## **EXECUTIVE SUMMARY**

The Ministry of Chieftaincy and Religious Affairs (MCRA) has the constitutional mandate to develop effective interface between Government, Religious Bodies and Civil Society on matters relating to Chieftaincy and Religious Affairs for the promotion of peace and good governance. MCRA is also to operate as the primary and apex body to initiate and formulate appropriate policies for the Chieftaincy and Religious sectors of the country.

The Ministry aims to preserve, sustain and integrate the regal, traditional and religious values, norms and practices for national development. Core values that underpin the Ministry's work include: Sovereignty of Traditional Values, Peaceful Religious and Traditional Co-existence, Cultural diversity, Tolerance and Unity.

Adhering to its vision, mission and core values, MCRA prepared Medium Term Development Plan, 2018 - 2021, in line with the President's Coordinated Programme Policies which is being operationalized through the National Medium-Term Development Policy Framework (2018 - 2021), "Agenda for Jobs": Creating Prosperity and Equal Opportunity for All, prepared by National Development Planning Commission.

Over the years, a number of interventions have been made to ensure effective interface between Government, Religious Bodies, and Civil Society on matters relating to Chieftaincy and Religious Affairs. The Ministry therefore implemented programs and sub-program such as Chieftaincy and Religious Affairs, Traditional Authority Management, Customary Law, Dispute Resolution and Religious Affairs. Notwithstanding, some development issues identified during the sector's performance review under the Ghana Shared Growth and Development Agenda (GSGDA II), which was implemented over the period 2014-2017, include some chieftaincy disputes unresolved, inability to pass LI on 11 lines of succession to stools and skins, and inadequate involvement of traditional authorities in National Development, Negative cultural practices of traditional authority.

Based on the aforementioned, the Ministry identified two thematic areas, development issues, policy objectives and strategies, from the National Medium Term Development Policy Framework (2018-2021) in the preparation of its Sector Medium Term Development Plan (2018-2021)

## **THEMATIC AREA**

The Ministry found itself within two (2) thematic areas of National Development Policy framework 2018 - 2021. These are:

- Governance, Corruption and Public Accountability
- Environment, Infrastructure and Human Settlement

## **ADOPTED ISSUES**

The issues to be addressed within the Plan period 2018 -2021 were also adopted from the National Development Policy framework 2018 - 2021. These include:

- Inadequate involvement of Traditional Authorities in national development
- Communal strife and disunity as a result of leadership succession and land disputes
- Inadequate involvement of religious bodies in national development
- Environmental degradation
- Upsurge in illegal mining (*galamsey*)
- Destruction of forests and farmlands
- Pollution of water bodies
- Negative cultural practices of traditional authority
- Lack of transparency and accountability in payment of royalties
- Weak traditional institutional mechanisms to provide alternative framework for settling chieftaincy disputes
- Chemical pollution from illegal mining

## **ADOPTED POLICY OBJECTIVES**

Policy objective and strategies were also adopted to address the aforementioned issues

- Improve Participation of Civil Society (Media, Traditional Authorities, Religious Bodies)in National Development
- Ensure sustainable extraction of Mineral Resources
- Enhance the role of Chieftaincy and Religious institutions in National development
- Prevent Environmental Pollution.

## STRATEGIES

- Engage religious bodies in the formulation and implementation of development programmes and projects. (SDG Targets 16.7, 16.10, 17.14, 17.17)
- Develop and implement a Multilateral Mining Integration Project (MMIP) to address the menace of illegal and unsustainable mining (SDG Targets 15.1, 15.3, 15.4, 15.5, 15.9)

Based on these adopted policy objectives and strategies, programmes and specific activities have been formulated for implementation within the period 2018-2021. The indicative budget for the Plan period is **GH¢112,750,000.00**. However, the MCRA anticipate to receive an allocation of **GH¢16,832,062.00 from Government of Ghana** within the medium term. This presents a gap which requires identifying alternative sources of funding. Resources will be judiciously utilized with respect to cost saving, and indicative financial plan.

The MCRA Medium-Term Development Plan (MTDP) 2018 -2021, was formulated by the Plan preparation team with facilitators from National Development Planning Commission (NDPC). ### **1.25 Office Accommodation**

MCRA is accommodated temporarily at the western wing of the State House building. This portion of the building has not been rehabilitated for so many years, resulting in the deterioration of the building. The building leaks with a slight rain affecting smooth work and destruction of office equipment and materials. The windows, doors and plumbing system are in bad state. In a move to address the foregoing, the Ministry of Works and Housing allocated bungalow no. 31, 6<sup>th</sup> Avenue Ridge, Accra to this Ministry for renovation and conversion into offices. Work is currently on – going. It is envisaged that after the rehabilitation, the number of offices will not be adequate for the existing number of staff. In the medium to long term the Ministry has to make provision for the construction of permanent office complex on the available land to accommodate the staff.

Similarly, Houses of Chiefs and Traditional Council offices are inadequate and not in good condition. Most Traditional Councils are within the palaces of Traditional Authorities therefore hampering effective workflow. The Ministry is putting measures in place to provide office accommodation and renovate the existing structures.

### **1.26 Office Equipment**

The office equipment of the Ministry, Houses of Chiefs and Traditional Councils i.e. computers, printers, accessories, photocopiers, Air-conditioners, among others are obsolete and inadequate. The Ministry would like to provide modern office equipment and accessories in place of the old ones.

## **1.27 ANALYSIS OF CROSS CUTTING ISSUES**

### **1.27.1 ENVIRONMENT**

The activities of illegal mining and its destructive tendencies on the environment is a source of worry to the Chiefs who happen to be the custodians of our land. Polluted water bodies and inadequate provision of potable water raises challenges for the government in its effort to develop the Sector to enhance its contribution to national growth. In their bid to deal with this problem, Traditional Authorities have led campaigns to fight environmental degradation. The Inter-Ministerial Committee on Illegal Mining in conjunction with MCRA organized workshops to educate people within traditional areas affected by activities of illegal miners on the need to maintain a sustainable environment.

### **1.27.2 VULNERABILITY**

Social groupings have specific traditional practices and beliefs, some of which are beneficial to all members, while others are harmful to a specific group, such as women and children. Practices that have been found to be detrimental to the women folk include detention of alleged witches in camps, female genital mutilation and harmful widowhood rites. Despite their harmful nature and their violation of human rights laws, a number of reasons are given for their persistence. Examples of such reasons include; the practice of morality, rich cultural heritage, social integration and spiritual implications.

Networks of civil society and human right groups have carried out various activities such as campaigns, advocacy and sensitization workshops to halt harmful customary practices. Article 272 (c) of the 1992 Constitution gives the National House of Chiefs the onus to undertake the progressive study, interpretation and codification of customary law and to evaluate the traditional customs and usages with a view to eliminating those customs and usages that are outmoded and socially harmful. In view of this, the National House of Chiefs, under the auspices of the Ministry of Chieftaincy and Religious Affairs carried out a project entitled Elimination of Harmful Traditional Practices in 2014. The first phase of the project was to conduct research on the practices identified above and produce a report on the research findings.

## **1.28 Key Development Issues**

The key development challenges/issues/gaps that the Ministry and its departments encountered during the implementation of the Ghana Shared Growth Development Agenda (GSGDA) II, 2014 – 2017, include the following:

1. Lack of permanent Office accommodation for the Ministry and some of its departments
2. Deplorable state of the temporary office and residential accommodation for the Ministry and its departments
3. Insufficient Manpower
4. Inadequate office machinery, equipment and transport for effective service delivery
5. Inadequate financial support for the adjudication of Chieftaincy disputes.
6. Inability to pass Legislative Instruments on 11 draft Lines of Succession to Stools and Skins.
7. Inability to pass Legislative Instruments on Membership of Regional Houses of Chiefs.
8. Inadequate funding to undertake Capacity Building Programmes for Chiefs and Staff of the Ministry
9. Inability to mainstream HIV/AIDS educational Programmes into the Ministry's activities
10. Absence of Monitoring and Evaluation Plan for Programmes and activities.

## **1.29 Lessons Learnt Which Have Implications for Ensuing Planning Cycle, 2018-2021**

The Ministry has taken steps to deal with the problem of office and residential accommodation, which turned out to be a challenge. Steps taken include:

1. Renovation and conversion of bungalow no. 31, 6<sup>th</sup> Avenue Ridge, Accra into offices for the headquarters.
2. Provision and renovation of office accommodation for the Houses of Chiefs.

MCRA has also planned to:

- a. Provide modern office equipment and accessories to enhance service delivery.
- b. Recruit staff for the Houses of Chiefs and Traditional Councils.
- c. Reduce chieftaincy disputes by: providing funds for Judicial Committees to adjudicate cases, building capacity of traditional authorities in Alternative Dispute Resolution Mechanism, and organizing peace building activities for traditional authorities.
- d. Continue with the Project to codify lines of succession to stools and skins.
- e. Facilitate the passage of LI on Membership of Regional Houses of Chiefs.
- f. Undertake monitoring and evaluation exercises to ensure successful implementation of policies, programmes, projects and operations.
