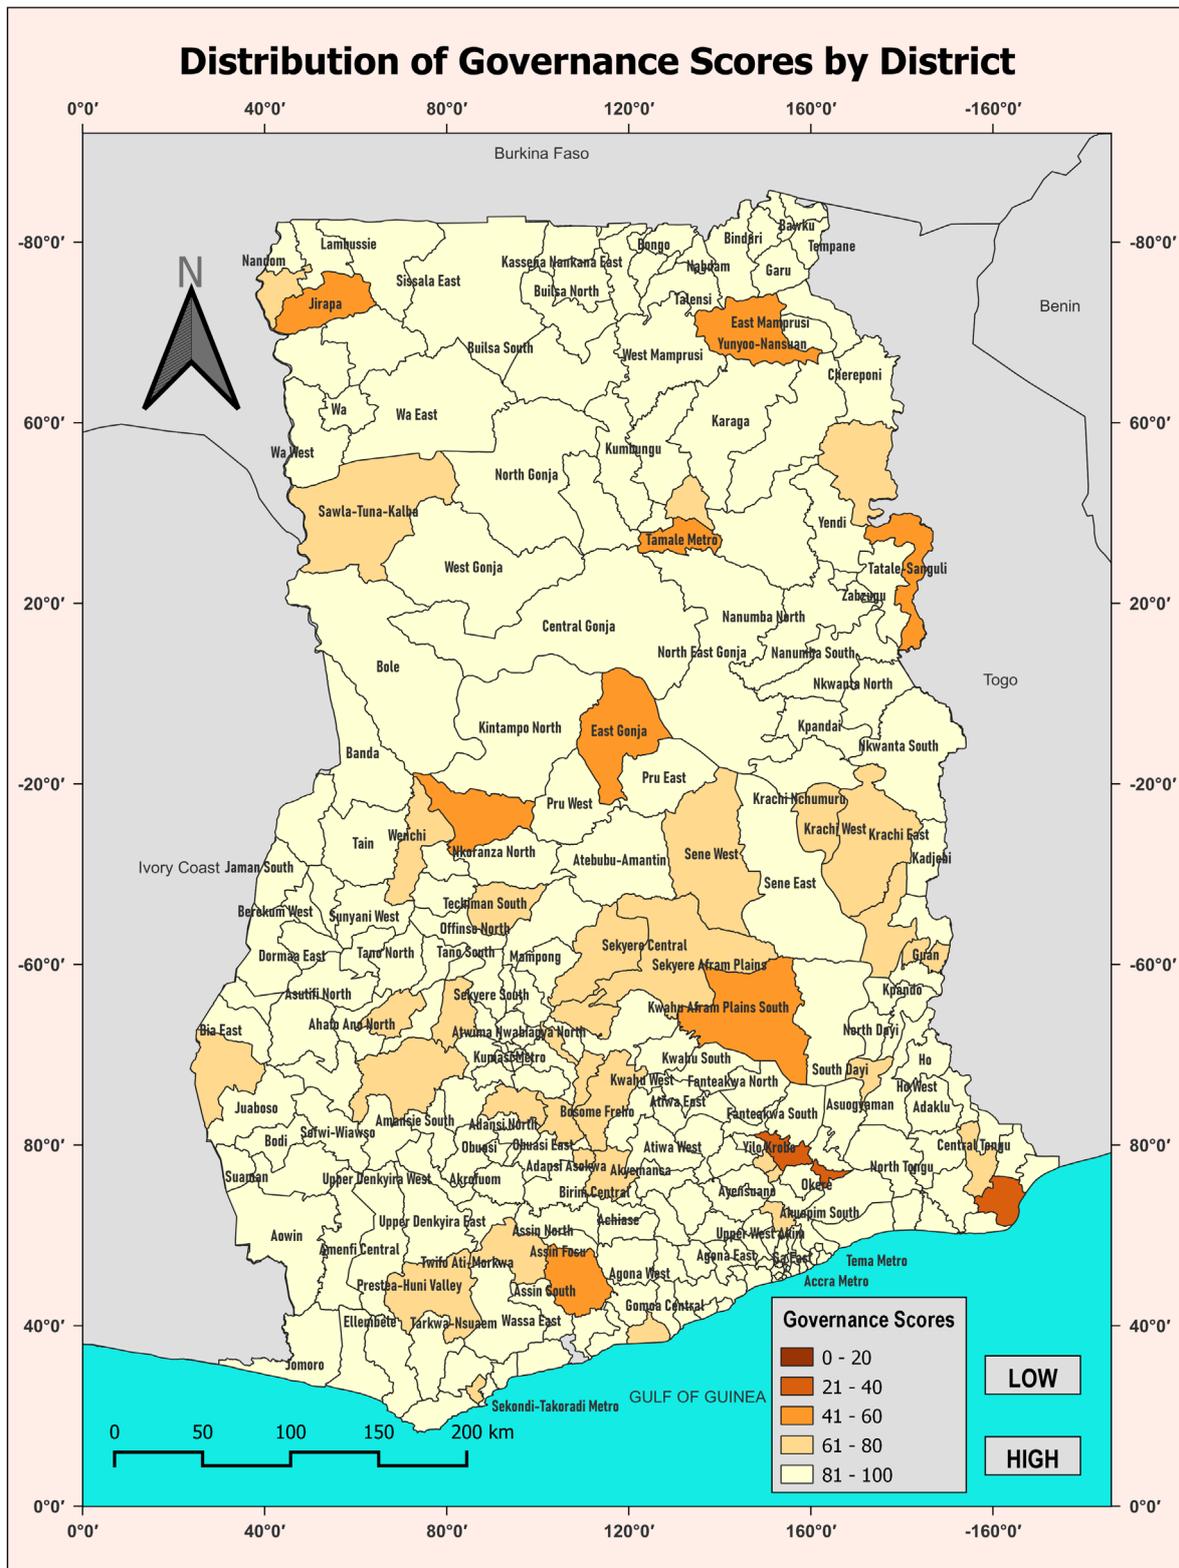

Name	Region	Description	Score	Ranking
Suaman District	Western North	District	100.00	1
Afigya-Kwabre North District	Ashanti	District	100.00	1
Berekum East Municipality	Bono	Municipal	100.00	1
Karaga District	Northern	District	100.00	1
Nkwanta North District	Oti	District	99.50	5
Sunyani Municipality	Bono	Municipal	98.90	6
Akrofuom District	Ashanti	District	98.90	6
Ashaiman Municipality	Greater Accra	Municipal	98.80	8
Tema West Municipality	Greater Accra	Municipal	98.60	9
La Nkwantanang-Madina Municipality	Greater Accra	Municipal	98.50	10

Table 15 presents the least-ranked MMDs in the governance sector. The least 10 MMDs include four districts, five municipalities and one metropolis. Keta Municipality had the lowest score (22.9%) in the implementation of their annual action plan. East Gonja Municipality remained in the least 10 as was in the 2020 ranking, with the index dropping from 65.0 percent in 2020 to 59.0 percent in 2021.

Table 15: Lowest Scoring 10 MMDs in the Governance Sector

Name	Region	Description	Score	Ranking
Assin South District	Central	District	60.00	252
Tamale Metropolis	Northern	Metropolitan	60.00	252
East Gonja Municipality	Savannah	Municipal	59.00	254
East Mamprusi Municipality	North East	Municipal	57.50	255
Kwahu Afram Plains South District	Eastern	District	54.40	256
Jirapa Municipality	Upper West	Municipal	51.70	257
Tatale-Sanguli District	Northern	District	47.70	258
Kintampo South District	Bono East	District	43.00	259
Yilo Krobo Municipality	Eastern	Municipal	29.10	260
Keta Municipality	Volta	Municipal	22.90	261

Map 13 also indicates that most MMDs implement their action plans, as most of the districts recorded more than 80 percent in the implementation of their annual action plans.

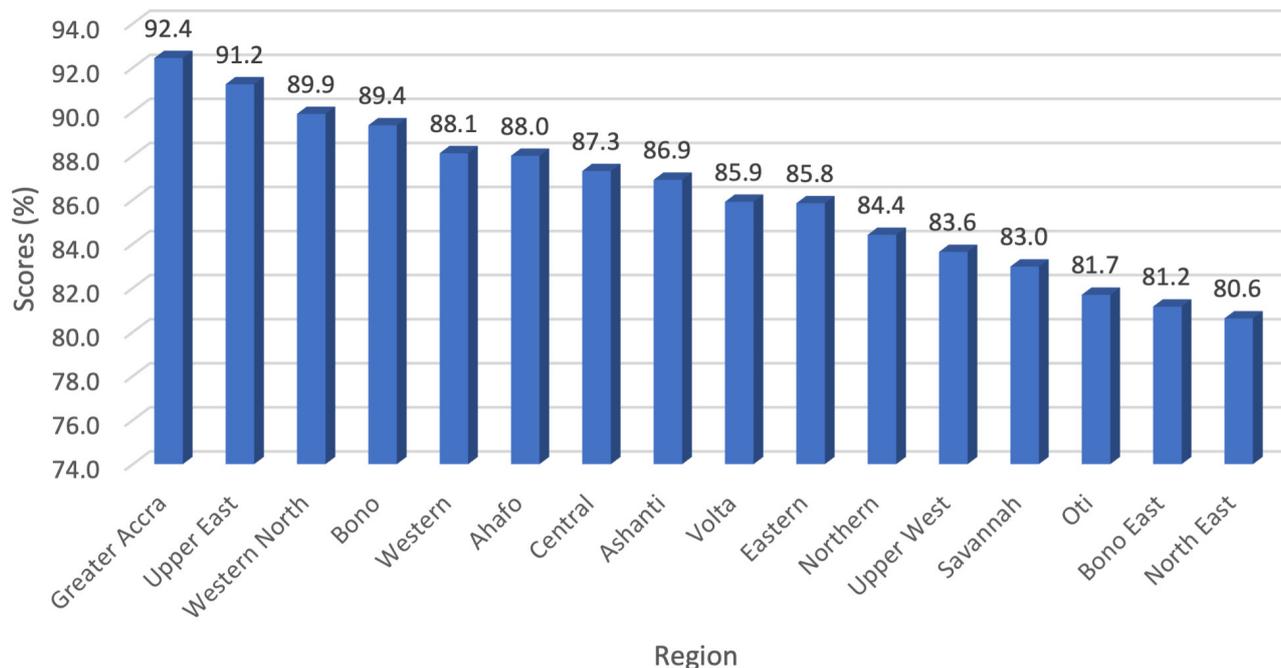

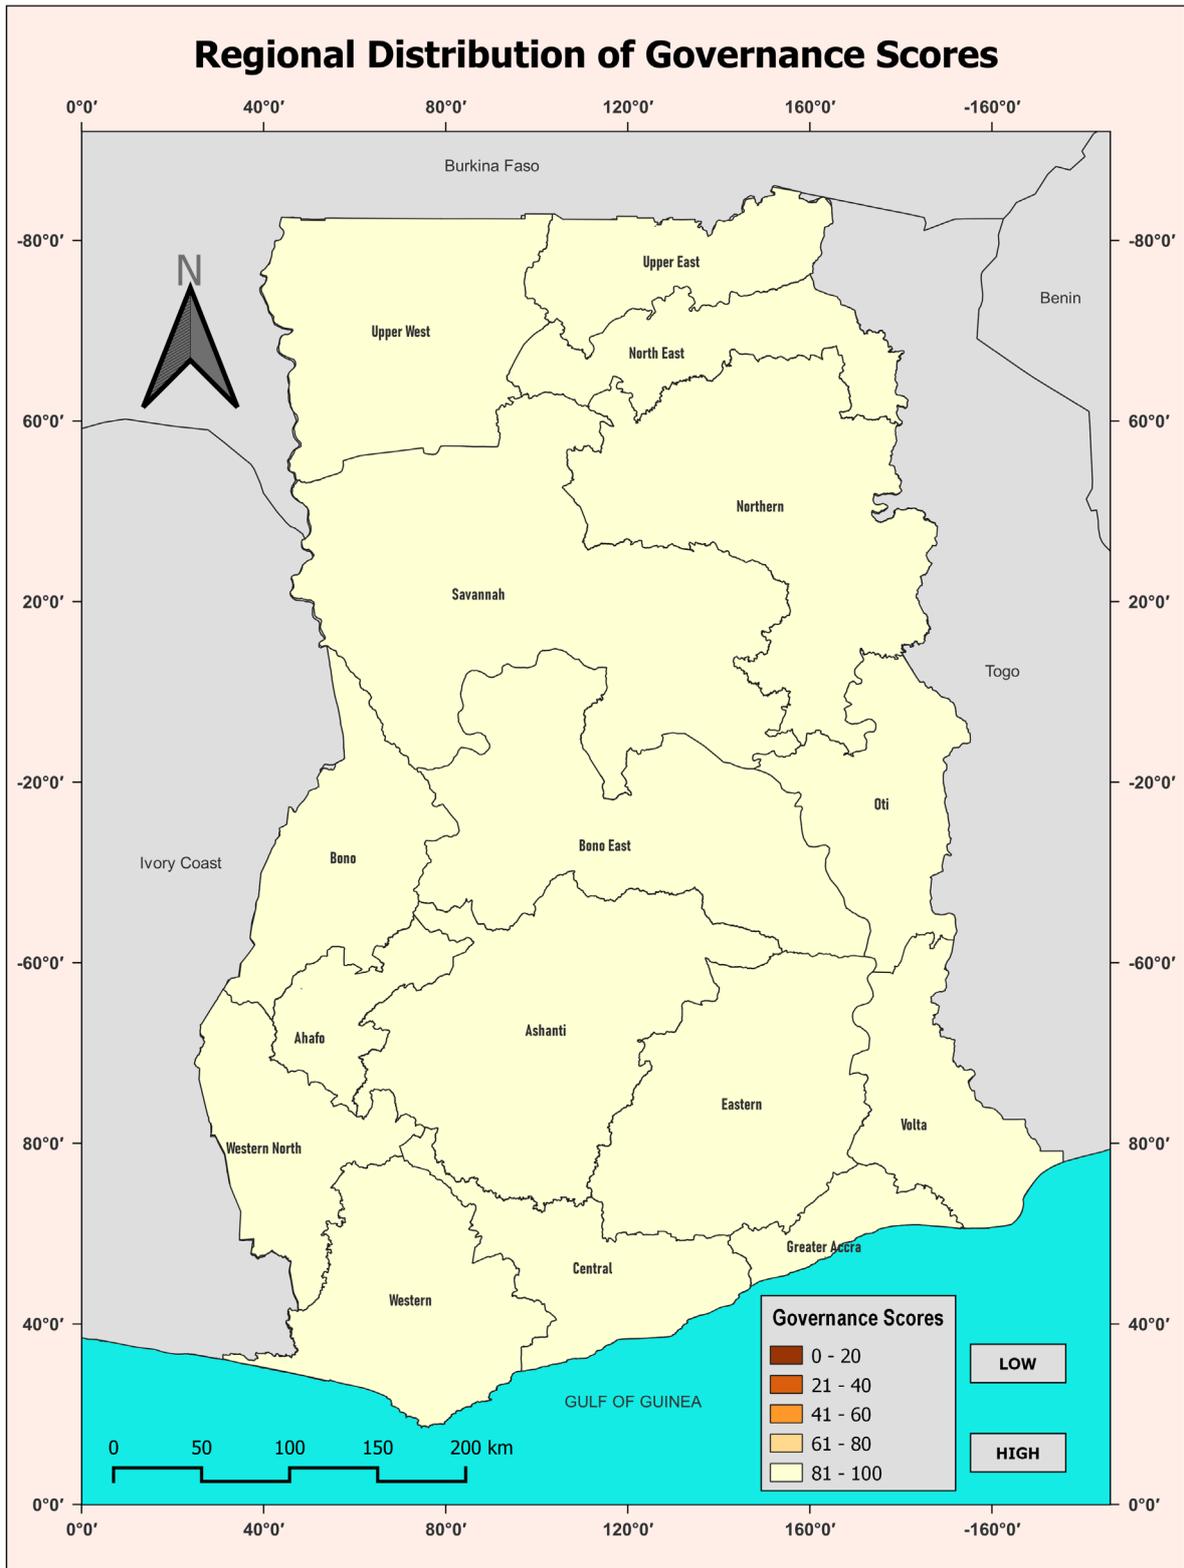

Map 13: Distribution of Governance Scores by District

3.7.2 Regional Analysis

Figure 7 and Map 14 present regional ranking in the performance of governance sector. Greater Accra, Upper East, Western North and Bono regions are among the top 20 percent, while North East, Bono East, Oti and Savannah regions are in the bottom 20 percent in terms of the implementation of the annual action plan. Figure 7 and Map 14 also reveal that all regions recorded more than 80 percent in the implementation of the annual action plan.

Figure 7: Governance Performance by Region

Map 14: Regional Distribution of Governance Scores

4. Total DLT Score and Ranking

The total DLT score measures the overall development of all districts by aggregating sectoral scores of each Metropolises, Municipalities and districts (MMDs). The results of the DLT scores and rankings are presented in figures, maps and tables. The analyses are undertaken at district and regional levels. The overall distributions of achievements of the index and disparities across districts and regions are presented in maps and charts. In the DLT map, the distribution of rankings determined by total scores of the index are indicated by the appropriate colour codes. Districts and regions with scores between 0-20 percent, 21-40 percent, 41-60 percent, 61-80 percent and 81-100 percent are coded with different colours. The scores and rankings of all MMDs based on total DLT scores are presented in Annex I.

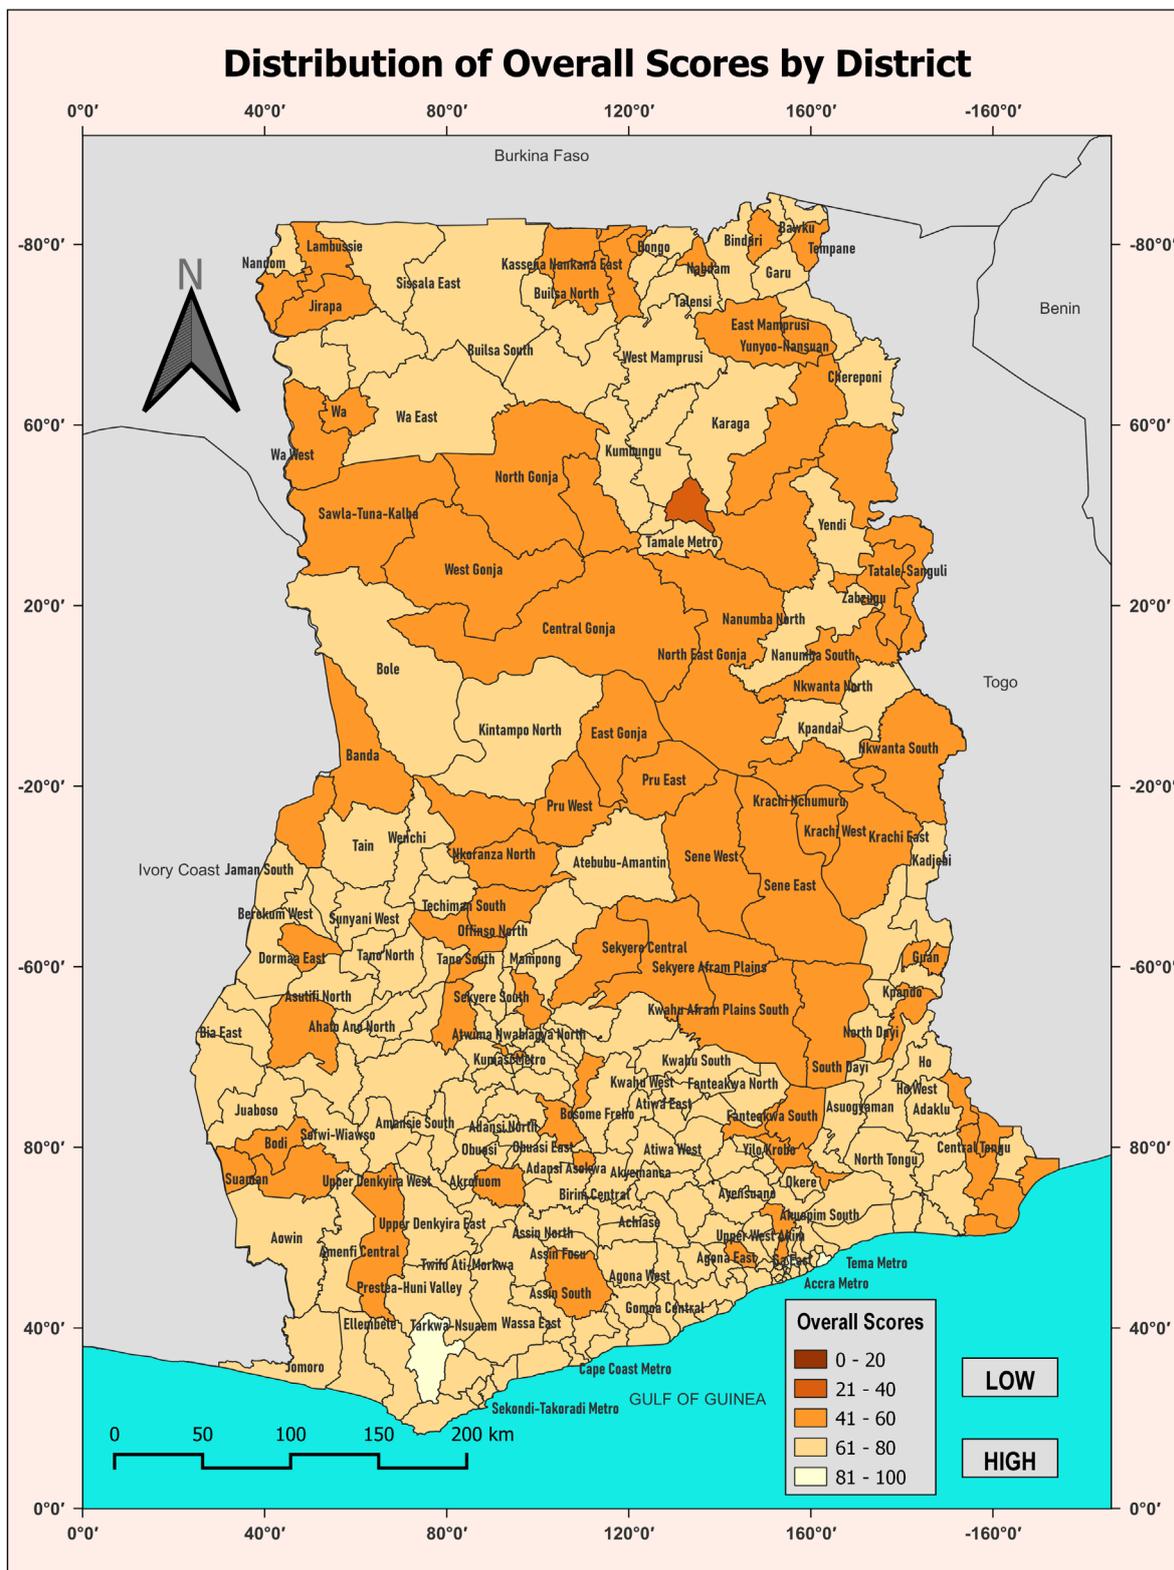

4.1 District Total DLT Analysis

Table 16 indicates that six out of the top 10 ranked MMDs are located in the Greater Accra Region. Two MDs from Western Region and one MDs each from Ashanti and Eastern make up the remaining top 10 ranked MMDs in Ghana. Tema Metropolis in the Greater Accra Region emerged as the top ranked MMDs in the 2021 DLT. Adentan Municipality, which ranked highest in the 2020 DLT ranked 8th in the 2021 DLT and therefore among the top 10 MMDs in Ghana. There are seven municipalities in the top 10 in 2021. Only two districts—Atwima Kwanwoma and Shama made it to the top 10 ranked MMDs in Ghana.

Table 16: Top 10 MMDs in DLT Scores

Name	Region	Description	Score	Ranking
Tema Metropolis	Greater Accra	Metropolitan	81.78	1
Ayawaso West Municipality	Greater Accra	Municipal	81.51	2
Tarkwa-Nsuaem Municipality	Western	Municipal	81.22	3
Atwima Kwanwoma District	Ashanti	District	80.31	4
Ayawaso North Municipality	Greater Accra	Municipal	80.09	5
Korle-Klottey Municipality	Greater Accra	Municipal	78.71	6
Kpone-Katamanso Municipality	Greater Accra	Municipal	78.65	7
Adentan Municipality	Greater Accra	Municipal	77.86	8
New Juaben South Municipality	Eastern	Municipal	77.77	9
Shama District	Western	District	77.52	10

Map 15 shows that only five MMDs recorded overall score of more than 80 percent. The majority (72.03%) of MMDs were within the range of 61-80 percent. No district obtained a score lower than 20 percent.

Map 15: Distribution of Overall Scores by District

Table 17 presents the least-ranked MMDs in Ghana. Eight out of the 10 least-ranked are districts. Lawra Municipality and Krachi East Municipality are the only Municipalities among the least-ranked MMDs. There is no metropolis among the least 10 performing MMDs. The bottom 10 ranked MMDs are in six regions—Savannah, Northern, Upper West, Eastern, Oti and Ashanti regions. Nanton District is the least ranked in the country, recording an average score of 38.7 percent from all the seven sectors of DLT.

Table 17: 10 MMDs with the Least Score in DLT

Name	Region	Description	Score	Ranking
Sawla-Tuna-Kalba District	Savannah	District	49.84	252
Akrofuom District	Ashanti	District	49.77	253
Kwahu Afram Plains North District	Eastern	District	48.71	254
Lawra Municipality	Upper West	Municipal	46.58	255
Kwahu Afram Plains South District	Eastern	District	45.96	256
Krachi East Municipality	Oti	Municipal	45.76	257
Nanumba South District	Northern	District	44.75	258
North-East Gonja District	Savannah	District	44.52	259
Tatale-Sanguli District	Northern	District	42.51	260
Nanton District	Northern	District	38.66	261

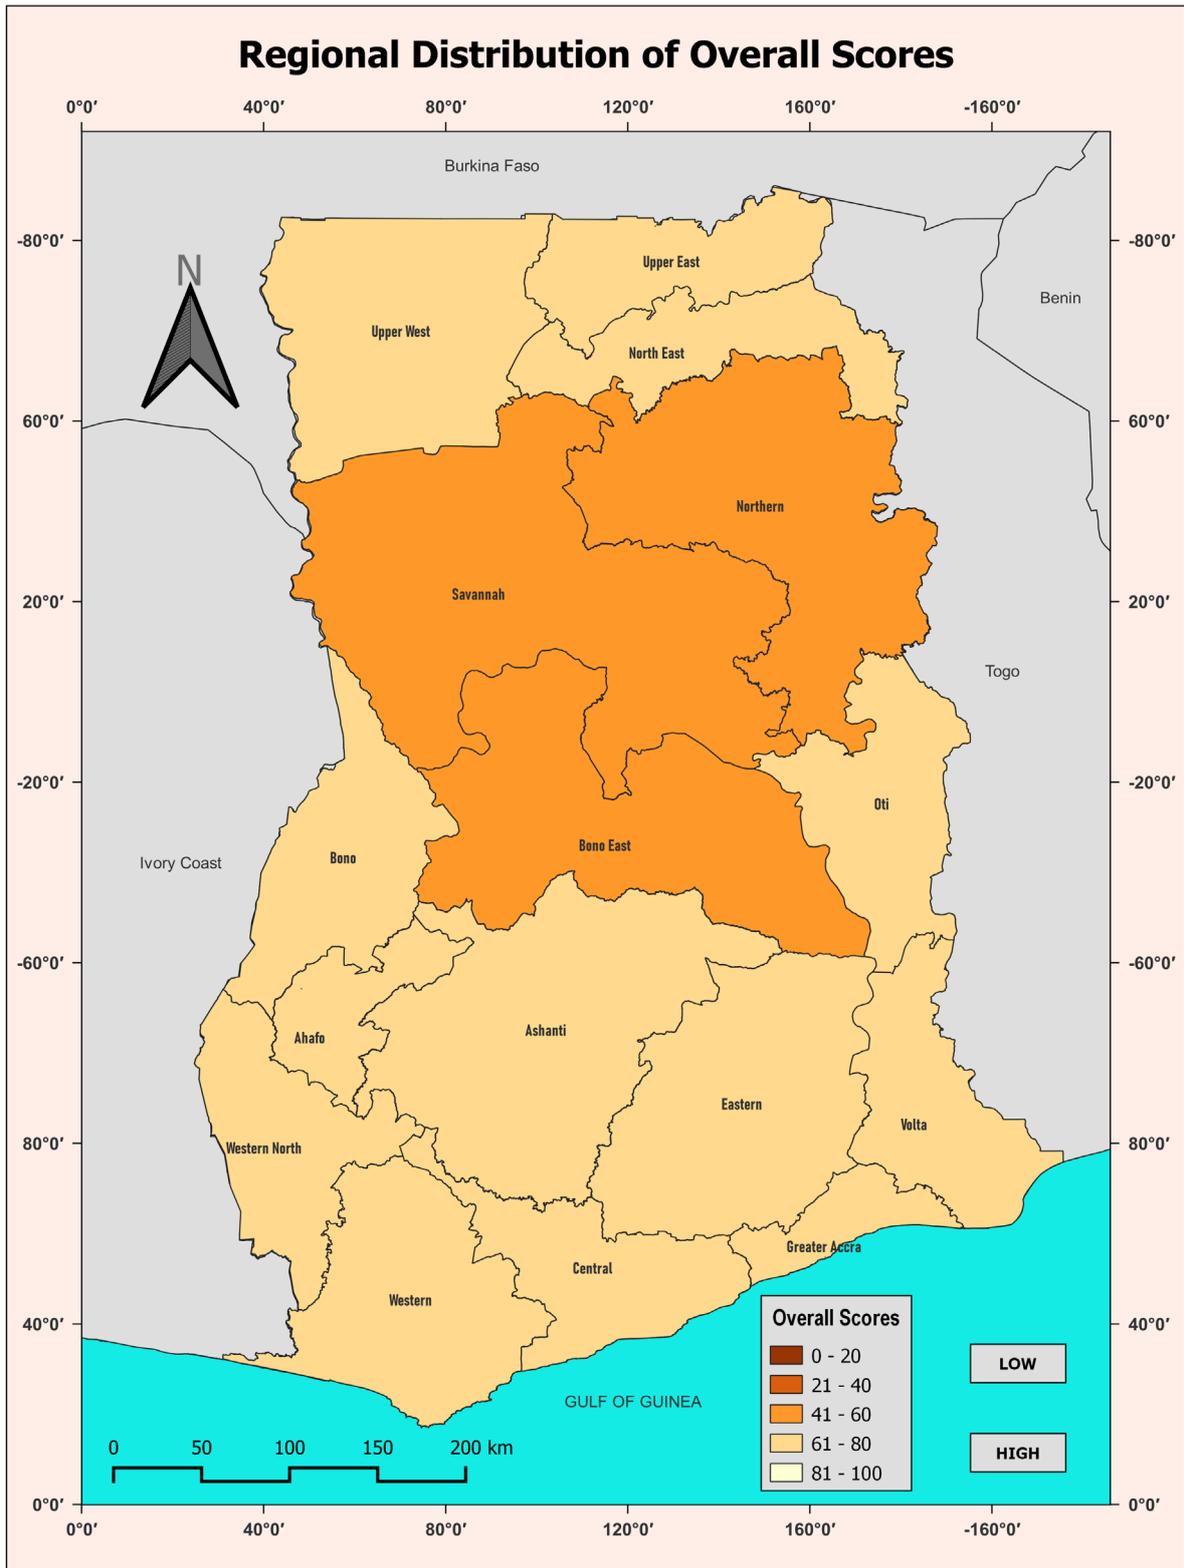

4.2 Regional total DLT Analysis

Table 18 and Map 16 presents the average total score and ranking by region. Greater Accra Region recorded the highest score, based on the seven sectors of DLT, maintaining its 2020 position, while Savannah Region attained the lowest score, making it the worst performing region. North East Region improved from 16th position in 2020 to 9th position in 2021, while Savannah Region dropped from 15th position in 2020 to 16th position in 2021. This calls for further analysis on the causative factors for the drop in Savannah Region as well as lessons for the rise in performance in North East Region, given that they are all in the Northern part of the country.

Table 18: Regional District League Table Scores and Ranking

Region	Score	Ranking
Greater Accra	72.37	1
Western	69.78	2
Central	67.21	3
Ahafo	66.62	4
Bono	66.56	5
Eastern	66.07	6
Western North	65.35	7
Ashanti	64.83	8
North East	63.50	9
Volta	62.82	10
Upper East	61.45	11
Upper West	61.14	12
Oti	61.04	13
Bono East	59.44	14
Northern	58.05	15
Savannah	52.61	16

Map 16 also indicates that no region obtained an average score greater than 80 percent. Most regions obtained scores ranging from 61-80 percent.

Map 16: Regional Distribution of Overall Scores

5. Conclusions and Recommendations

5.1 Conclusions

This report provides findings of an analysis of 22 indicators across seven sectors, measuring the wellbeing of citizens across Ghana's 261 MMDs. The analysis of each of the sectors indicates very wide disparities among the MMDs in Ghana. For example, while the top MMD scored 90.2 percent in the education index, the least ranked MMD scored 3.5 percent. In the health sector, the high-performing MMD scored 100.0 percent compared with 7.4 percent for the lowest-performing MMD. Also, in the nutrition sector index, the highest ranked MMD scored 100.0 percent while the lowest ranked MMD scored 7.8 percent. This trend is reflected in almost all the seven sectors, suggesting that by some inaction or inadequate action, segments of the population are left behind in terms of service delivery and quality of life. Without a deliberate and sustained effort through better planning, budgetary allocation, effective implementation, monitoring and evaluation by national and sub-national level agencies and authorities, service and quality of life across the country will remain unequal, which will cause many citizens to be left behind in the march towards achieving the SDGs.

5.2 Policy Recommendations

The concept of the District League Table is primarily to provide central Government and other development actors the evidence to enable a more equitable allocation of resources. The concept recognises that the national government, through the MDAs, Parliament and Office of the Common Fund Administrator still have the greatest responsibility for district level development and to address the imbalances in well-being across the country. The 2021 DLT report is again reechoing the messages of earlier

editions and messages from previous DLT, that:

1. The Ministry of Finance and National Development Planning Commission should ensure that national resources are allocated using the appropriate targeting tools like the DLT, to support low-ranking MMDs;
2. The Office of Common Fund Administrator should review the frameworks for resource allocation to ensure that the criteria for the allocation favours the most deprived MMDs;
3. The proportion of national revenue for the DACF must be increased and regularly released to facilitate the delivery of MMDAs mandate and development programmes;
4. The Government through the Ministry of Local Government, Decentralisation and Rural Development should accelerate the devolution process to allow for better coordination and monitoring of district service delivery;
5. The Office of the Head of Local Government Service should facilitate the supply of adequate skilled personnel to facilitate effective service delivery, especially in the area of health, social welfare, sanitation and education; and
6. The District Assemblies should ensure that information is adequately provided on local economic development (IDIF, IGF generation, etc.) to aid assessment of the economic well being of the citizens in their jurisdiction.
7. The District Assemblies should ensure the provision of timely, accurate and quality data in the Annual Progress Report to facilitate effective assessment of citizens well being.

Annex I: District DLT Total and Sectoral Scores
